ALASKAN TROPHIES

WON AND LOST

By G. O. Young

"IT was a happy coincidence which brought Mr. Young and his two companions together, with a common purpose to see more of unexplored Alaska and to hunt the animals. Their tour might deter those of less courage, for before the trip ended they were obliged to brave the dangers of turbulent rivers, of crevases in glaciers, of hazards in pursuit of mountain sheep and suffer from cold and storms in their camps. And yet these three men seemed to enjoy it, even if it meant sudden baths in icy waters, long hard climbs over rocky slopes after game, only to reach the desired point and find the animals had been keen enough to outwit them instead of being caught off guard.

"The trip took four months and Mr. Young returned to his home in West Virginia with three trophies. The head of a caribou, a sheep and a wolverine and a large number of photographs, many of which are reproduced in the volume.

"Mr. Young has told an interesting story, which will delight the fire-side traveler and also the stout adventurer."—**The Boston Transcript.**

THE SCOUT OF THE BUCKONGEHANON

An Historical Romance of the West Virginia Border

By JOHN CAMILLUS McWHORTER

"It is almost like turning again the pages of an old-time story of Indian hunting and fighting, to read about the exciting events here chronicled. It is a romance of the West Virginia frontier between the close of the French and Indian War and the beginning of the Revolutionary period.

Like the stories of Boone in Kentucky, the author describes as faithfully as possible the conditions of pioneer life. History and tradition are cleverly interwoven, making the story an entertaining chronicle of the past."

ABEL (ANNIE HELOISE) THE AMERICAN INDIAN as Slaveholder and Secessionist; as Participant in the Civil War; and under Reconstruction: omitted chapters in the diplomatic history of the Southern Confederacy; *with bibliography and analytical index. Handsomely printed in large Caslon type on Alexandra handmade paper*, 3 vols., large 8vo, cloth, uncut, gilt top. $15.00 net.

¶ "A brief summary cannot do justice to the care and detail of the investigation. The salient points are the conditions and influences leading up to the treaties of alliance between the Confederacy and the five leading tribes, especially the neglect of the Federal government, and the influence of missionaries, of Indian officials of Southern sympathies, and of agents from Texas and Arkansas; and a careful and thoughtful analysis and discussion of these remarkable treaties, negotiated almost as between equals, and granting the Indians not only relief from the numerous blunders and injustices of the United States, but even a delegate in the Confederate Congress and a pledge of ultimate statehood. The volume (I) closes with enlistment of the Indians in the Confederate army, and the hesitating and doubtful refusal of the Federal government to adopt a similar policy with the loyal Indians who had fled to Kansas."— *American Historical Review.*

"Opens up an altogether neglected field of Civil War history, and proves the importance of the civilized Indian natives as a factor in diplomacy and war. . . The political and social conditions existing in the Indian Territory for some years preceding the outbreak of the Civil War are here for the first time adequately portrayed."— *The Dial.*

"Written not only with historical accuracy, but interestingly and forcefully. The publishers have given it a most attractive format. . . Its notes are particularly valuable to the student who wishes to pursue any phase of the subject still further."— Boston *Evening Transcript.*

ALVORD (CLARENCE W.) THE MISSISSIPPI VALLEY in British Politics: a Study of the Trade, Land Speculation, and Experiments in Imperialism culminating in the American Revolution. *Handsomely printed in large Caslon type on Alexandra deckle-edged paper, with specially prepared colored maps and an extensive analytical index*, 2 vols., large 8vo, cloth, uncut, gilt tops. $12.50 net.

¶ THE AMERICAN HISTORICAL ASSOCIATION AWARDED THE LOUBAT PRIZE to Professor Alvord for this work, as being the most important work on American history during its five year period.

¶ One of the most important yet revolutionary historical works, published in many years. Historians have assumed that the causes leading to the American Revolutionary War arose from the controversy with the seaboard colonies over the Stamp Act and tea tax, and that this controversy with the seaboard colonies occupied exclusively the attention of the British ministries. Now it appears that the ebullitions of New York and Boston only intermittently distracted British statesmen from the consideration of the real American problem that was to them of far greater importance — the development and organization of the western empire, which Great Britain had won in the French and Indian War. Actually, the Stamp Act was merely a measure to finance western expansion — the Townshend Act a minister's revolt from the western policy of his colleagues.

Here is told the story of Connecticut projectors intriguing against Pennsylvania projectors and Virginia projectors against both; how the interests in land speculation of such men as Governor Dunmore, Benjamin Franklin, and George

Washington were shaping the course of colonial politics, how Samuel Wharton, a wily Philadelphia merchant, was scheming against all and enlisting the cupidity of British politicians and capitalists in support of his schemes until the ministry, honeycombed with his intrigues, narrowly escaped dissolution.

Deals with the claims of the various colonies to the West; the influence of the great land companies of different colonies; the opposition of the fur-traders to western colonization; the fears of British and American speculators in eastern lands; and the conservation of the imperial interests.

"Doctor Alvord has here performed the double task of analyzing the complex political situation in London, and of describing at the same time the economic enterprises that affected ministerial plans. . . . The disposition of the interior wilderness gained in 1763 was the vital phase of the American problem and not the disturbances in New York and Boston. . . . The illuminating chapters are those which discuss the rival capitalistic enterprises of land speculation and the fur-trade, and the political manoeuvering of each for the right to exploit the great interior. For at this time there existed a close alliance in Great Britain between "big business" and the governing class, resulting in a political immorality not unknown in the United States. . . . The eighteenth-century craze for speculation seized on the Mississippi Valley as a source for quick fortunes. Among the conspicuous "plungers" were Franklin, Washington, and Governor Dunmore. . . . A rare example of patient, profound scholarship and a treasury of information for research workers." — *American Economic Review.*

"Hitherto no one has attempted a comprehensive study of the many problems involved in the possession of the western territory, or of the British policy of dealing with these problems, during the whole period from the Peace of Paris to the opening of the Revolution. To this task Professor Alvord has given many years of unwearied research. . . constitute an important contribution to the literature of the American Revolution. . . Alvord is at his best in dealing with the particular episode, in unravelling some tangled thread of personal intrigue or of factional politics, or in tracing the complicated and troubled fortunes of such an enterprise, for example, as that of the Vandalia Company. . . . It was indeed not a British policy, but British muddling in the West, that failed." — *American Historical Review.*

"The general subject that has been worked out in its various aspects is the old French settlement in the Illinois country. The present work attempts something considerably more ambitious and decidedly more significant. . . includes the entire frontier of the English colonies as well as Nova Scotia, Quebec, and the great lakes region. . . a clear picture of the British government in the process of evolving a colonial policy. A distinct contribution to genuine national history. . . Western historians are certainly under a considerable obligation for this contribution." — *Mississippi Valley Historical Review.*

"The most important contribution which for many years has been made to the literature of the American Revolution." — *Catholic Historical Review.*

ALVORD (CLARENCE W.) AND LEE BIDGOOD. FIRST EXPLORATIONS of the Trans-Allegheny Region by the Virginians, 1650-1674. *With bibliography and analytical index. Printed in large Caslon type on Alexandra paper, deckled edges, with facsimiles and maps*, large 8vo, pp. 275, cloth, uncut, gilt top. $7.50 net.

¶ Issued in an edition of 1000 copies, printed direct from type, only a few copies remain for sale.

An important contribution to the history of early western explorations beyond the Alleghenies, in the Ohio Valley, and extending as far south as Florida. Herein is recorded the hitherto inaccessible original accounts of the first explorers — Englishmen, who were in this region almost as early as the French were on the Mississippi waters. If priority of discovery be the proof of dominion,

then the territory in dispute between France and England, culminating in the French and Indian War, belonged by right to the latter; because two years before Joliet and Marquette made their famous journey down the Mississippi River, Thomas Batts and Robert Fallam camped by the side of the New River, a branch of the Great Kanawha.

"This carefully edited collection of original documents relating the adventures and discoveries of the English explorers prominent in the early expeditions to the Ohio and Mississippi Valleys is the first authoritative work on the subject and in view of the facts for the first time presented should prove an important contribution to the history of western exploration."— AMERICAN LIBRARY ASSOCIATION'S *Booklist.*

"It is singular enough that two such painstaking historians as Francis Parkman and Justin Winsor should have denied the authenticity of these discoveries; but as the most essential link in the chain of evidence was buried in the Public Record Office in London, there is perhaps some excuse for their mistake. — *The Dial.*

ANDREWS (GENERAL CHRISTOPHER C.) PIONEER IN FORESTRY Conservation in the United States; for sixty years a Dominant Influence in the Public Affairs of Minnesota and the Northwest: Lawyer; Editor; Diplomat; General in the Civil War: Recollections, 1829-1923, edited by his daughter, Alice E. Andrews. *With analytical index, portraits, and plates, handsomely printed in large Caslon type, on laid paper, deckle-edged*, large 8vo, cloth, uncut, gilt top. $6.00 net.

¶ General Andrews was one of the most distinguished pioneer attorneys and public officials of Minnesota, and the last of Minnesota's Civil War generals. He was a resident of the state for sixty-five years, and at all times prominent not only in the affairs of Minnesota but of the Northwest generally. His autobiography covers a very important period in westward development.

Born in New Hampshire, he studied law at Harvard. He spent the years 1843 to 1850 in Boston at a time when Boston was particularly fortunate in its prominent public and literary men. Andrews was a close observer of men, their manners, customs, and peculiarities. His autobiography contains many quaint and interesting sketches of such men as Daniel Webster, Rufus Choate, Abraham Lincoln, Henry Clay, Charles Sumner, Andrew Johnson, Wendell Phillips, Horace Mann, Edward Everett, Van Buren, President Pierce, and many others.

Relates his activities in forestry and conservation, experiences as editor and newspaper man, his part in the anti-slavery movement, the free-soil party, the Civil War, and in Reconstruction.

"A man of considerable ability, a keen observer and possessed of rather unusual administrative talent. He was a strong opponent to slavery. . . His service during the days when in Arkansas and Louisiana reconstruction was treading on the heels of war reveals his broad-mindedness . . . an interesting series of comments on persons and things encountered in the course of an unusually long life, distinctly worth while." — *American Historical Review.*

"Covers an important period in the development of the west. . . An interesting part is that which contains anecdotes of famous men, such as Lincoln, Choate, Webster, Van Buren, Andrew Johnson and Edward Everett." — *Boston Globe.*

"A distinguished pioneer, attorney and public official, prominent in the affairs of Minnesota and of the Northwest generally. . . Covers a most important period in westward development." — *Kansas City Star.*

"Those who delight in a straight-forward autobiography will find a decidedly worth-while addition to the library. . . His adventures are related in a simple and direct literary style that is charming. . . His prophetic work in forestry will be understandable to this and later grateful generations privileged to read his remarkable book." — *St. Paul Dispatch.*

"The recollections of such a man invite attention with their promise of interesting revelations of conditions and personalities. . . Bits of insight and illustrations of motives and methods of men who dealt with matters of importance." — *Mississippi Valley Historical Review.*

"His educational work with regard to our forests and their importance to mankind is his contribution to social theory. . . The volume is beautifully printed as the Clark books usually are." — *Social Forces.*

"Well presented. . . The book deserves a wide reading among students of American history, biography and political evolution." — *Boston Evening Transcript.*

"The last work of one who, during her life, had become known as a careful and painstaking student in a limited field of research. Miss Blair has here made available for English readers two important, but little known, French sources of information about the Indians inhabiting the Great Lake region, and besides these, two later accounts of the Sauk and Fox Indians, written by Americans, a biographical sketch of Nicolas Perrot; notes on Indian social organizations and mental and religious life, by modern ethnologists. . . A worthy and fitting monument to the memory of a faithful scholar. Of fairly equal value with the memoirs are the valuable gleanings appended in footnotes and appendixes, given with fullness and at the same time with scholarly discrimination."— *American Historical Review.*

"More learning, industry, and skill than often go to the making of independent works have here been exercised in bringing these component parts together so as to form a connected homogeneous whole and to present the entire subject of the Indian, his character and way of life, in the light of actual observation, past and present, and as it is now interpreted by the masters of scientific method who have made it a life study."— *Athenæum.*

BLAIR (CAPTAIN WALTER A.) A RAFT PILOT'S LOG; a history of the great rafting industry on the Upper Mississippi, 1840-1915; *with analytical index, ten portraits, and thirty-one plates of early views of the logging industry on the Great river, steamboats, towns, etc., and map of the rafting region of the Mississippi, especially prepared by the author and Max Mayer of the American Geographical Society. Handsomely printed in large Caslon type on laid deckle-edged paper.* One volume, large 8vo, cloth, uncut, gilt top. $6.00 net.

¶ Issued in a limited edition, printed direct from type and the type distributed.

The logging industry played a most important part in the story of American westward expansion. For over three-quarters of a century it was the leading factor in the settlement and development of the seven great states of Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas and Nebraska.

The first volume to record historically and accurately the development, rise and wane of this great American industry. It covers the history of the rafting industry from its inception in 1860, through the halcyon days to its decline and virtual end about 1915. An authentic record told by one who had a leading part therein virtually from its beginning and who is still one of the leading men in the navigation and industry of the great river. He has always had a close acquaintance with the leading men in the industry and writes, not from guesswork or hearsay but from first-hand knowledge, what he has experienced and seen.

With the exception of such works as Merrick's *Old Times on the Upper Mississippi*, Chittenden's *Early Steamboat Navigation on the Missouri* and records published in the Burlington *Post* there is little authentic material available on the history of steamboat navigation on the great river. A number of volumes have been published, most of which were written from hearsay and are full of exaggerations and extravagant stories that the old members of the deck crew poured into the deluded ears of the greenhorn on his first trip. Neither are they correct from a geographical or biographical standpoint.

The rafting industry produced a race of men peculiarly differing from all others particularly in the westward movement and their lives and experiences were no less unusual. The volume includes biographies of the following captains: S. B. Hanks, J. M. Turner, George Winans, E. J. Lancaster, E. W. Durant, Joseph Buisson, Cyprian Buisson, Samuel Hitchcock, Paul Kerz, John McCaffrey, Robert Dodds, J. M. Hawthorne and S. R. Van Sant. The present volume contains probably the largest number of accurate and authentic illustrations and portraits yet published, including photographs of raft-boats, steamships, rafts and rafting and of portraits of the prominent masters, engineers, pilots, mates, etc.

Includes elucidations of the terms and customs peculiar to rafting days with explanations and methods of handling these mammoth rafts: A complete list, with particulars of the great sawmills of Iowa, Illinois, Missouri, Minnesota and Wisconsin. Complete lists of raft-pilots from 1840-1913, of the rapids pilots who handled rafts over the Upper, or Rock Island Rapids, from 1840-1915 and also those who ran rafts over the Lower, or Des Moines Rapids; the chief engineers of the rafters — the only authentic record of these extant — and the raft-boat mates — again the only chronological record of these extant. The volume also gives complete lists of the raft-boats with the names of their masters and owners,

also complete tables of the output of logs from the different streams into the Mississippi.

"Bradbury was a remarkable man — one has only to read the journal of his

voyage [with the Astorians] up the Missouri in 1811 to see that. His devotion to his pursuits was the wonder of all who observed them. There was no hardship too severe for him to undergo. . . . His well known book, *Travels in the Interior of America*, is one of the most useful works of this period, and one which the careful student of history never fails to consult. It is the best existing authority on many points, and on some the only one."— CHITTENDEN'S *American Fur Trade.*

¶ Historic Highways series. 200 printed for sale separately.

The hewing of Braddock's Road from the Potomac to the Monongahela was the first great step of material progress made in the West. Of even greater interest is the story of the half-century succeeding, in which Braddock's Road was the only highway into the upper Ohio Valley — the most important thoroughfare into the West. Material has been gathered both in this country and in England.

"The book is well supplied with maps and illustrations of parts of the road as it appears to-day. It is intensely interesting and is heartily recommended to all who are interested in colonial history."— New York *Athletic Club Journal.*

"Mr. Hulbert has gathered a wealth of information from every available source, both in this country and in England, and the results of his painstaking labor will stand as an enduring monument to his research and love of his subject."— Chicago *Evening Post.*

"A very interesting narrative, and but little known. Buttrick . . . . was traveling through Canada on his way to Detroit when the War of 1812 commenced. Held a prisoner on parole for seventeen days, he was finally allowed by General Brock to cross the line, but did not reach Detroit. In July, 1814, in company with four others, he passed down the Allegheny to within thirty miles of Pittsburgh in a canoe, the fourth night they slept at the house of a mighty Nimrod, whose twenty or thirty hounds ate up the provisions for the trip. This trip extended to Louisville and Cincinnati. In 1815, he embarked again at Olean, this time on a flat boat. There started at the same time no less than 1200 people, emigrants, mostly from the State of Maine. His trip on this occasion extended to New Orleans. This terrible journey from New Orleans through the Indian country to Cincinnati he performed entirely on foot, generally alone, always sick, often hungry, and sometimes nearly starved."— THOMSON, *Bibliography of Ohio.*

Evans was a man of culture, and somewhat of a philosopher. He thus describes his object in undertaking his journey: "I wished to acquire the simplicity, native feelings, and virtues of savage life; to divest myself of the factitious habits, prejudices, and imperfections of civilization; to become a citizen of the world; and to find amidst the solitude and grandeur of the western wilds more correct views of human nature and of the true interests of man." These views do not deter the author, however, from making shrewd and practical observations on the regions through which he passed — along the shore of Lake Erie to Detroit, and down the Ohio and Mississippi to the Gulf.

"Both give vivid and truthful pictures of the regions which they visited and which they traversed painfully on foot or by primitive conveyances; and both of their narratives add to the reader's knowledge of the conditions out of which the great bustling, prosperous middle West has emerged."— *The Living Age.*

CHITTENDEN (H. M.) HISTORY OF EARLY STEAMBOAT NAVIGATION on the Missouri River; life and adventures of Joseph LaBarge, pioneer navigator and Indian trader, for fifty years identified with the commerce of the Missouri Valley; *map and illustrations,* 2 vols., 8vo, cloth. $12.50 net.

¶ Issued in an edition of 950 copies, only a few copies remain.

Very few people now have any conception of the part the steamboat navigation on the Missouri river played in the up-building of the West. The business of the fur-trade, the intercourse of government agents with the Indians, the campaigns of the army throughout the valley, and the wild rush of gold-seekers to the mountains, all depended, in a greater or less degree upon the Missouri river, as a line of transportation. No other river in this country has a record to compare with it. From beginning to end it abounds in thrilling incident of the life which it fostered so full of picturesque and even tragic details.

LINCOLN. These volumes are also of interest to Lincoln collectors. The most obscure incidents in that great man's career were his visits to the Missouri river in the summer and fall of 1859. Although these visits were not political he was induced to make several speeches, the tenor of which is herein related. Also includes Lincoln's discussion with General Dodge regarding the Union Pacific railroad, his visits to Kansas, his interest in fur-trade, and his act of commuting sentence of condemned indians, etc.

The most interesting period of Oregon history is that of the Provisional Government, when the pioneers, having in vain appealed to the general government to recognize Oregon as part of the national domain, met and organized a Provisional Government, and under it not only enacted their necessary laws, but waged war against hostile Indians, etc. The present work is an important and interesting contribution to that period.

"Includes a mass of material not commonly found in historical works — reminiscences of missionary, fur-trader, trapper, and mountaineer, descriptions of Indian life and characteristics, Indian folk-lore, episodes of early settlement, etc."— *The Outlook.*

COLUMBUS (CHRISTOPHER) HIS LIFE, WORK, AND REMAINS, from original printed and manuscript records, together with an essay on Peter Martyr and Las Casas, the first historians of America, by John Boyd Thacher. *Handsomely printed in large type, in a limited edition, and exhaustively illustrated*

¶ The most extensive and important work ever published in English on Christopher Columbus, the discovery of America, and the earliest voyages thereto. The author's library of books and manuscripts on this subject was the most extensive ever gathered together. The set presents much hitherto inaccessible historical material taken from the original manuscripts, unique or excessively rare originals, much of which is translated for the first time from the Latin, Spanish, and Italian. Mr. Thacher presents for the first time facsimiles of many of these great rarities as well as of the early cartography. The extensive chapters, covering about 100 pages each on Peter Martyr and Las Casas, are unquestionably our best monographs on these two great early historians of America.

Mr. Thacher's purpose was to make available for libraries and students in the U.S. the original source material upon which the history of the discovery of America and the earlier history thereof is based. His volumes for this very early period rank with Winsor's "Narrative and Critical History."

"The most voluminous and sumptuous work on Columbus ever published in the U.S. Mr. Thacher has rendered to American students a great service."
— *American Historical Review.*

"Mr. Thacher's work brings within the range of libraries considerable material not accessible. . . An immense storehouse of material and a distinct addition to the literature of American history."— *The Dial.*

"The most important feature of Mr. Thacher's volumes is their facsimiles of early publications and manuscripts. Some of these had not before been reproduced, and most are nowhere else so readily accessible. All interested are under an inestimable debt of gratitude to Mr. Thacher for making these priceless treasures available."— New York *Evening Post.*

¶ Printed in an edition of 750 copies only, direct from type, and the type distributed.

These beautifully printed volumes present for the first time, in consecutive English translation, these five important documents, being the first authentic descriptions ever written of the highly developed civilization on the continent of North America at the date of its discovery.

HISTORIANS AND SCHOLARS have long recognized these documents as the earliest and most authoritative source of information on this period of American history.

LONG LOST DOCUMENTS. For three centuries the first and the fifth Relations were considered permanently lost.

FIRST COMPLETE TRANSLATION. The present edition is the first to provide a complete English translation of the entire series of *Relaciones*.

CORTES WROTE WITH SOLDIER-LIKE terseness but his powers of observation were very acute and his records accurate. He was unfamiliar with scholastic styles, but his plain records are ungarnished with digressions into philosophy and theology. They are a plain narration of fact.

THE AUTHOR, F. A. MACNUTT, is not only one of the best authorities on this period of American history, but at the same time one of the most thorough students of the Spanish of its period.

AZTECS. Cortes gives the first and perhaps most authentic detailed description of Aztec civilization at the zenith of its splendor.

ADDED DOCUMENTS, are the Letter to Fray Juan de Zumarraga of August 1529, an extensive Biography of Cortes in four chapters, the last Will and testament of Cortes, a Bibliographical chapter, and extensive annotation.

THE DISCOVERIES OF COLUMBUS brought together the civilization of two worlds as absolutely strange to one another as different planets. This sudden contact produced conflict. Hence the period of the Spanish Conquest, depicted by Cortes, is the most striking of any that modern history records. No element of drama was absent, for the most heroic qualities, as well as the blackest passions, were engaged on both sides in a life and death struggle which culminated in an appalling race tragedy.

"The letters of Cortes are an historical monument not only first in order of time but of the greatest authenticity and value. . . The events which happened

in the conquest of New Spain are derived from sources of information more original and more authentic than that of any transaction in the history of America." — DR. WILLIAM ROBERTSON, *the historian.*

CROGHAN (GEORGE) AND THE WESTWARD MOVEMENT, 1741-1782, by Albert T. Volwiler; *with analytical index, facsimile of Croghan's letter and three specially prepared colored maps showing Croghan's activities as an Indian agent and trader, land-patents granted to him, and Croghan's land operations and Indian activities. Handsomely printed in large Caslon type on laid paper, deckled edges,* large 8vo, pp. 370, cloth, uncut, gilt top. $6.00 net.

¶ Issued in an edition of 1000 copies, printed direct from type.

Croghan was the leader in the expansion of the Anglo-Saxon race into the Ohio region before 1776. He was pre-eminent as an Indian trader, a land speculator, and a projector of inland colonies. His trading-houses were scattered throughout the upper Ohio region. The activities which radiated from them constituted one of the chief causes of the French aggression in the Ohio valley from 1749 to 1754. Sir William Johnson relied upon him to conduct the most important and delicate negotiations with the Indians.

THE WESTWARD MOVEMENT. From one point of view, the history of the United States until the twentieth century is the story of a long struggle for the possession of a continent. In this struggle, George Croghan was one of the leaders of the vanguard of that mighty host which made the great march across the continent.

The volume records much new material in regard to Washington, Franklin, Bouquet, Dunmore, Brant, Governor Franklin, Sir William Johnson, Alexander Ross, David Franks, Generals Gage, Amherst, and Forbes, William Trent, Samuel Wharton, Barnard and Michael Gratz, Alexander McKee, George Morgan, John Baynton, and many others.

Pennsylvania, New York, Kentucky, Ohio, Indiana, Illinois, Michigan, Virginia, and West Virginia. The volume is of great interest to students of the earlier history of this territory. It throws much light upon their early frontier conditions, and their early settlements.

New and valuable material will be found regarding the struggle leading to the Revolution and Croghan's relations thereto; of the various early land

Companies including the Grand Ohio Company, the Burlington Company, the Illinois Company, the Ohio Company of Virginia and many others.

"An excellent piece of work." — *Review of Reviews.*

"It leads Croghan out of his obscurity and gives him his rightful place in history." — *Outlook.*

"Full of information, hitherto but little known, and in it we meet the names of most of the emancipators of that period." — *Catholic World.*

"A commendable work. For the first time the career of this significant American fronitersman is set forth in a work that has been executed with scientific precision. It is a painstaking and accurate study based upon a wide variety of printed and manuscript sources. . . Many new facts are set forth, one is impressed with the solid contribution of the author. . . Contains three well-executed maps designed to illustrate the text, an extensive bibliography of sources and a very satisfactory index." — *American Historical Review.*

"Until the appearance of this volume western historians have had frequent glimpses of Croghan's activities but no connected or completed account of his career and services. . . Its thoroughness, accuracy, and balance, as well as the hitherto unknown material it brings to light, give it unusual value among books for this region and period. . ." — *Mississippi Valley Historical Review.*

Handsomely printed in large Caslon type on laid deckle-edged paper.* One volume, large 8vo, cloth, uncut, gilt top. $6.00 net.

¶ Issued in a limited edition and printed direct from type.

An authentic narrative of the experiences of a plainsman, trapper, lumberjack, freighter, pioneer and Indian-trader in the Northwest in the sixties and of a residence of between two and three years in Montana gold fields. The most authentic story yet published on the overland trail and the technique of the trail — of Indian raids and border treaties, of life in the Northwest forts, of pioneer relations with the Indian tribes, of vigilantes, and road-agents, of home and social life in the Northwest, and of the gradual evolution of law and order as molded on the trail, in the mining camps and in the pioneer settlements — the passing of custom into law and and the establishment of territorial government.

An absorbing story, simply told, of early days in the Northwest, giving details regarding the organization and outfitting of a typical overland party, experiences on the trail, life in the forts and stations along the way, serious and humorous happenings, difficulties where the trails divide, detours, the injured, the night ride to save the garrison and outlying emigrant trains, the Lander Cut-off, life in the mining camps, beginnings of farming settlements, the bread riots, border treaties with Indians, associations with scouts and pioneers, intimate details of family life, stage-coaches, wagon freight trains, gold trains, social conditions, amusements, schools, religious services, of the long forgotten methods of construction of the homes, etc. To those gripped by the spell of the great

Northwest the volume presents a most interesting and well-told story of its days of pioneer struggle and difficulty.

The volume deals with the Overland Trail, the Mormon Trail, the Overland stage-routes, the Lander Trail (then known as the Lander Cut-off), the cut-off used by Dickson, etc.

Much information is given regarding the organization and activities of road agents and the vigilantes' methods of justice before civil law became operative. Under the leadership of Henry Plummer, a bold and desperate character who succeeded in electing himself sheriff and thus protected by the law represented by himself and his deputies, a reign of robbery, terror and crime ensued. Through his deputies, messengers, spies, and so-called corresponding secretaries, stage-coaches carrying treasure were mysteriously marked. The courts were packed, judges were bought and false witnesses brought in. Trails became a farce and constant murders led to the formation of a vigilance committee.

BOZEMAN, BRIDGER, CHIEF JOSEPH, ETC. Bridger and Bozeman were neighbors and intimate friends of Dickson. In the volume Dickson throws much new light on both these men and on many other noted pioneers, plainsmen and scouts. His chapters on Chief Joseph and other prominent Indians of the Cheyenne and Nez Perce present some of the best material available on these men and their tribes.

The territory covered includes Wyoming, Montana, Idaho, Wisconsin, Iowa, Utah, Colorado, Nebraska, the Dakotas, Minnesota. It presents conditions in Virginia City during the earlier days of the gold rush, the beginnings of Bozeman City, the first Montana territorial election, etc.

"One of the most interesting and well-written accounts of pioneer days of the Northwest I have ever read. . . The chapter on Chief Joseph is one of the best concerning that famous Nez Perce Indian." — M. K. Sniffen, Secretary, *Indian Rights Association.*

Should be in every public and private library where intelligent thought or discussion is given to present day commercial, labor, and social problems.

While our political history has already been covered in many volumes, this is the only work adequately presenting our labor, industrial, and sociological history from the earliest to the present times.

The analytical index, giving a careful synopsis and classification by subjects, gives quick and full access to the most authoritative and reliable data on all matters pertaining to our social and industrial history.

"An indispensable tool in interpreting past events and solving the urgent questions of today — essential to all libraries." — AMERICAN LIBRARY ASSOCIATION'S *Booklist.*

"To understand the background of the reform policies of Roosevelt, the labor movement, the land policy, and, in general, the trend of American democracy, this work has a special value. . . One of the serious gaps in American historical writing has been that of accounts of the social thought of the country." — FREDERICK J. TURNER, *Professor of American History, Harvard University.*

"In no country is the labor problem more complex or varied than in the United States. Sectional divisions, race divisions, protective tariffs, immigration, and the most extreme vacillations of prosperity and depression have contributed to the result as we find it . . . we have had no patient, calm, authoritative historical view of the movement of American laboring life yet given us."— *The Commons.*

"The series will be recognized everywhere as one of the most remarkable products of American scholarly research. The hopes aroused by the first announcements are more than fulfilled. No library will be complete that does not contain this authoritative reference collection."— Chicago *Tribune.*

"The appearance of this series of volumes is an event of first importance to students of American history and economics."— *American Historical Review.*

"All these documents are excessively rare, and, though involving the burning question known to-day as the 'open' and 'closed shop,' have heretofore been virtually a sealed book to all save a mere handful of determined publicists. . . Will richly repay reading on the part of every man desirous of being well informed touching these momentous problems, quite apart from students chiefly interested in the legal and economic aspects. . . We repeat that to students of economic and labour problems these volumes constitute a veritable store-house of information as to labour organization and contemporary politics."

¶ Issued in a limited edition of 525 sets, it has long been out of print and is becoming increasingly difficult to secure from year to year. Occasionally we are able to secure sets as they come upon the market. It is one of the most beautifully printed and beautifully illustrated works ever produced in this country.

The first ample history of the campaign of 1759. It throws much new and important light on the characters of Wolfe, Montcalm, and Vaudreuil. It settles the disputed point of the site of the battle. It proves conclusively that the plan by which Quebec was taken was Wolfe's alone. It destroys the value of Colonel Townshend's life of Townshend, and at the same time is the first work in which Townshend has received justice.

It proves that Vaudreuil was utterly incompetent, and it exonerates de Ramezay. In the work are published for the first time plans made by the officers who were present at the siege, and numerous documents, letters, and journals which have not hitherto been published.

The "War of the Reviewers," the bitter controversy between the British magazines and those edited in America, ranged from the close of the second war with England to about 1825. It evoked much sarcasm and acrimony on the English side of the water; and much bitterness and sensitiveness on the part of Americans. In this controversy both the above works played a prominent part. It is interesting, at the beginning of another century, to discover how a

rather frank and somewhat unfavorable and brutal portrayal of certain phases of social life in America, was used to dissuade English farmers from emigrating to Illinois. Making allowance for this object, Faux's strictures are amusing rather than annoying. Welby wrote with a similar purpose in view, but with better taste and judgment in selecting material. Both were Englishmen of the middle class, and despite their prejudices, give a hopeful view for the outlook of American industry and growth.

"Faux was brutally frank, and generalized, to the disadvantage of the west, from exceptional cases of depravity and injustice. Welby's account was also unfavorable, due possibly to his conservative disposition. Both, however, throw valuable light on western conditions."— *American Historical Review.*

Contains a great deal of new material pertaining to the early history of the central, western, and southern parts of the United States, from 1780 to 1840. FLOWER (R.) ¶ Early Western Travels series. 200 copies were printed for sale separately.

One of the most interesting experiments in colonization was that of the English and Scotch communists, who tried in American settlements, to embody the theories of Robert Owen and other early socialists. Emigration to this settlement

was vigorously opposed by William Cobbett, who made the journal of Thomas Hulme a part of his weapon for attack. Hulme, a quiet English farmer, gave, however, an account eminently fair and just, which was wrested from its meaning by the acrimony of Cobbett. Flower was one of the chief founders of the Illinois settlement. These letters are written avowedly to encourage emigration to Illinois. They are, nevertheless, vivid and well-written descriptions of the region. The journals are not confined to the Illinois settlements, but picture the entire voyage of an emigrant seeking a new home in the Western prairies. Thus they have more than local value, and make a distinct contribution to the history of American expansion.

"The value of the volume is enhanced by the introductions and the notes furnished by the editor, Mr. Reuben G. Thwaites."— New York *Times*.

¶ Issued in a limited edition, and printed direct from type.

An important and intensely interesting contribution to the history of the Old Southwest, the real story of which has largely remained buried in unpublished manuscripts. From these sources and from contemporary newspapers the author has gathered and detailed in a very interesting narrative the incidents connected with the civilization of the Old Southwest. A large part of this material has never before been published.

The volume deals more particularly with what is now the states of Oklahoma, Texas, Missouri, Arkansas, New Mexico, Colorado and Kansas; with the explorers and traders, with Bonneville, Washington Irving, John Howard Payne, Governor Sam Houston, Colonel Dodge and others identified with the early development of the Southwest. It covers the period extending from shortly after the Louisiana Purchase to the period of the Mexican War.

"Careful documentation and scrupulous regard for accuracy, make this a valuable as well as an interesting record. The book consists of a series of papers on the early history of Louisiana, Arkansas, Kansas, Missouri, Texas, New Mexico, Colorado, and Oklahoma. It gives in lively fashion accounts of expeditions, explorations, massacres, trading, Indian and border warfare, and pioneer life in general. Excellent type, paper, and binding — a well-made book." —American Library Association's *Booklist*.

FORREST (EARLE R.) MISSIONS AND PUEBLOS OF THE OLD SOUTHWEST; their Myths, Legends, Fiestas, and Ceremonies, with some accounts of the Indian Tribes and their Dances; and of the Penitentes; *with bibliography, analytical index, and thirty-two plates reproduced from original photographs. Handsomely printed in large Caslon type, on laid, deckle-edged paper.* One volume, large 8vo, cloth, uncut, gilt top. $6.00 net.

¶ Issued in a limited edition, printed direct from type and the type distributed.

A volume indispensable to the student of Southwestern history, ethnology, and archaeology, and equally valuable to the traveler in the great Southwest.

The author has gathered the traditions and legends of the Spanish period and the early years of the American occupation. He records many a curious legend connected with the missions and pueblos — the legend of Padre Padilla's coffin, tales of the lost Spanish mines, of the cruel Apaches and their relentless raids on the pueblos, etc. He narrates the Indian revolt of 1680 which drove the large Spanish colonies entirely out of Arizona and New Mexico, the Confederate invasion of 1862, etc.

Material for this work has been gathered many times under great difficulties, sometimes at great personal risk. The author began his studies a quarter of a century ago when he rode the cattle ranges and his researches were continued during his college vacations and for years thereafter, both by study of published material and personal research throughout the region. He has probably visited more of these historic ruins, pueblos, and tribes than any living student.

The volume records the results of extensive studies on the Southwest Indians, of their strange religious rites, ceremonies, dances, mythology, etc. It furnishes accurate accounts of the weird snake, flute, and rain dances as they originally existed and before they degenerated through the inroads of the white visitor. It gives the only published accounts of some of these dances and includes the last old-time snake dance at Oraibi in 1906, and the subsequent uprising at that pueblo.

Furnishes complete records of the annual fiesta dates of the Pueblos, a table of the ceremonies of the Hopis, a table of dates of the snake, rain, and flute dances, a table giving the English translation of Spanish mission names, an interesting description of the Penitentes and their peculiar rites and ceremonies, a full account of each mission, etc.

The region dealt with includes Texas, Oklahoma, New Mexico, Arizona, California, parts of Nevada, Utah (including the Mormons) and Colorado.

We believe this volume gives the first complete and authentic story of all the Spanish missions and pueblos in New Mexico and Arizona, during both the Franciscan and Jesuit periods, from the coming of Coronado in 1540 to the final expulsion of the Franciscans in 1824. Thence the history of each mission is brought down to the present time.

GREGG (FRANK M.) THE FOUNDING OF A NATION: the Story of the Pilgrim Fathers, their voyage on the Mayflower, their early struggles, hardships, and dangers, and the beginnings of American Democracy, as told in the journals of Francis Beaumont, Cavalier. *Handsomely printed in large Caslon type on Alexandra handmade paper, deckled edges, and illustrated with colored maps specially prepared for this work and plates, some in colors, and other historic illustrations*, 2 vols., large 8vo, cloth, uncut, gilt tops. $7.50 net.

¶ Issued in a limited edition. Printed direct from type and the type distributed.

A narrative history of the Pilgrims of Plymouth has long been needed. Here for the first time it is told in the form of an historical romance.

Entirely new maps in colors have been especially prepared by The Matthews-Northrup Company. These maps we believe to be the best and most accurate extant. Special paintings have been made by Lucius W. Hitchcock. A bird's-eye view of Plymouth Plantation in 1621 giving the location of the various buildings, etc., has been prepared to give an accurate historical setting for the colony during their first summer. These are reproduced in colors. No illustrations have been included that do not bear the stamp of historic accuracy.

"The oft-told tale of the Mayflower Pilgrims is here told with realistic freshness and fullness of details in the form of a historical romance. A clever piece of fiction accounts for their discovery, far at sea, of an unwelcome stowaway fleeing from enemies. Francis Beaumont, a cavalier, whose journal tells the Pilgrims' story with impartial fidelity to historical facts, and his own attachment to a winsome maiden; beginning on the perilous voyage, this ripened into a love for her and a sympathy with her friends that made him their partner in all the toils and hardships of the infant colony, till his marriage with her after three years of such probation. This strikingly novel form of the old story of those heroic pioneers of American democracy is likely to gain readers not yet attracted to it. It is finely illustrated with maps, photographs, and copies of original paintings."— *The Outlook.*

"Clinging close to the historical accounts, the author portrays the difficulties of the sailing, the loss of the Speedwell, the hardships of the voyage, the storm at sea, the signing of the 'Mayflower Compact,' the dangers and sufferings on land, the perils of the savages, the expedition of discovery, the fire, the great sickness, the founding of Thanksgiving Day, the great drought and famine."

Ogden, with the predispositions of a New Englander, found much to interest him, and much to disapprove. His style is clear and straightforward.

Bullock, a distinguished English naturalist, was the first to visit and adequately describe the Mexican nation. The journal is a delightful bit of description of early Mississippi voyaging.

"The value of Gregg's account of the early trading expeditions over the famous Santa Fé Trail, of pioneer life in the extreme southwest prior to its acquisition by the United States, of the condition of affairs in New Mexico, and of the manners and customs of the aborigines of New Mexico and Texas can scarcely be overestimated. The narrative is interesting, truthful almost beyond criticism, and withal is one of the best contributions to southwestern literature that has ever appeared."—LARNED'S *Guide to American History.*

"It is the classic of the Santa Fé Trail, well arranged and admirably written. It is entitled to rank as one of the great works of American history."

GRINNELL (GEORGE BIRD) TWO GREAT SCOUTS AND THEIR PAWNEE BATTALION: experiences of Frank J. North and Luther H. North, pioneers of the great West, 1856-1882, and their defense of the building of the Union Pacific railroad: *with analytical index and folding colored map of the territory between the Missouri river and the Rockies showing the routes and territories in which the Norths worked. Handsomely printed in large Caslon type on laid, deckle-edged paper.* Large 8vo, pp. 298, cloth, uncut, gilt top. $6.00 net.

¶ Issued in a limited edition and printed direct from type.

Frank North and Luther North were two of the greatest scouts of the West. They were in the class with Bridger and Carson. Luther North is today the greatest, as he is also the last of the old-time scouts of America. An unvarnished and reliable account of their experiences. A multitude of important events took place that have never been recorded, one of the most important of these being the work done by the two Norths and their Pawnee scouts. This record brings back vividly the frontier that once was, and has passed forever.

The Norths had been residents of the frontier from boyhood. The dangers and uncertainties of frontier life had taught them self-dependence, the ways of its wild inhabitants, and the habits of the Indians and their methods in warfare. These experiences singularly fitted them for the important part they were to have in westward expansion. The service they rendered cannot be too highly praised. It is here recorded in a very readable and consecutive narrative, without any embellishments and with no attempt to make heroes of men, whose plain narrative clearly shows them to have been such.

THE PAWNEE SCOUTS. In 1864, General Curtiss was having great difficulty with the hostile Indians. Knowing the ability of the Norths, and their influence with the Pawnees, he organized the Pawnees for the defense of the frontier settlers. The fear of this battalion, thoroughly familiar with the region and the workings of the Indian mind, ever on the move and ready to strike at unforeseen points, was an effective check.

THE BUILDING OF THE UNION PACIFIC RAILWAY. Both the survey and the building of this railway were conducted under great difficulties. The region penetrated by the Union Pacific lay through a wild unsettled area, alive with hos-

tile Indians, who could strike and be gone before any help could be received from the forts. When North and his Pawnee scouts were put into operation along the line of the railroad, they met the hostile Indians with a full knowledge of their methods of warfare. The defense of the railroad by the Pawnee scouts thus presented to the hostile Indians an aspect very different from that offered by the white troops, and eventually became an efficient check on their depredations.

THE TERRITORY COVERED BY THE NORTHS extended from the Canadian boundary south through Oklahoma, and westward to and beyond the Rockies, including the states of Nebraska, the Dakotas, Kansas, Oklahoma, Montana, Wyoming, Colorado, Idaho, and Utah.

"Perhaps no writer has done more to clear up disputed questions of the great American frontier or has brought to light a greater mass of stirring tales of Indian warfare than the author of this volume. . . He has presented much hitherto unpublished material of these adventures, and there can be no dispute on that score, but more than that he has made the story absorbing on every page." — Boston *Evening Transcript.*

"A historical record that is a vivid part of our Western romance. . . It is a valuable contribution to any study of the period which is rapidly becoming a legendary historical heritage." — Boston *Globe.*

HAFEN (LEROY R., PH.D.) THE OVERLAND MAIL, 1849-1869; promoter of settlement, precursor of railroads; *with analytical index, early views, and folding colored map showing the various routes from the Central West to Pacific Coast, from Astoria to San Diego. Handsomely printed in large Caslon type on handmade paper, deckled edges.* Large 8vo, cloth, uncut, gilt top. $6.00 net.

¶ Issued in a limited edition, and printed direct from type.

In the development of the West no two decades are so full of romance and of important achievement as are the years from the California gold rush of '49 to the completion of the first trans-continental railroad in 1869. During these two eventful decades the overland mail was an outstanding institution. From slow ox-team and prairie-schooner to the dashing pony express, the mail service mirrored the strides of progress in the Trans-mississippi region.

Among the Contents are: The Early Development of the Postal Service; the Ocean Mail to the Pacific Coast; Pioneer Monthly Mails to the Inter-mountain Region; the Butterfield Overland Mail; various Mail Lines to the Pacific; the Postal Service as a Pioneering Agency or a Business Undertaking; the Pony Express; the Fight for a Daily Mail on the Central Route; the Million Dollar Mail in operation; the Indian Peril; the Days of the Stagecoach; the Passing of the Overland Stage, etc.

Much valuable information regarding the Indians and their depredations; the trails of the immigrant; the pony express; and the early pioneers will be found in Mr. Hafen's work. He speaks with authority having used as sources for his information all available government documents, personal narratives, and newspapers of the period.

The map has been prepared to show accurately the important mail routes and stations through the Trans-mississippi region from Illinois and Tennessee to Wyoming, Montana, Utah, Idaho, Washington, Oregon, New Mexico, Arizona and California.

"Outlines the establishment and development of our postal service and the problems confronted and solved. Gives interesting accounts of such typical institutions as the Pony express and the Overland stage. Includes illustrations from old prints and a map of the mail routes. Excellent type, on good paper.

A good index and a bibliography of references cited." — American Library Association's *Booklist.*

"A serious and instructive book . . . the story of the transportation of the mails on all available routes to the Pacific Coast in the twenty years before the completion of the transcontinental railway . . . a narrative of rivalry between northern and southern routes, of expansive frontier confidence not always accompanied by sound business judgment, and of courage and determination in overcoming physical obstacles . . . well told and told in proper proportion . . . tells a straightforward story and contributes not a little to a clear understanding of transcontinental communication before the coming of the railway." — *American Historical Review.*

"The first scholarly work on the overland mail . . . it presents an authoritative account of the rise and decline of the overland stage and mail in the Transmississippi West . . . clear, well-organized description of the various mail routes in operation in the Trans-mississippi region between 1849 and 1869 . . . makes a substantial contribution to our knowledge of the west. It includes an excellent map which is indispensable in a study of this character." — *Mississippi Valley Historical Review.*

"One of the most important additions to the chronicle of the frontier that have appeared in a decade . . . a thorough and dependable history of the origin and development of the pre-railway mail service between the Mississippi river and the Pacific coast . . . the work throughout is marked with a high degree of accuracy, and the slips of date and circumstance that mar the pages of so many books on the old frontier are conspicuously absent." — *Outlook.*

¶ Issued in a limited edition of 1250 sets, and now nearly out of print.

The history of the Blazing of the Overland Routes into the Northwest is one of the most thrilling and interesting in the annals of the Northwest. The establishment of the Bozeman Trail met the most bloody opposition of any of the

westward routes. From 1866 to the end of 1868, the Bozeman Trail, Fort Reno, Forts Phil Kearney and C. F. Smith swarmed with Red Cloud's fierce warriors.

On Jim Bridger and other great western scouts, guides, and trailers, a large amount of new material is presented.

ORIGINAL UNPUBLISHED NARRATIVES. For the first time, many interesting facts regarding those frontier days, and of life at the three forts along the Bozeman Trail are given. The chapters on the Wagon Box and Hayfield fights are probably the most spectacular and extraordinary engagements between white men and Indians ever fought. The Hayfield fight is a tabooed topic in military circles, for reasons explained in the narrative. The desperate fight at Platte Bridge Station is a hitherto unpublished account of that disastrous affair.

"An exceptionally valuable contribution to the literature of the old frontier. The historic phase treated includes some of the most thrilling and tragic events in the long struggle between the white race and the red for the possession of a continent. The authors have sought far and wide for their material. The assembling and editing have been done with painstaking care . . . richly illustrated." — *Los Angeles Times.*

"With commendable industry and admirable insight, the authors have earned praise . . . The result is these two beautiful volumes, elaborately illustrated and carrying valuable maps. The story of one of these maps is a fair example — the map of the Oregon Trail and the Overland Stage Route has a unique history, as the original draft of the streams and watersheds, the old trails and the stations, was made by Jim Bridger in 1863." — *Washington Historical Quarterly.*

"An interesting and useful account of the economic and strategic reasons that lead to the survey and construction of the Bozeman trail . . . The volumes are pleasingly illustrated with original contemporary drawings, many of them hitherto unpublished." — *American Historical Review.*

"Interesting record of early frontier life and Indian fighting, with frequent quotations from original records, most of them never before published. The illustrations from contemporary sketches, generally by unskilled amateur artists, have from their very crudeness and naiveté, an appeal which photographs lack." — American Library Association *Booklist.*

"Presented with elaborate detail and with a comprehensiveness that is probably without parallel . . . of absorbing interest." — *Outlook.*

"Herein is described in detail the discovery and use of the famous transcontinental trails, and in particular the famous branch from the Platte river to Virginia City. The authors have brought into their picture of this primitive West all the romantic figures — Indians, fur-traders, explorers, settlers, Mormons, and soldiers. Indian fights, hair-raising escapes, acts of bravery abound. . . . A contribution of importance to our knowledge of the far western trails and their development; in fact it is full of information." — *The Independent.*

¶ These volumes contain the history of the more important highways and historic waterways which were the thoroughfares of the pioneers who made our West what it is to-day. The story of a road, which shows its rise, difficulties and dangers, history and present value, is of great interest. A clear understanding of many of our Indian campaigns cannot be had without a study of these highways and the strategic points they covered or connected.

The author shows how a road through Cumberland Gap made possible the settlement of Kentucky. Nemacolin's Path across the Alleghenies over which Washington made his terrible night's march from Fort Necessity leads us to a clearer understanding of the first campaign of the war which won America for England. It is of interest to learn that the buffalo originally marked out the routes that are to-day followed by the Pennsylvania, Baltimore and Ohio, Chesapeake and Ohio, Wabash, and other great railroads.

The history of these pioneer roads is full of romance. They give us new light on the difficulties encountered by Washington, Braddock, Forbes, Bouquet, Sullivan, Crawford, St. Clair, Lewis, Clark, Wayne, Harrison, and many others. The study of each road, whether of land or water, includes a study of the expansive movement in which it became an important factor.

"The readable qualities of these monographs which give them the charm of story-telling is coupled with historical accuracy which make them the standard works on the subjects covered."— *The Chautauquan.*

"The author writes of the early highways and the experiences of early wayfarers thereon, very entertainingly."— *American Historical Review.*

"In all the history of Europe the roads and waterways are duly considered. But of the paths hewed out by pioneers through the trackless forests of the North American continent we have but scant record; and among our historians none has seemed to appreciate the true significance of these routes of trade and war, and the strategic points they covered and connected."— Chicago *Evening Post.*

"Mr. Hulbert has entered a new field of American research and scholarship. In it ethnology, archæology, and history blend in a most fascinating way. As good Americans, we should have a deep interest in the historic ways trod by our ancestors and the Indians before them, and the animals of forest and prairie first of all." — Chicago *Inter-ocean.*

¶ Although one of the regular poorly prepared subscription histories, it contains much valuable historical material. In some respects it is at present one of the best histories of the state.

JONES (HOWARD AND MRS. N. E.) ILLUSTRATIONS OF THE NESTS AND EGGS of the Birds of Ohio. *Beautifully and extensively illustrated with sixty-eight large and carefully executed plates, containing in most cases several species of birds, eggs and nests, each plate fifteen by seventeen inches, the plates being from drawings by Mrs. N. E. Jones, Genevieve Jones, and Eliza J. Shultz*, the text by Howard Jones. 2 large vols., folio, newly bound in half dark green morocco, uncut, gilt tops. $250.00 net.

¶ Privately printed for the author in 1886. It has long been out of print and most difficult to secure. We recently purchased the remaining sheets and from these were able to complete and bind up four sets.

One of the most beautiful works on the nests and eggs of birds published and the rarest work on American bird life. The preparation of this work was a life-long labor of love on the part of the authors, by whom it was privately printed in an edition of seventy copies only. No further copies can be issued, as the text has been scattered and the plates destroyed.

It is without exception the scarcest and most valuable work on the bird life of any of the states and is by no means limited in its interest to the bird life of Ohio, because the birds of Ohio are common to a very large area of the United States and portions of Canada.

Dr. Elliot Coues, in reviewing this work said: "The work is simply admirable. No such series of the figures of nests has ever appeared anywhere. . . A remarkable accomplishment. . . The most exquisite pictures of bird homes we have ever seen. . . No illustrated work to compare with this has appeared in this

country since the splendid Audubon period closed. In fact, there has been nothing since Audubon in the way of pictural illustrations of American ornithology to compare with the present work — nothing to claim an equal degree of artistic skill or scientific accuracy."

KIEFFER (HENRY M.) SOME OF THE FIRST SETTLERS of "The Forks of the Delaware" and their Descendants, 1760 to 1852; translated from the German with historical introduction. *With portraits, plates, and facsimiles*, large 8vo, pp. 404, cloth. $5.00 net.

¶ Privately issued by the author in an edition of 500 copies. We have recently purchased from him the few copies unsold.

The First Reformed Church of Easton was founded during the earliest period of the settlement at "The Forks of the Delaware," and has been closely identified with the history of that vicinity. The church building was erected in 1776, and is the only public building remaining from the days of the Revolution. Its record books, which possess the rare distinction of being continuous and unbroken for nearly a century and a half, are contemporaneous in their origin with the early beginnings of the settlement, and contain information of greatest value to the many thousands of the descendants of "The First Settlers of the Forks of the Delaware." The settlement having from the first been prevailingly German, nearly every family in the community, at some time or other in its history, left some trace of itself in the records of this old German Reformed Church. In this volume are recorded in the neighborhood of 20,000 names representing some 1300 distinct families from 1760 to 1854. From a genealogical standpoint the publication is an invaluable one, containing information which clears up many an unknown or doubtful family record.

The volume is alike of great interest to the genealogist and the historian, and especially to all who are interested in the early settlers of our country, in Pennsylvania, and in the German element in America. It is a volume which unquestionably should be in all reference libraries.

LAS CASAS (BARTHOLOMEW DE) HIS LIFE, APOSTOLATE, AND WRITINGS, by Francis A. MacNutt. *With analytical index, photogravure portraits, holograph of Las Casas, and folding map.* One large volume, 8vo, pp. 512, half silk cloth gilt, handmade paper sides, uncut, gilt top. $6.00 net.

¶ 750 copies only were printed direct from type and the type distributed. It will not be reprinted.

Las Casas is one of our best and most reliable authorities on Spanish settlement in America of the sixteenth century. His writings display vast erudition and excellent powers of observation.

Not only modern writers have depended upon Las Casas for their source of

information, but even his contemporaries, such as Herrera, have taken a large part of their material from his manuscripts and incorporated them *in toto*.

Mr. MacNutt has given a lifetime study to the period of Spanish settlement in America, and to the interpretation of the quaint Spanish of the period. He ranks high as an authority. Much new material is given for the first time from the archives of Spain, Mexico, etc.

As A CATHOLIC MISSIONARY, Las Casas fought the mercenary explorers. He was the great power with whom the mailed Spanish conquerors and eager treasure-seekers had to reckon. He was a born fighter and he was fearless.

SPANISH CRUELTIES. Las Casas alone has given us authentic accounts of Spanish enslavement of the natives, and of the brutal tortures and sufferings inflicted upon them. The discovery of America was followed very closely by the introduction of negro slavery. The beginnings thereof are here recorded.

THE VOLUME THROWS MUCH NEW LIGHT on the discoveries of Columbus, the aborigines, early Spanish colonies, the Jeronymite commissioners, emigrants, disagreement with Diego, the fate of the colonists, colonization laws, etc.

IMPORTANT DOCUMENTS ADDED. The appendix contains for the first time complete and scholarly English translations of the following important documents: The Brevissima Relation; Bull, Sublimis Deus; and the Royal Ordinances providing for the departure of Las Casas from Spain and for his representation in the Indies.

LONG (JOHN) VOYAGES AND TRAVELS of an Indian Interpreter and Trader; describing the manners and customs of the North American Indians; with account of the posts situated on the

River Saint Laurence, Lake Ontario, etc.; edited with notes, introduction, etc., by R. G. Thwaites. *Printed in large Caslon type on Dickinson's deckle-edged paper, with facsimile and folding map*, large 8vo, pp. 330, cloth, uncut, gilt top. $6.00 net.

¶ Early Western Travels series. 200 printed for sale separately.

The value of the journal of Long, Indian interpreter and trader for twenty years in North America, is threefold: first, for its sidelights upon the Canadian campaigns of the American Revolution; second, for information concerning the settlement of the Loyalists in Upper Canada at the close of that war; third, for a most faithful picture of the life and manners of the Indian and Canadian traders, especially in the period of cut-throat competition that ensued before the fur-trade was consolidated and regulated by the great Companies that later controlled it. He also took part in the British expedition that raided Prairie du Chien toward the close of the Revolution.

"The narrative abounds in anecdotes, and its intrinsic interest no less than its historical value well warranted its publication."—*Public Opinion.*

"It is an appealing picture that Long presents of the hardships and perils accepted by an interpreter and trader in entering upon an Indian life."

MARTYR (PETER) DE ORBE NOVO: the eight Decades, translated from the Latin, with notes and introducton by F. A. MacNutt. *With finely engraved portraits and folding map.* 2 vols., 8vo, cloth, uncut, gilt tops. $12.50 net.

¶ Issued in a limited and numbered edition of 375 copies, it will soon pass out of print and become scarce.

It is the first history of America, as well as the first English collection of voyages, and the main source of our knowledge of the new world before Hakluyt. Without exception the most important work we possess in regard to Spanish and Portuguese discovery and early exploration — not only of the American Continent, but of the world at large.

Peter Martyr was an Italian, chaplain to Queen Isabella and apostolic prothonotary. He gathered his facts first hand by direct and constant correspondence with the explorers of his day. In translation or abstracts, his work was the most widely circulated in the sixteenth century and is still our foundation for

contemporary knowledge of the New World. His official position, personal friendship with Columbus and other discoverers, and his untiring efforts to gather facts, make his Decades our indispensable, authentic, and primary source for the history of the discoverers. The first three decades relate exclusively to America. He gives us a wonderful epitome of Pigafetta's Narrative of Magellan's Voyage around the World, Gomara's description of the Conference of 1524 to determine the Demarkation Line, Gomara's own account of Columbus and the earlier explorers, etc.

MASON (RICHARD LEE) NARRATIVE OF THE PIONEER WEST, 1819. *Printed in large type on Fabriano, handmade, deckle-edged paper, with portrait*, large 8vo, pp. 74, mottled boards, paper label, uncut, enclosed in mottled slip case, with paper label. $12.50 net.

"The present edition is more complete than the London edition, in that it gives the twenty-three Indian vocabularies, which appeared in the original German edition, and also Maximilian's account of the Indian sign language, his catalogue of birds for both the Missouri and Wabash River valleys, and a summary of his meteorological observations on the upper Missouri. Speaking of this work before this edition was published —

The Nation (July 10, 1902) said: "That very unusual treasure, the adventures of the Prince of Wied, the only reliable authority concerning the earliest period."

CHITTENDEN (in his *History of the American Fur Trade*) said: "The Prince published the results of his labors in the most complete and elaborate work ever prepared upon this region. It is much to be regretted that it is so inaccessible to the public. . . The work covers a great variety of subjects — narrative, anecdote, history, ethnology, geology, natural history."

MERRIAM (C. HART) THE DAWN OF THE WORLD: Myths and weird tales told by the Mewan Indians of California; *with bibliography of Californian mythology and index. Printed in large Caslon type on Alexandra handmade, deckle-edged*

¶ It is our custom to go abroad for the early beliefs of mankind and to teach our children the mythologies of foreign lands, unmindful of the wealth and beauty of our native American myths and folk-tales. This present volume, consisting of stories obtained by the author (the chief of the U.S. Biological Survey) direct from the Indians of California, presents some of the most entertaining of the folk-tales of our American Indians.

As a contribution to Ethnology, Mythology, and Folk-lore, their value can hardly be overestimated since they consist of the creation myths and other curious tales, heretofore unpublished and unknown, of a group of tribes composing one of the great linguistic stocks. To the Naturalist, Psychologist, and student of Religions they are of surpassing interest — affording a clue to the mental processes of aboriginal man and showing his ideas as to the creation of the universe and the life upon it.

The various Mammals, Birds, Reptiles, Trees, and Shrubs have never before been correctly identified. Their Indian and English names are here given, and in an appendix their scientific equivalents — a material addition to the permanent scientific value of the book.

"These tales, in addition to the inherent charm of their own poetic beauty, have serious claims on the anthropologist and the psychologist."

— San Francisco *Argonaut.*

"The tales are a contribution to mythology, ethnology, and folklore, and as they are transcribed in popular form will be interesting as a specimen of primitive creative art and useful as a story teller's source book. The attractive print and paper and fine illustrations, make a handsome if expensive volume."

The papers of Athanase de Mezieres are of exceptional importance and value regarding the history of the French and Spanish régimes in the great Southwest

"In his [De Mezieres] papers is to be found more historical information relating to the French and Spanish régimes than has ever before been published in the English language. These two volumes are a substantial contribution to the history of the Southwest."— *American Review of Reviews.*

"Professor Bolton is the leading authority to-day on the history of the Spanish Southwest. These two handsomely printed volumes afford us a great insight into the history of what are now Texas, western Louisiana, Arkansas, and Oklahoma.

"These documents tell us a great deal about certain unknown phases of our history, namely, the encroachments of American frontiersmen upon Spanish Territory; the lively trade in captives conducted between the French of Louisiana and the Indians of Texas; the trade between the same parties in horses and mules stolen by the Indians from the Spanish settlements; the life of the outlaws of Oklahoma and Arkansas; the fur-trade of the Southwest conducted from Natchitoches to the Arkansas post among the tribes of the Red River Valley; the annual wood-cutting and cattle-killing on the Guadalupe River and beyond by the residents of San Antonio."— *Catholic World.*

The travels recounted in this volume are of especial interest as describing conditions in the West between the formation of the Constitution and the purchase of Louisiana. This was a time of enormous emigration to the Mississippi Valley, consequent upon the close of the Indian wars and the growing prosperity of the region. The two Michauxs, father and son, were men of trained observation, and a judicious sympathetic spirit.

The routes of the armies which accomplished the conquest of the West have

Such roads as those hewn by Marin, Bouquet, Lewis, McIntosh, George Rogers Clark, Crawford, Harmar, St. Clair, and Wayne are outlined and described in this volume, with the modern roads built over them in later days. This volume makes much of the pioneer period easier to understand.

MYERS (J. C.) SKETCHES ON A TOUR through the Northern and Eastern States, the Canadas, and Nova Scotia. 12mo, pp. 476, in the original full sheep binding. Privately printed at Harrisonburg (Va.) 1849. $10.00 net.

¶ One of the most interesting accounts of travel in the United States and Canada, of its period. Issued in a very small edition, it has become exceedingly scarce. It was entirely unknown both to Sabin and Larned. During the past 10

years, only 3 copies are recorded for sale, the last of which sold at auction in New York, for $18.50.

A few copies recently found stored away in Harrisonburg, were purchased by us, and are offered at about half the present auction price of the volume.

The volume contains much historical value on New York, Massachusetts, New Hampshire, Vermont, Pennsylvania, Connecticut, Delaware, Maryland, District of Columbia, New Jersey, Maine, Rhode Island, Canada, and Nova Scotia. It is also of peculiar interest as being a Southerner's views on the Institutions, People, and conditions in the Northern States, prior to the Civil War; with interesting comparisons between labor conditions in the North and South — the white labor of the factories and the negro of the fields.

NICHOLS (JEANNETTE P., PH.D.) ALASKA: a history of its administration, exploitation, and industrial development during its first half century under the rule of the United States; *with bibliography, analytical index, portraits and maps; handsomely printed in large Caslon type, on handmade deckle-edged paper*, large 8vo, cloth, uncut. $7.50 net.

¶ The only comprehensive history of Alaska since it passed under the rule of the United States. It has been a most difficult work to prepare on account of the maze of contradictory economic, geographic, and political influences which have beset Alaska. It presents a remarkably impartial treatment of perhaps the most controversial subject in American history during the past half century.

Private Exploitation of Natural Resources held sway in Alaska with little or no hindrance during the first forty years. Thereafter *Conservation* intervened, and there it acquired a peculiar meaning from the colossal nature of the enterprises involved and their bungling efforts to adjust matters favorably to themselves. Noteworthy as a study of the effects and influence of monopolistic business upon politics.

"This volume relegates all other histories of Alaska to unimportance. It will hold its place for a long time as the only comprehensive account of Alaska's political history that is worth while to consult . . . It is to be welcomed and heartily praised." — *English Historical Review.*

"A comprehensive and detailed history of Alaska since its acquisition by the United States. The troubled story of the territory's development with all its problems, legal and national, political and economic, is told with a wealth of detail." — *The Outlook.*

"It is a good history founded upon real sources and intelligently put together." — *American Historical Review.*

"A remarkable book. Every chapter is good reading. It is not often that a volume which presents such difficulties is written with such a due sense of perspective and appreciation of values." — *Boston Transcript.*

"During the past ten years many writers on Alaska have planned a complete political history. One by one these writers have given up the attempt as too great an undertaking . . . The field of Alaskan politics is far more difficult than the casual student realizes. So far, there exists not one respectable monograph on the entire field, if, indeed, there exists one which is not respectable. Much of the material is difficult of access, and when to be had, is almost wholly of ex-parte nature. . . . The work has been done as well as any scholar in the

United States, working with the same difficulties, could do it." — *Washington Historical Quarterly.*

"A pioneer and timely work . . . The development and conservation of the resources of Alaska constitute a problem not yet solved by Congress. The factors of the patronage and of vested interests in Alaska politics at Washington are never lost sight of in this treatment, which takes good account of the Ballinger-Pinchot controversy, the Morgan-Guggenheim interests, and the rise of an "anti-Guggenheim complex." . . The story here told is intensely interesting, whether viewed as a whole or in detail . . . It is not only interesting; it is a helpful study of Alaska and of politics in its social and economic aspects." — *Annals of American Academy of Political and Social Science.*

"Her criticisms are outspoken and by no means biased in favor of United States policy. She has spared no pains to arrive at the facts. The book is well documented throughout and provided with a useful map and complete index. . . . An important chapter in the political history of the United States, and to a wider circle it will be of interest as illustrating the evolution of political ideas in a newly peopled land." — *Geographical Journal* [London].

"Doctor Nichols has treated political matters with a thoroughness that leaves little to be desired. . . Apparently all the sources of history bearing on Alaska have been searched. The history has been presented in a way which always arouses interest and sometimes stirs indignation." — *American Economic Review.*

"The history of Alaska, differing radically from other American territories which have required statehood, is not without interest to students of imperialism. . . The Alaskans suffered 'taxation without representation' until 1906, when they were allowed a non-voting delegate in congress. . . Even the present government is more offensively bureaucratic than its Russian predecessor. The general reader would like to hear more than Doctor Nichols has told of the economic development of Alaska. . . Government in Alaska has been a caricature of the British colonial system before 1775." — *English Historical Review.*

The building of Forbes's Road brought to an end the Old French War: at its conclusion Fort Duquesne became Fort Pitt. This monograph describes the famous campaign of 1758 and the building of the road through the "glades" of Pennsylvania which became a great factor in the expansive movement that followed after the Revolution. Bouquet's memorable campaign of 1763 is described, with the decisive battle of Bushy Run and the extension of the road west of the Ohio.

"Presents a fascinating pen picture of Forbes and gives a valuable detailed description of his campaign."— New York *Athletic Club Journal.*

O'MEARA (JAMES) THE VIGILANCE COMMITTEE OF 1856; by a pioneer California journalist, post 8vo, pp. 58, original wrappers. $3.50 net.

¶ The above is the most accurate historical account of this vigilance committee published (1890). It has been out of print for a number of years and became quite difficult to secure. Recently a small remainder was found which we purchased, and we beg to offer these while they last at about one-third the price at which they have been selling at auction. As soon as these few copies are disposed of, this item will again be unprocurable except at three or four times this price.

While this Committee was established to see that the law was administered, that juries were not tampered with, and gross frauds in elections perpetrated, it numbered among its rank and file some very questionable characters.

The volume covers a general history of the work of the Soldiers' Aid Society, by M. C. Braton, including the various methods adopted to secure, make and send necessities to the soldiers; hospital and charitable work; relief work; etc. Contains a full account of the special relief work by E. F. Terry, including the marine hospital, hospital steamers, depot hospitals, the care of the sick and wounded, care of prisoners, soldiers' home, the collection of war claims, destitution, methods of operation, etc.

PALMER (JOEL) TRAVELS OVER THE ROCKY MOUNTAINS to the mouth of the Columbia River, 1845-1846, with general description of Oregon Territory, the Willamette, Umpqua, and Calmet Valleys, etc.; edited with notes, introduction, etc., by R. General Palmer was one of the most enterprising and useful pioneers of Oregon. He went over the "Oregon Trail" in 1845, with one of the earliest bands of emigrants; and has given in his work a detailed description of the

route, and directions for emigrants and their welfare. He brings vividly to mind the historic value of that memorable rush to Oregon, which secured that region for the United States. The author's ascent of Mount Hood was an intrepid feat. The work is enlivened with anecdotes of mountaineering life, bear-hunting, fishing, and trapping.

"Its very simplicity and directness give it a charm and vividness which a more finished narrative would have lacked."— *The Living Age.*

¶ Historic Highways series. 200 printed for sale separately.

This volume treats of the distribution of the mound-building Indians — the earliest Red Men who found and opened the great land thoroughfares of America — and of the roads of the buffalo and great game animals before them, showing also the use made of these animal and Indian roads by early explorers and pioneers.

"Mr. Hulbert's intimate knowledge of the ground he covers, combined with an interesting style of narration, is sure to recommend his work to all classes of readers."— *Public Opinion.*

"Mr. Hulbert avoids the error, common to many previous writers on the subject, of detaching the mound-builders as a distinct race, remotely antecedent to those Indians with whom the whites first came in contact. . . The work is useful and enlightening, soberly written, free from violent assumptions, and has the additional virtue of being simple in narrative."— *The Independent.*

PATTERSON (ISAAC F.) THE CONSTITUTIONS OF OHIO: Amendments, and Proposed Amendments including the Ordinance of 1787, the Act of Congress dividing the Northwest Territory, and the Acts of Congress creating and recognizing the State of Ohio; complete original texts, with historical data, records of the vote cast, contemporary newspaper comment, detailed comparisons and historical introduction. *Printed in large Caslon type on Alexandra handmade paper, deckled edges*, large 8vo, pp. 358, cloth, uncut, gilt top. $6.00 net.

¶ The full text of the various constitutions, of all amendments, and of all proposed amendments has been included. The majority of the proposed amendments and much of the historical data have never before been published, nor even printed. They are only available by careful search among the state papers.

The volume traces, both in the historical introduction and in the documents, the constitutional history of Ohio from the dividing of the Northwest Territory; through the framing under Governor St. Clair of the very inadequate Constitution of 1802; through the period following, when Ohio would seem to have lacked state consciousness and integrity; the period of reaction with its overwhelming burden of state debts; the greed and abuse by the special interests; the inadequacy of the centralized power; the wild debauch of the treasury; the development of the state as a political unit with higher social, economic, and

political solidarity; the efforts of corporate, vested, and special interests to retain their advantages and acquire new privileges; dissatisfaction with the judicial system, with taxation, with railroad and corporation influences; the repeated efforts to adopt amendments and their rejection, etc.

"A landmark in the unorganized field of American state constitutional documents. In addition to furnishing complete, verified, original tests of the several constitutions of Ohio, amendments and proposed amendments, helpful detailed comparisons, historical data, records of votes cast on the numerous measures, and contemporary comment, Mr. Patterson has also supplied a valuable historical introduction, which is sufficient alone to claim the attention of students of politics and constitutional development."— *American Political Science Review.*

"Of practical as well as of historical value."— *Political Science Quarterly.*

"The first attempt to trace the development of constitutional ideas and practices in Ohio. . . The author has performed a public service in the collection of the original texts and in the scholarly introduction."— *Case and Comment.*

¶ 250 copies privately printed by the author, now nearly out of print.

An exceptionally interesting volume, showing how an investment of $332,059.07 became a fund of $4,636,370.40, and how this fund was used to cancel a city debt of nearly $1,500,000.00, purchase land for the site of the group plan, repave streets, and develop a park system.

"A careful account of an interesting experiment in municipal finance which continued for fifty years. In 1862 a sinking fund was established to pay off the water bonds. The fund consisted of certain railroad stocks for which the city had subscribed with city bonds. Its management was entrusted to a co-optative board of five commissioners with authority to invest the income and principal. So successfully did the board do its work that by 1878 the original fund of $361,377.00 had been swelled to $2,109,357.00. By 1881 the water bonds, aggregating $925,000.00, had been paid off, and the fund was used for other public purposes — streets were repaved, part of the city debt was paid, a bridge constructed, the fire department extended, but the largest amount was used for park purposes. . . . This experience shows conclusively what may be accomplished by municipalities if their funds are invested under a wise and conservative management . . . an inspiring object lesson in the midst of the all too frequent misuse of municipal funds." — *American Economic Review.*

¶ 150 sets printed as a separate from *The Documentary History of American Industrial Society.*

An elaborate inside view of perhaps the most neglected great subject in American history, the industrial society of the Old South. It is not a description written by a present-day historian, but something very much more important — a series of writings by those who dwelt in the régime — the planters, the overseers, the white redemptioners, the negro slaves, the free negroes, the town artisans, the slave traders, the European immigrants, the westward emigrants, the frontier farmers, the Indian fighters, and the desperadoes.

These volumes contain the best result of a five-year-long systematic exploration of the field, by Professor Phillips of the University of Michigan. The peculiar richness of the collection is in its large proportion of newly discovered manuscript material. The introduction of about fifty pages describes the historical processes of settling the country and developing industry in the several important portions of the South.

"It has called for laborious industry and shrewd diplomacy to extract these

documents from their hiding places in cellar and attic, or, worse yet, the strong-boxes of southern households."— New York *Evening Post.*

"We have here two volumes on the plantation and frontier that are without parallel."— *The Independent.*

The life on these famous old highways in pioneer days and in the later coaching days is interestingly described. The subject is of permanent importance and has never been treated. The tavern life of the central west, the network of stage lines, the life "along the road," and the mail and express systems, have, it can almost be said, gone begging for an historian.

These little paths, which were the keys to the interior of the continent to explorers, missionaries, traders, and pioneers, were considered of priceless importance, those of the central west being declared "highways forever free" by the Ordinance of 1787. They are of double interest when the struggles and dangers of the portage paths are fully considered. As boundary lines and sites of forts and trading-stations these pathways are of permanent historical importance.

"It throws light on many points. . . It has certainly opened up a series of facts which have great importance and for which the historical student has come to be exceedingly grateful."— Baltimore *Sun*.

"Mr. Hulbert has evidently mastered his subject, and has treated it very ably and enthusiastically. Handsomely printed in large Caslon type, on laid deckle-edged paper.* Large 8vo, pp. 336, cloth, uncut, gilt top. $6.00 net.

¶ Issued in a limited edition and printed direct from type.

An authentic account of the conquest and early settlement of that vast region known as the Southwest, prepared from original sources and presented for the first time. Indispensable to an adequate interpretation of the remarkable growth of the Southwest during the last seventy-five years.

Before the hardy homeseekers, in their scattered settlements lay little but hardship and social isolation; and even these were overshadowed by the murderous depredations and moonlight raids of the Cheyenne, Comanche, Kiowa, and other Indian tribes, and by the operations of gangs of white desperadoes, and the unusual lawlessness on this frontier.

The region covered: The present states of Kansas, Colorado, Oklahoma, Texas, and New Mexico.

Among the Subjects covered are: The trade permit fraud: The Belknap scandal: Frontier posts; frontier life of the soldier: The Jacksboro Indian affair of 1871: General Sheridan's campaign: Destruction of Warren's wagon train: Satanta, Big Tree, and Satank: The Indian campaigns of 1874-1875: The Howard Wells massacre, 1872: Mackenzie's western campaign: The Adobe Walls fight: The Rio Grande frontier: The Red River campaign: Victorio, the outlaw chief: Mescaleros's depredations: The Victorio war: The Ord-Trevino agreement: The Big Bend campaign: The operations of the Mooar brothers: The business of supply posts: The bone industry: The coming of the cattle men: Cattle in the Panhandle: etc.

"Beyond doubt, Professor Rister has given us our most satisfactory unified account of the Southwestern frontier during the period in question." — *American Historical Review.*

"The present work is perhaps the first to give an authentic and systematic account from the original sources. The book abounds in tales of Indian fighting and massacres as well as the operation of white renegades and thieves. . . A clear and connected story of the disappearance of the Southwestern frontier." — *American Review of Reviews.*

"The reader who is interested in the authentic history of the Southwest will find this volume very agreeable reading. It is the only volume in which the history of the Southwestern frontier is narrated in full detail. . . Of especial and particular interest in the Texas region. It is virtually invaluable as a reference work and unlike most reference works it is really readable." — Galveston *Daily News.*

"A clear and concise account of the most significant events pertaining to the history of the South plains region during the period when it was won for settlement. . , The Indian campaigns of the seventies are recounted in clear and

pleasing style. . . No book has yet come from the press that treats of the history of the western portion of this state during the period covered with such scholarly comprehension and thoroughness." — *West Texas Historical Association Year-book.*

"The story is tremendously well told and is far more interesting than any fiction could possibly be. The book is the first one prepared with any great care and is one of the very few reliable books on west Texas history. . . The various massacres and the coming of the cow-men are straight Western drama and lose not a bit in the telling." — Boston *Globe.*

ROBERTSON (JAMES A.) BIBLIOGRAPHY OF THE PHILIPPINE Islands, printed and manuscript; preceded by a descriptive account of the most important archives and collections containing Philippina. *Printed in Caslon type on Dickinson's deckle-edged paper*, large 8vo, pp. 438, cloth, gilt top. $12.50 net.

¶ 150 copies published separately from "The Philippine Islands, 1493-1898," a few copies remain unsold.

Unquestionably the most comprehensive bibliography ever compiled on the Philippine Islands, or likely to be compiled for many years to come, as the expenses of traveling, examination of documents, time, etc., are totally inadequate to the possible returns.

It gives: 1. Full particulars regarding all important MSS., extant. 2. The locations in libraries and archives, both here and abroad, with section, shelf, bundle, and document number. 3. The titles of all books and articles which give bibliographical information. 4. A brief digest of the nature and contents of the document, its value and reliability; if transcripts or translations exist, by whom, their accuracy, completeness, etc., and where located; by whom cited; biographical notes; collations; etc. 5. It is classified and arranged chronologically and is followed by two very valuable indexes.

"A work of great significance and value — the most important achievement

in its field, and indispensable in any Philippine library or collection. This Bibliography is one more proof of the care and conscientiousness that have gone into the editing of the work as a whole. . . Down to the special index of names which closes the volume, painstaking attention to detail is everywhere apparent."
— *The Dial.*

"The descriptions and data regarding copies of the rare Philippine titles are, in fact, the chiefly valuable features of this list; and no other Philippine bibliography can compete with Mr. Robertson's in this respect."

ROBERTSON (JAMES A.) LOUISIANA UNDER THE RULE OF Spain, France, and the United States; social, economic, and political conditions of the territory represented in the Louisiana Purchase as portrayed in hitherto unpublished contemporary accounts by Dr. Paul Alliot and various Spanish, French, English, and American officials. Translated from the French and Spanish, or transcribed from the original manuscripts and edited; *with bibliography and index. Printed in large Caslon type on Alexandra handmade paper, deckled edges, with colored map of the territory and early maps and plans*, 2 vols., large 8vo, cloth, uncut, gilt tops. $12.50 net.

¶ Issued in a limited edition, printed direct from type.

The period covered by these volumes is from shortly after the peace of 1783 to and through the first period of American organization in Louisiana. The importance of this period is very great, for it witnessed in the United States before 1803 the beginnings of an independent government and its organization, while in Spanish Louisiana before 1803 it witnessed the scene of a conflict between Americans and Spaniards. This is the period in which the navigation of the Mississippi River played such an important part in the destinies of both Spain and the United States. The period is also involved in the Napoleonic scheme of a great colony for France "which would clip the claws of the English." Louisiana during this period was the center of the real world movement.

"Illustrates one of the most interesting, dramatic, and portentous events in the history of the United States, namely the passing of all the country west of the Mississippi River from Spain to France, and from France to the United States. The selection of the documents has been careful, made by an editor who understands all the conditions that entered into this historical problem. They illustrate in a graphic way the social and economic conditions of the territory."
— *The Nation.*

"All the documents are well annotated, and the work will doubtless find a place in every library with pretensions to affording facilities for historical study and investigation."— *Outlook.*

"It has been easier to find books about Louisiana than to reach the sources upon which alone they could be founded. Many of the contributors to the portentous list of 'Louisianana' have proved in their writings how rare has been the knowledge of the source. With Dr. Robertson's volumes before him, none need now accept the secondary word."— *The Independent.*

RODGERS (COMMODORE JOHN) CAPTAIN, COMMODORE, AND Senior officer of the American Navy, 1773-1838; a biography, by Charles O. Paullin, *with bibliography, index, etc. Printed in large Caslon type on Alexandra handmade, deckle-edged*

This biography, by one of the leading authorities on American Naval History, constitutes in no small measure a history of the American Navy, 1798 to 1838, and contains much important historical material relating to this period, chiefly from unpublished manuscripts and scarce documents. It also gives much valuable and picturesque information relating to the ships, officers, and seamen.

Commodore Rodgers was closely associated with Decatur, Hull, Lawrence, Perry, Porter, Bainbridge, and MacDonough. It brings to light many of the inner facts of the administrations of Jefferson and Madison, and affords much valuable new data upon John Quincy Adams, Jackson, Van Buren, Clay, Napoleon, Jerome Bonaparte, Generals Leclerc, Moreau, and Tarleton, Colonel Tobias Lear, Toussiant L'Ouverture, Lafayette, Robert Fulton, and others.

¶ Early Western Travels series. 200 printed for sale separately; nearly out of print.

Aside from its historical value, it possesses abundant interest for all who are stirred by clearly delineated accounts of life in the great silent places of earth. Dangers from Indian treachery, perils of the forests and the waterways, thrilling escapes of every sort, wilderness life, the sharp contrasts between civilization and savagery, the obstacles which beset man's progress through the vast solitudes of the Northwest, the forbidding aspects as well as the beauties of primeval nature, all these are described with force and accuracy.

"The narrations of an intelligent observer of the peculiarities of savage life always attract an amount of interest, which increases in proportion to the truthfulness of his coloring or shading. In all the qualities which should attract and hold our attention, it is rare to find the superior of Mr. Ross. For fifteen years he traversed the wastes of the Rocky Mountains, and thus became as familiar with every trait of Indian character and phase of savage life, as a white man may ever expect to be. As an Indian trader, pushing his commerce among friendly but treacherous tribes, and even among hostile ones who are to be placated by resistless finery, or the equally omnipotent fire-water, he was often the first white man to burst upon their wild fastnesses."

ROTHERT (OTTO A., *Sec. The Filson Club*) THE OUTLAWS of Cave-in-Rock: historical accounts of the Famous Highwaymen and River Pirates who operated in Pioneer Days upon the Ohio and Mississippi Rivers and over the old Natchez Trace. *With bibliography, analytical index, map and plates, including colored frontispiece and facsimiles. Handsomely printed in large Caslon type on handmade paper, deckle edges.* Large, 8vo, cloth, uncut, gilt top. Issued in a limited edition. $6.00 net.

¶ An authentic account of the Notorious Highwaymen and River Pirates who,

in the early pioneer days of the Middle West and the South, filled the entire Mississippi Basin with alarm and terror by their crimes and exploits.

Cave-in-Rock was a natural fortress. It was located at a strategic point upon the river, where nature made navigation difficult and dangerous on account of shoals and rapids. Hence, for a long period it was difficult to determine whether the loss of cargoes and men arose from carelessness in navigation or from the deeds of these daring pirates. In like manner, and in true Dick Turpin fashion, for years these highwaymen and pirates preyed upon the travelers, emigrants, and frontier settlers, who were compelled to use these highways and land trails between the East and the frontier settlements of the West and South.

It also contributes much new historical light upon the early settlement and frontier life of that vast region now constituting Ohio, Indiana, Illinois, Missouri, Kentucky, Tennessee, and Mississippi.

"A fascinating volume of history. . . One can easily understand the difficulty of the investigation Mr. Rothert has made. The literature of travel, scarce newspaper references, neighborhood traditions, county histories, and local court records have all been used. . . A valuable contribution. One can easily understand by reading this volume why a new community would take the law into its own hands in the presence of such monsters. In another way, it illustrates forcibly one of the perils of the frontier." — *American Historical Review.*

"It is a genuine pleasure to encounter such books as these. . . Mr. Rothert's work is full of the ghosts of old adventurers." — *The Library.*

"This is a book to make the heart glad. . . Adequately documented and well illustrated. It is an excellent work of local history, and the result of much research." — *The Outlook.*

"Presents very fine accounts of the most notorious highwaymen and river pirates of the Middle West and South, who filled the Mississippi basin with alarm and terror of their crimes and exploits. . . Describes the region which was the customary habitat of the outlaws, the dangers which beset travelers, tells in detail the story of some of the desperadoes who infested the routes. . . Well-written and interesting pages of a sumptuously gotten-up book. . . Those with an interest in crime will find all the minutest details gleaned from early records by one who is accustomed to handling historical materials. For the student of the Early West, there are picturesque descriptions of pioneer days. . . It is well done and well worth perusal by those who desire to sense the atmosphere of the frontier at the close of the eighteenth century." — *Mississippi Valley Historical Review.*

"Contains enough thrilling material to fill many reels of movie films." — *The Dial.*

"A book of intense interest . . . historical accounts of the famous highwaymen and river pirates . . . he tells graphically the terrible frontier story of the Harpes, Masons, the illegal coiners, the Ford's Ferry Mystery, and others." — Boston *Transcript.*

Though innumerable histories of the Civil War have been published, not one of them contains an adequate, authentic account of the most vital factor in the conduct of war, namely, the activities of the government and its people behind the lines.

FOR THE FIRST TIME, IN THIS WORK, the real story of federal unpreparedness is revealed and explained, the problems of recruiting, conscription, training, arming and equipping, feeding and supplying, absurdities of federal legislation, administrative policy, errors of supervisory machinery, difficulties of increasing the military establishment, difficulties and absurdities in attempts to preserve state rights, state political spoils and robbery, state political interference and obstacles, abuses of conscription, substitutes and paid volunteers, bounty-brokers and bounty-jumpers, conscription of the middle class while the rich remained at home, resistment to enrollment and the draft, complex social factors, etc., many of which errors and difficulties were repeated in the World War and are likely to be repeated in future conflicts between nations.

LINCOLN'S DIFFICULTIES. Presents for the first time, an adequate interpretation of the great difficulties President Lincoln had to contend with. The federal government did not appreciate the enormity of the task before it. Blunder succeeded blunder. His difficulties with Congress are set forth and his many attempts to carry on the conflict without adequate legal or constitutional means.

TO THE STUDENT OF PRESENT DAY MILITARY PROBLEMS, this work is of great practical value. Many of the blunders repeated in the World War could and should have been avoided. A later generation is likely to realize that in the later conflict we were equally as stupid in many of our policies.

"Professor Shannon's story of the problems of recruiting, conscription, training, arming and equipping, and feeding and supplying the Union army is of so great historical importance and has been so little treated — nowhere we think in one systematic work of this scope — that such a publication known to be prepared with careful research and clear and intelligent exposition certainly should not fail to issue in a generation lately confronted, in the World War, by problems so similar." — *American Historical Review.*

"I am deeply impressed with the research Professor Shannon has made and his fearlessness in stating facts." — *Ex-senator Albert J. Beveridge.*

"The authority for readers and students in the field which they cover. . . Highly creditable volumes. . . A large and ambitious undertaking but any one carefully perusing the volumes will see that it has been successfully accomplished. . . The style of the author is clear and forceful. The volumes are handsomely printed." — *Mississippi Valley Historical Review.*

"This imposing opus covers the field which lies between political and military history. . . It is an admirable piece of research." — *Christian Century.*

"Of all the many books written on the Civil War none present the personal and economic aspect of the conflict. . . It is not a military history, it is personal, social, economic and administrative. . . It is a matter of regret that a work so unique in its field has been privately printed and that only seventy-five copies in excess of those subscribed for are available as it will not be long before it will be very difficult to secure a copy of a work that is of prime necessity to every student of American History." — Boston *Evening Transcript.*

"The first analytical study of the great problem that faced the North. . . Valuable as a reference work for almost every student. . . A record of the entire unpreparedness of the Federal government and the additional factor in the problem — the factor of state rights. . . It is the greatest pity that this work could not have been available as a textbook for the War Department itself before 1917." — Washington *Globe.*

"It is a splendid piece of scholarship, written in a style that ought to attract the thoughtful general reader as well as the historical student." — ARTHUR M. SCHLESINGER, *Professor of History, Harvard University.*

"It accomplishes in an excellent manner something which has long been needed and something which cannot fail to be of great value and interest to the historical student." — J. FRANKLIN JAMESON.

"In vivid fashion the work supplements every existing history of the Civil War. . . It is a study of the Civil War's errors of omission and commission. Moreover, offers many hints of practical value in view of our next 'war to end war'." — New York *Evening Post.*

"This elaborate study might well be entitled the *Mismanagement and Maladministration of the Union Army.* It presents in great detail the ignorance, carelessness and inefficiency of those responsible for clothing, provisioning and disciplining the army. It gives a sorry picture of contractors, gamblers, outlaws and bounty-jumpers, all engaged in robbing the government or its citizen soldiers. . . It is a telling argument against war and militarism. It takes much of the glamor out of war and shows how the times of war give play to some of the most sordid practices and passions. . . The work is based upon an adequate study of all available sources and is accompanied by a bibliography and an excellent index. It is a work that ought to be widely read, yet it probably will not be owing to its small edition and the high price." — *Annals* of American Academy of Political and Social Science.

SHERMAN (GENERAL W. T.) AS COLLEGE PRESIDENT: a Collection of letters, documents, and other material chiefly from private sources, relating to the life and activities of General William Tecumseh Sherman, to the early years of Louisiana State University, and to the stirring conditions existing in the South on the eve of the Civil War, 1859-1861; collected and edited by Walter L. Fleming, Professor of History, Louisiana State University; *with index. ¶ 750 copies printed direct from type and the type distributed.

General Sherman, himself, planned this work in 1889. A considerable amount of the material was collected by him, for which he wrote the following prefatory statement:

> "In my Memoirs will be found a brief statement of the public events in Louisiana with which I was connected, and which immediately preceded the great Civil War. I now supplement that statement by preparing in advance, not for immediate publication, a series of letters which seem to me may become of value to posterity. . .
>
> "The letters herewith will give a far better understanding of the private thoughts and feelings of the men who afterward bore conspicuous parts in the Civil War than any naked narrative, and I merely intend this as a preface to them."

"What makes the book of live value to-day is that it contains a large number of General Sherman's letters in which appear vividly and fearlessly his views and those of many prominent southern men on the national problems which were just reaching their crisis."— *The Outlook.*

"The reputation of Sherman can not but be enhanced by the intimate revelation of himself contained in these letters. . . A tremendously hard worker, coolly intellectual, calm and dignified, stern in discipline, ever ready to repress insurrection among the cadets in any form, but a fair friend to all."

— *Annals of the American Academy of Political and Social Science.*

"Not only shows the views of these men [prominent Southrons] upon national

problems, but throws new light upon the social and political conditions upon the eve of the war as well as upon the opinions and actions of the Southern leaders."

STUART (GRANVILLE) FORTY YEARS ON THE FRONTIER, as seen in the Reminiscences and Journals, a Gold-miner, Trader, Merchant, Rancher, and Politician; edited by Paul C. type on handmade paper, deckled edges, 2 vols., large 8vo, cloth, uncut, gilt top. $12.50 net.

¶ Only 1250 copies printed direct from type.

Granville Stuart was one of the first of the great cattle barons of the Northwest. A stockman throughout the whole period of the great ranges. A man far above the average in education and discernment. He describes what he saw and participated in with unusual clearness and fidelity. He has left, perhaps, the most detailed and historically accurate account of the early history and development of the Great Northwest. The value of this work to the student of the history of the Northwest can hardly be overestimated.

The volumes include much valuable pioneer material relating to the states of Montana, Oregon, Iowa, Nevada, California, and the Northwest — graphic accounts of the frequent conflicts of the white immigrants with the Modocs; the Rouge river war, the Mormons; the Mountain Meadows massacre; the Hudson's Bay company; Catholic missionaries; the Pony Express; the Covered Wagon; the development of Railroads; Water Transportation; Gold-mining; the Vigilantes; Cattle-rustlers, the Indians of the Northwest, etc.

One of the most valuable contributions to the general history of the frontier and will, for all time, remain one of the most reliable sources on Northwest history.

"A striking western character is here presented in an ingenious and charming narrative. There is no other pioneer record of this section quite like it. The editor furnishes an informing introduction and an excellent index." — *American Historical Review.*

"It was indeed a fortunate thing for the historians who wish to write about the great Northwest that Granville Stuart kept a diary of frontier life for nearly half a century." — *The American Review of Reviews.*

"Fortunately for future generations Granville had the diary-keeping habit. For more than forty years he jotted down each day's happenings. It is the siftings of these numerous journals that have been collected in the present volumes. The author became one of the first of the cattle barons of the Northwest. He played his part in the skirmishes with the Indians and in the even more bitter encounters between the ranchers and the rustlers." — New York *Evening Post.*

"The most vivid picture of early life in Montana. . . As a book of adventure; as a treatise on early customs; as a story of a man who really helped to build this state, the book is well worth reading." — *The Frontier.*

"His life among the Indians of the Northwest; the beginning of the early towns in Montana; his personal ideas about the Mormons; his description of the old pony express; the covered wagon; the coming of the railroads; water transportation; etc., make a historical work of rare value and interest." — Boston *Globe.*

"An interesting account of the life of a pioneer in California and Montana. . . . Told in the unassuming manner of the backwoodsman. We read of the hardihood of men and the courage of women in those days and are fired with admiration for those who blazed the trail before us." — *Catholic World.*

Analytical and subject Index to the Series in two large volumes.

¶ 750 sets only were printed, each numbered and signed. The set will never be reprinted. It is only occasionally now that we can supply sets.

An almost inexhaustible historical reference work concerning the United States and its people through the hundred years of its most rapid development. Only works of acknowledged authority are included. A complete set of the originals, if obtainable, is worth about $6,000.00, and they are steadily advancing in price, as also will this series as soon as the remaining sets are disposed of.

Most of the sets so far are permanently located in Public and College Libraries.

It contains much hitherto unpublished material, and two translations into English for the first time.

To those preparing speeches, essays, theses, special monographs, editorial articles, or seeking data, or verifying facts, or further information on any subject pertaining to the United States for this century, the Index volumes will prove of immediate value. This Index makes available a vast mass of source material in history, economics, sociology, political science, religious work, commercial life, agriculture, geography, travel, the natural sciences etc. The facts here accessible are authentic, and not as depicted by the writer of fiction or ephemeral literature.

"For the first time we have in a form adapted to easy use a great mass of material that will enable the investigator who has not many books, to study from the sources the main facts of western social and economic history. . . In fact these thirty volumes and this ample index open up to all of us opportunities for knowing the West and the processes of American settlement as many of us could not have known them before. We cannot be too thankful for the copious index to the *Early Western Travels*, which Mr. Thwaites has so carefully and attentively edited."— *American Historical Review.*

"A series which the casual reader will find interesting, and the historian, teacher, and scholar will find invaluable, as it makes available sources of information without which the development of the West, its history, and its people, can not be fully understood."— *Cumulative Book Review Digest.*

"Places before the general public important documents hitherto inaccessible save to the very wealthy, or those in touch with the largest libraries."

— *Literary World.*

"It has made available some travel books, not merely useful to the historian, but filled with tales of such strange and thrilling adventures as to hold the attention of the veriest schoolboy."— *The Independent.*

"The exhaustive notes and introductions are by Dr. Thwaites, the foremost authority on Western history."— *The Dial.*

"The two index volumes are a distinct contribution to the history of the West, and are so important in their nature as to demand special notice. Scholars have at times suggested the utility of a coöperative index covering a well defined field of history, but the suggestion has never before materialized. . . Only scholars who have turned the pages of scores of unindexed, or worse, badly indexed, books can know how great is this service which prepares the series for instant reference."— *The Independent.*

Commencing with the causes of the Mexican War, it traces the wonderful marches of Kearny and Doniphan from Missouri to Chihuahua, graphically describes the occupation of New Mexico, and illustrates the whole with a series of portraits and views, which it has required years to collect. Brilliancy of style, combined with conscientious care as to matter, produce a result of the utmost interest and value." — L. B. PRINCE, President Historical Society of New Mexico.

VANDIVEER (CLARENCE A.) THE FUR-TRADE AND EARLY WESTERN EXPLORATION. *With analytical index, and views of early fur-trade days; handsomely printed in large Caslon type on laid paper, deckled edges*, one volume, 8vo, cloth, uncut, gilt top. $6.00 net.

¶ Issued in a limited edition, printed direct from type.

An exceedingly interesting and well-written general history of early westward exploration and the adventurous days of the fur-trade in the U. S. and Canada.

FUR-TRADING COMPANIES. The histories of the various organized companies — the Hudson's Bay Company, the Northwest Company, the American Company, the Missouri and Rocky Mountain Company. Their forts and stockades were the genesis of many of our great western cities.

THE FIRST EXPLORERS. The trappers and fur-traders were the first to explore the vast regions of the Great West — the valleys of the St. Lawrence, Ohio, Mississippi, Arkansas, Missouri, Yellowstone, and Columbia. They were the real pathfinders and trail-makers. The French fur-traders were the first to explore the Great Lakes region. The trader Radisson discovered the Upper Mississippi and possibly the Missouri. Alexander Mackenzie was the first to reach the Arctic by an overland route. It fell to La Vérendrye to first behold the Rockies, and Jedediah Smith was first to cross the continent by the central route.

COUREURS DE BOIS. It records the origin, rise, and influence of these peculiar and vigorous men, fascinated by the element of adventure and danger.

"Interesting and covers a great deal of ground. . . My general impression is extremely favorable. I like particularly your comparison between the way in which the Hudson's Bay company treated the indians and the way in which the American traders treated them. . . In the earlier days their treatment by the Hudson's Bay company was open to a good deal of criticism but that company learned readily. . . The American traders never learned anything and treated the indians badly and very unwisely." — GEORGE BIRD GRINNELL.

VENEGAS (MIGUEL). JUAN MARIA DE SALVATIERRA, S.J.; Missionary in the Province of New Spain, and Apostolic Conqueror of the Californias; translated into English, edited, and annotated by Marguerite Eyer Wilbur. *With analytical index, portraits, facsimile and plates, folding facsimile of the early Jesuit map of California*, 1757, *and folding colored map showing the Missions and routes for the period* 1700-1750 *specially prepared by the author and Max Mayer. Handsomely printed*

in large Caslon type on laid deckle-edged paper. Large 8vo, cloth, uncut, gilt top. $6.00 net.

¶ Spain in the West Series, issued in an edition of 750 copies only, printed direct from type.

The early history of the Californias is incorporated largely in the records and annals of the Jesuit and Franciscan fathers. Most of these are quite inaccessible, being in manuscript form and deposited abroad in the archives of Spain and Mexico. A few are available only in the rare early Spanish editions. This rare account of the beginnings of California's history is here presented for the first time in a complete and scholarly English translation with extensive editorial additions. It provides a connecting link, bridging the gap, between Spanish activities in Mexico and Spanish activities in Alta California.

SALVATIERRA RANKS AMONG THE FOREMOST of the early Jesuit missionaries. It records the almost insurmountable dangers and difficulties he encountered in his explorations, in the building of Loreto, in the handling of turbulent natives, and the organization of an orderly settlement. By using his mission posts as bases of supply, he paved the way for the ultimate founding by Junipero Serra of that great chain of missions that eventually extended far up beyond San Francisco.

SALVATIERRA'S NOTED CO-WORKERS. Among these were Kino, Picolo, Ugarte, Jayme Bravo, and others, all men who rendered signal services in Spanish settlement and colonization in the Southwest. Much important material regarding these early missionary-explorers is to be found in this volume.

SPANISH COLONIZATION IN THE SOUTHWEST. The Jesuit and Franciscan missionaries were the first to settle and explore the Southwest, and upon their records and annals our earliest knowledge of this region is based.

HISTORICAL INTRODUCTION. The volume opens with an extensive historical introduction, giving a resumé of Spanish exploration and settlement down to the time when Salvatierra founded the mission of Loreto, the mother mission from which the chain of missions were later extended north to beyond San Francisco.

EARLY SPANISH EXPLORERS. The volume throws light on the early Spanish explorers Cortes, Iburbe, Ortega, Viscaino, etc., and on early Spanish colonial methods.

"An important contribution to Southwestern history. . . It contains invaluable historical data — it brings to us the spirit of the early Jesuit missionaries who went into the wilds of America with the purpose of saving souls for God, but with the result of spreading civilized life and founding Spain's early colonial settlements. It not only gives a clear idea of the mentality, zeal, and fearlessness of those people, Indians and missionaries, but it also presents one of the important documents upon which the life and history of America in colonial times is based. A valuable document presented in a scholarly English translation for the first time. — PROFESSOR JOSEPH PIJOAN, Pomona College.

"Salvatierra, the apostle of Lower California, another Junipero Serra, was a personality worth remembering, and his biography is a highly interesting presentation of the man and his labors." — JAMES MAIN DIXON, *University of California.*

¶ Historic Highways series. 200 printed separately. Nearly out of print.

The story of the Delaware Indian Nemacolin's Path, widened by Washington in 1754, is one of the most interesting in our early history. Mr. Hulbert tells the story as a part of Washington's life, bringing out in the most original way the character of the young man and the beginning of his great interest in the central west. The author's personal knowledge of every foot of this historic ground, and the vividness of style and argument makes this work of unusual interest.

"The evolution into the pathways of commerce of to-day is extremely interesting. . . Because Mr. Hulbert has not seen fit to make this story a dry-as-dust chronicle, it will probably not take the place it deserves to take among the histories of our country, but it will have all the more readers among those to whom the author specifically appeals — the general public."— *Public Opinion.*

"Mr. Hulbert's volume will be of especial interest to students of Washington, his time, and his work."— Boston *Transcript.*

"Mr. Hulbert's narrative enables us to know better than ever the true story of the war which won America for England."— Chicago *Evening Post.*

WATERWAYS OF WESTWARD EXPANSION: the Ohio River and its Tributaries; by Archer B. Hulbert. *Printed in large type on Dickinson's deckle-edged paper, with folded maps,* crown 8vo, pp. 220, cloth, uncut, gilt top. $3.50 net.

¶ Historic Highways series. 200 printed for sale separately.

In the latter pioneer period, beginning about 1800, the waterways became the great highways of immigration. The history of the part played by rivers in the expansive movement has been slighted; the life and times of the barge and keel-boatmen are no better known than are the old coaching days which have so far passed from popular knowledge. Even the little rivers of the West have played a part in our national economic and social development which has never been formally acknowledged. The dawning and influence of the era of slack-water navigation is also treated.

"All the varied types of boats which were propelled up and down the river are described in detail, and interesting information is adduced concerning surveys and statistics of navigation."— Chicago *Evening Post.*

"The chapter in this book on the evolution of river craft furnishes a remarkable illustration of the peculiar economic development of the central west. Indeed the book abounds in points of curious and instructive interest."

Haworth. *Printed in large Caslon type on laid deckle-edged paper, and illustrated with colored map and numerous plates.* 2 large and thick volumes, 8vo, cloth, uncut, top edges gilt. $12.50 net.

¶ The result of five extensive trips through the region dealt with. To his personal explorations he has added accounts of the discoveries of Vancouver and other early navigators. He has incorporated a large amount of material regarding the natural history and trees of the region. Throughout his life, Mr. Woollen was a student of natural history, and at his death was probably the most widely known naturalist in the state of Indiana. His chapters on the trees, fish, seals, fur-bearing animals, and whaling in this region, are among the best material relating thereto.

"Woollen made it his business to acquire all available information regarding the inside passage to Alaska. . . A two-volume work of unusual interest . . . a wealth of descriptive and historical material such as no other single work on the subject affords." — *American Review of Reviews.*

"Vancouver, wrote that 'to describe the beauties of this region will be a very grateful task to the pen of a skilful panegyrist.' Woollen has performed much of that grateful task. . . A valuable compendium of information, and also a fluent narrative of travel among the myriad islands and waters of the region." — *The Bookman.*

"Well printed and well illustrated volumes . . . a book which will enable the tourist to travel from Seattle to Skagway with eyes open, not only to the present with its beauties, but also to the past with its romance. The student of history will find it of value to enable him to follow on modern maps the tortuous windings of Vancouver's explorations. . . The author has travelled over every inch of the ground, note-book in hand. . . These chapters [on the natural history] are worthy of high praise. In them he writes accurately and with authority. . . The volumes are a valuable contribution and bear witness to a keen interest and to a considerable amount of study and research." — *Canadian Historical Review.*

"A perfect compendium of information on the whole coast traversed as well as of the recorded and natural history of British Columbia and Alaska such as will serve to greatly increase the interest and value of the trip." — *Alaska and The Yukon.*

WORK (JOHN) THE JOURNAL OF, a chief-trader of the Hudson's Bay Company, during his expedition from Vancouver to the Flatheads and Blackfeet of the Pacific Northwest; edited, and with account of the Fur-trade in the Northwest, and Life of Work by William S. Lewis and Paul C. Phillips; *with bibliography, analytical index, plates and maps; handsomely printed in large Caslon type on handmade paper, deckled edges.* Large 8vo, cloth, uncut. $6.00 net.

¶ 1000 copies, printed direct from type and the type distributed. It will not be reprinted.

A record of one of the last of the great fur-trading expeditions of the Hudson's Bay Company's Snake River brigade. At the direction of Dr. John McLoughlin, chief factor of the Hudson's Bay Company interests in the Pacific Northwest, Work started from Fort Vancouver in 1831 and followed up the Columbia to Walla Walla. From there he crossed over to Snake River and followed the Lolo trail once traversed by Lewis and Clark through Lolo Pass into what is now Montana. He then began his hunting and trading along Clark's Fork, the Blackfoot, and back to Clark's Fork across to the Beaverhead country and thence across the mountains into the region now included in the state of Idaho. He then explored all the great rivers of southern and southwestern Idaho and returned to Fort Vancouver in July 1832.

Work was one of the greatest of the Hudson's Bay Company traders. His explorations were more extensive than those of his better known contemporaries Alexander Ross and Peter Skene Ogden, but his explorations have for nearly a century rested in obscurity.

The editors have given an account of the fur trade in the Northwest. In this they have attempted to explain the relations of the British and American fur trading companies.

"A distinct contribution to the history of the fur-trade and to the history of the Northwest in general. Not only is it valuable because for the first time this highly interesting day-by-day narrative is made available to the student, but because the introduction on 'The Fur Trade of the Northwest,' and the 'Life of John Work' are real additions — in particular the account of the fur-trade, which is one of the best brief statements obtainable." — *Mississippi Valley Historical Review.*

"Another extremely valuable volume. The introductory essay is perhaps the best short account available of the activities of the Hudson's Bay Company, the Northwest Company, the Astor's Pacific Fur Company, the St. Louis American interests, and of their various factors, McLoughlin, Stuart, McDougal, Thompson, Ross, McKenzie, Ogden, Lisa, the Chouteaus, and numberless others. Several of the traders have left records, but none more valuable than that of John Work. . . His accounts of Indian hostility partially refute the view that the Company's operatives were inciting the Blackfeet to attack the Americans. . . It is a good piece of editorial work." — *Catholic Historical Review.*

"The journals fully indicate the geographic scope of the Hudson's Bay Com-

pany's activities. His account forms a valuable addendum to history." — Boston *Transcript.*

The expedition of Nathaniel Wyeth to convey a trading company to Oregon in 1832 was second in importance only to the Astorian for that territory. The narrative has much charm and sprightliness, and well and simply portrays the difficulties of the "Overland Trail."

CORSAIRS OF FRANCE

By

C. B. NORMAN

With decorative end papers. Chapter headings and 8 full-page illustrations, and a foreword by Edward C. Caswell.

Adventure—thrills—romance, are all in these biographies of the colorful French corsairs. From the days of Richelieu, and Louis XIV, down to the early part of the 19th century these bold men of the sea were the terror of the enemies of France. There was a certain chivalry among them, too, and they must not be confused with the pirates of the Spanish Main. The enemy was treated with courtesy—if he surrendered peacefully, but if he resisted—well, that is the reason these biographies were written! It is an adventure in itself to read them.

THE BLACK CIRCLE

By Mansfield Scott

Thornton, craving revenge upon a band of super-criminals known as The Black Circle, makes an astonishing break from Charlestown Prison and hits the road for New York. The leaders of the gang, four men of distinction and prominence, are unknown to a single minor operator. Once before a subordinate had attempted to cross them only to forfeit his life, yet Thornton, the prison pallor still on his cheeks, proposes to put his head in the lion's mouth. 1226 JOKES

Selected by Paul W. Kearney

When a jokesmith steps up to you and says, "Have you heard the one about . . ." you can generally say "Yes," without fear of contradiction, for there are very, very few jokes in the world, even though we hear many which do not sound familiar. A change in wording, perhaps, or a switch in characters may lend a nice, shiny appearance to any particular joke, yet the chances are that this one, too, is another of those well-known "factory rebuilt models."

Having inspected more than 12,000 jokes and near-jokes in the process of compiling this book, the editor feels that he is on safe ground in this regard.

Here is a fair mixture of the long, narrative style story and the short, pithy, "wise crack" of current vogue, all divided into classes and cross-indexed for the convenience of every user no matter what his requirements may be.

They have acquired this esteemed place as a result of their authority, their wholesomeness and their penetrating and inspired statements of frank truth. They are such books as the wise and thinking parents desire to put into the hands of their growing children. SEX PROBLEMS SOLVED

This Volume Turns a Purifying Beam Upon The Most Worrisome Problems in Life

Why you worry over unknown fears. 4. Internal sex forces and their effect upon efficiency. 5. How emotions—fear, anger, love, jealousy—cause injury to bodily health. 6. THE LESSON ROUND TABLE

---1930---

The 1930 International Uniform Lessons Linked to Life by the World's Religious Leaders.

Edited by Richard D. Dodge.

12mo. (*A*) *$1.25*

Imagine a great Bible class led by such men as Joseph Fort Newton, William L. Stidger, Francis J. McConnell, James I. Vance, Dr. G. Walter Fiske, Dr. Frederick Lynch, William H. Leach, Dr. Burris Jenkins, and other such outstanding ministers, educators, and Christian workers the world over. Who would not like to sit in the circle, to have each week's lesson discussed and interpreted by such leaders?

Sensing the possibilities of such leadership, Mr. Dodge has worked out a unique plan to assimilate these advantages in his commentary, "The Lesson Round Table." Each week the lesson is handled by a different person—a leader in the religious or educational world, or in the Christian business world. A notable staff of contributors make up the first volume, men and whomen whose names carry influence and authority in the spheres in which they move, who are abreast of the best thought of the day, and whose wide experience eminently qualifies them to discuss the particular lesson assigned them. Instead of the restricted viewpoint inevitably occurring in a lesson commentary written solely by one man, we get the point of view of many minds, the cream of current religious thought and opinion.

THE LESSON ROUND TABLE, 1930

The aim of this, as the title indicates, is to present the lesson from the practical point of view, to help the average man and woman with their everyday problems, disappointments, hopes, ambitions. To further this aim there is a list of home study questions at the end of each lesson, stimulating independent thinking, definiteness, and action. "Just as faith without works is dead, so knowledge without action is valueless."

Another unique feature of this commentary is the use of Doctor Moffatt's translation of the Bible for finer shades of lesson interpretation.

Moore, John Trotwood

Fic **BISHOP OF COTTONTOWN.** An interesting, enthralling story of life and adventure, presenting a vivid picture of the South just after the Civil War. The first days of the cotton factory are accurately described, as well as the severe struggles which the Southern planters had to undergo to get back on their feet after the ravages of war. The chapters abound in characteristic stories of the negroes and their reaction to freedom. The climax is reached in a thrilling horse race, described so vividly the reader finds himself cheering for the faithful old bishop and his superb blind horse as the bell rings for the last lap of the race. 12mo. (a) **$1.00**

Fic **GIFT OF THE GLASS.** The story of Hal, a famous race horse, as told by himself in the days when pedigreed horses and beautiful women were the toast of the country side. 12mo. (a) **90 cents**

Fic **JACK BALLINGTON, FORESTER.** Jack Ballington, not a fighter by nature, answered the last call for volunteers in the war with Spain. He crowned himself with glory and honor. Mr. Moore tells the story dramatically. 12mo. (a) **90 cents**

Fic **OLE MISTIS, AND OTHER STORIES AND SONGS OF THE SOUTH.** "Ole Mistis" is the story of a famous race horse by that name who saved the honor and fortune of her owner by winning a great race. The other stories and poems are descriptive of Middle Tennessee and give an invaluable insight into the lives and homes of the traditional South.

Fic **UNCLE WASH, HIS STORIES.** A group of typical old-time negro stories as told by a former slave. These tales give the reader an excellent picture of the lives and customs of the negroes of the Old South. A source book for professional readers and amateur elocutionists. 12mo. (a) **90 cents**

Fic **BISHOP OF COTTONTOWN; GIFT OF THE GRASS; JACK BALLINGTON, FORESTER; OLE MISTIS; A SUMMER HYMNAL; UNCLE WASH.** Set of six volumes. (a) **$4.95**

Fic **TOM'S LAST FORAGE.** Of Mr. Moore's many popular negro stories, none has been so generally acclaimed as "Tom's Last Forage." Although it has never before been published in book form, it is said to have been as often read by professional readers as any story ever written of the Old South and the negro. The facts of the story were suggested by an incident in the life of the author's father, the late Judge John Moore, of Marion, Ala., who is said to have been the greatest of Southern *nisi prius* judges. Of him it is said that no man ever lived in Alabama who more generally held the love and devotion of all his people, white and black, than did Judge Moore. Published first in a Chicago magazine, in 1897, "Tom's Last Forage," became at once a favorite, and so great has been the demand for its preservation in book form that the publishers have issued it in this small volume. It does not appear in any of Mr. Moore's other books.

RE **THE MEANING OF METHODISM.** Every great Protestant body has been the result of an earnest effort to interpret and make operative the program of the Christian religion. Methodism, as a phenomenon in the religious world, is the result of the earnest efforts of John Wesley and the early Methodist fathers to find out what Christianity was and to interpret it as a body of doctrine and form of organization which might be used for the promotion of the kingdom. Dr. Rowe has undertaken, in this book, to discover and interpret the spirit and genius of the Methodist movement.

NEW BOOKS

A TALE OF A TUB. By Jonathan Swift. Edited by Edward Hodnett. Illustrated with woodcuts designed by Charles Locke and engraved by Warren Chappell.

Such a popular, illustrated, finely printed, yet inexpensive edition of *A Tale of a Tub* has been needed for many years. The book was published anonymously in 1704, and established its fame as a satire immediately, as numerous reprints and lively speculation and controversy attest. Today the *Tale* is rated as a greater satire than *Gulliver's Travels;* by many authorities it is considered the greatest satire in the English language. It is a devastating religious satire—though only of what Swift thought false in religion. But half of it—the fantastic *Digressions*—is also immortal satire of the literary scene, as pointed and enjoyable today as it was two and a quarter centuries ago.

This edition follows the fifth edition, the best, with notes by Swift and Wotton, and contains an introduction and additional notes by Edward Hodnett of the Department of English of Columbia University. The punctuation and typography, which in their original state are somewhat trying to present-day eyes, have been modernized and mormalized. The text has been "embellished" with rare fitness, imaginative insight, and technical skill by thirteen woodcuts—a frontispiece, introductory and tail pieces, and ten illustrated initial letters—the combined product of Charles Locke, instructor in the Art Students' League and associate of the late Joseph Pennell, and Warren Chappell. THE PUEBLO POTTER. By Ruth L. Bunzel. (Volume VIII.)

Art as a form of behavior presents one of the most fascinating problems of human psychology. The elaboration for its own sake of the formal elements of objects and activities has accompanied man since the dawn of history. Decorative art in the form of ornamented utensils and magnificent rock paintings is one of our most ancient heritages.

Among all ethnic groups the ecstatic impulse is given striking and characteristic expression. Everywhere it is recognized as a legitimate and intensely valued channel for individual expression. What does art mean to primitive man? How does he manipulate the style of his group to serve his ends? Is the primitive artist, as is popularly supposed, enslaved by tradition and superstition in the exercise of his craft? Are creative geniuses found among primitive people, and if so, how do they function and what is their influence?

In an attempt to answer these and similar questions, the author spent two years in the pueblos in the southwest learning from native potters to make pottery with native tools and to paint it in accordance with native standards. By this and other means she endeavored to enter fully into the minds of these primitive artists; to see their technique and style as they appear to the artists themselves, who are seeking in this field of human behavior a satisfactory and intelligible technique of individual expression.

The results of these unique researches embodied in a profusely illustrated volume afford us our first insight into the mysteries of the creative imagination of primitive people.

Drama

MOTION PICTURE CONTINUITIES. By FRANCES TAYLOR PATTERSON.

The motion picture continuity is not to be confused with the scenario; the former compares with the score from which the conductor leads his orchestra, whereas the latter is comparable to the libretto from which and by which the individual may follow an operatic piece. The libretto is easily read and followed and so is the scenario, but the continuity is a tedious way of reading a play. It will never supersede any style of writing that exists. Neither, however, will the continuity go out of existence. It is here forever to direct the producer in the terms with which he is conversant. These terms are transcribed in a *new* language and in a startling way, and this book is prepared and published to aid the scenarist and picture writer in visualizing the ultimate destination of his own work. DIVORCE AND SEPARATION OF ALIENS IN FRANCE. By LINDELL T. BATES.

This book, the first detailed study of the subject in English, describes the manner in which Americans and other foreigners obtain divorces and separations in France, and the effect of such litigation in France, the United States and other countries. The author is a member of the New York, British and Spanish bars; he has practised law in France for several

years, and is a Doctor of Laws with honors of the University of Paris. Such topics as the history of the law of divorce in France, grounds and defences, power and jurisdiction of courts, procedure, rules of evidence, alimony, separation agreements, division of property are treated. The book contrasts the French law with the American and British, throws many sidelights upon French law in general, and will assist American and British lawyers to advise their clients in relation to matters of French divorce. Various celebrated cases including the Gould case and the Valentino divorce are described. Price, $0.00

LEGAL ASPECTS OF COMMERCIAL LETTERS OF CREDIT. By Herman N. Finklestein.

Here is a detailed exposition of the modern law relating to commercial letters of credit. This book contains, particularly in the excellent introduction by Professor Karl N. Llewellyn of the Columbia Law School, a thorough analysis of the commercial uses of this instrument, of the advantages to the buyer and seller of goods in its use, and of its relation to other instruments evidencing the creation of commercial and bank credit. The author considers in detail not only formal commercial letters of credit, but also the law relating to informal instruments, such as telegrams, etc., in which banks undertake to honor or purchase drafts, and which are essentially similar in function to commercial letters of credit. The discussion of the law of damages will also prove very helpful.

The work will be highly useful to the banker and lawyer because of its treatment of the relation between acceptances and commercial letters of credit, and of the extent to which the latter instruments are actionable as acceptances. To the student and research worker, much value will be found in the treatment of the historical development of the action on the letter of credit both as an acceptance and as an action for breach of a promise to accept or to pay, as well as the treatment of the theoretical basis upon which are based the rights of the beneficiary under a letter of credit and of the purchaser of drafts drawn under it. The book also contains practical solutions suggested for the avoidance of any difficulties arising both in foreign and domestic trade in connection with the use of these instruments. Price, $0.00

AN ANTHOLOGY OF CZECHO-SLOVAK POEMS. By Clarence A. Manning.

Poetry and the drama are two fields of literature in which Czecho-Slovak genius had been distinguished since the beginning of the nineteenth century. The drama has been made known in America by the plays of Capek and Langer, but the poetry has never been fully appreciated and even such prominent authors as Neruda and Brezina are almost unknown. The present volume, offered as the first publication of the Institute of Czecho-Slovak Studies, aims to present a collection of the best translations that have hitherto been made in the United States and Canada. Many of them have been published for the first time and very few have appeared in other English versions. The collection will be a testimony of the slow but steady increase of interest in this poetry and it will also serve as a good introduction to the reader who desires to learn of the literary achievements of the Czecho-Slovak Republic. THE CAREER AND WRITINGS OF PRESIDENT SAMUEL JOHNSON. Edited by Carol and Herbert Schneider.

Volume I. *Autobiography and Letters.*
Volume II. *The Philosopher.*
Volume III. *The Churchman.*
Volume IV. *The Founding of King's College.*

Although a large proportion of the papers of Samuel Johnson were destroyed during the American Revolution, an unusually valuable collection of manuscripts was discovered in the old Johnson homestead at Stratford, Connecticut. In 1912 Professor Max Farrand assorted them and consigned those which primarily concerned Samuel Johnson to the Library of Columbia University, where they were combined with some manuscripts inherited from King's College. Through the efforts of Mr. Frank Erb, and other officers of the Library, these papers have been arranged, bound and catalogued. It is therefore possible now to offer to the public the writings of a distinguished leader in American thought and education, and also a mass of historical material for the better understanding of the intellectual life of New England during the eighteenth century.

ROMANTICISM. By Baron Ernest Seillére. Translated by Cargill Sprietsma.

This volume contains the synthesis and the essentials of Baron Seilliére's renovating views as to the origin and evolution of European romanticism. These are not vain speculations about a past epoch in the history of ideas, but a methodical investigation which has as its object a more precise rendering of a few of the fundamental results of contemporary civilization and the tracing of a sure road through their inevitable contradictions. This work contributes some fertile suggestions for the study of imperialism, mysticism and socialism. Price, $0.75 Paper

By means of numerous diagrams, facsimiles and transcripts it will teach students how to read and transcribe English, French, German, Italian, and other documents written during those centuries. SELECTIONS FROM THE AUTOBIOGRAPHY OF ELIZABETH OAKES SMITH. Edited by Mary Alice Wyman.

Elizabeth Oakes Smith, the wife of Seba Smith, was one of the very first American feminists. For several years before the Civil War she toured as a lyceum lecturer advocating the need of more extended educational, social and political privileges for women. Her autobiography throws valu-

able light on the greatest characters of her day, persons with whom she came in contact, and persons, it will be seen, who had the greatest admiration for this woman from Maine. Price, $3.00

INTRODUCTION TO THE HIGHER THEORY OF EQUATIONS.
By Edgar Dehn.

Here is a readable text on the theories of Lagrange and Galois relating to algebraic equations. It includes a good deal of the theory of groups, and outlines the theory of domains. Great care has been taken to make presentation and print so lucid and consistent that the book can be used in class, and applications are worked out completely to help the student check up on his theory. This theory is one of the most beautiful in mathematics and adapted like few others to improve the mind of the student. Professor Bell says in his review of Dickson's *Modern Algebra* that this theory demands a native capacity for abstract thought and is one of the infallible touchstones for separating the born mathematicians from the goats. But in mathematics native capacity has to be supplemented by hard work; one is inclined to say by unduly hard work when one considers how little has been done to help the struggling student, this probably on account of the low esteem in which such work is held as compared with research. The present book has been written in the firm belief that there is blessing also in such work. Price, $0.00

EPIDEMIC ENCEPHALITIS. *Etiology—Epidemiology—Treatment.*

Report of a Survey by the Matheson Commission

William Darrach, *Chairman*
Haven Emerson — Charles R. Stockhard
Frederick P. Gay — Frederick Tilney
William H. Park — Willis D. Wood
Hubert S. Howe, *Secretary*
Josephine P. Neale, *Director of Survey*
Helen Harrington, *Epidemiologist*

This book was written as a report of a survey made by the Matheson Commission at the request of Dr. W. J. Matheson who has established a Foundation at Columbia University for the study of epidemic encephalitis. Dr. Matheson believed that research on this disease could best be made if the extensive work already done was collected and correlated. A bibliography was prepared covering more than 4,500 references. This bibliography is included in the book. From this literature the most important work on etiology, treatment and epidemiology has been collected and reported under the several chapters. A short chapter on the other forms of encephalitis, especially post-vaccinal encephalitis, has been included. In carrying out the survey, interviews were held with many of the outstanding workers in this field, both in this country and abroad. Information was also sought by correspondence with workers all over the world. It is Dr. Matheson's aim to make this data easily available to all who are interested in epidemic encephalitis. THE ORIGINS OF THE DRUZE PEOPLE AND RELIGION WITH EXTRACTS FROM THEIR SACRED WRITINGS. By PHILIP K. HITTI of Princeton University (Volume XXVIII).

This is the first scholarly attempt to determine the basic dogmas and tenets of belief of a unique, secret Oriental sect, and to trace them back, through Mohammedan channels, into Judaeo-Christian, Neo-Platonic, Gnostic and Manichean sources. After a brief presentation of the racial and historical background of the Druze people—from the time they figured first in the period of the Crusades down to their recent armed uprising against the French mandate in Syria—, their theology with its deification of al-Hakim and his Five Ministers, and its emphasis on Prophetic Succession is outlined. This is followed by a discussion of their esoteric and mystical interpretation of the Koran, the Cult of the Calf, their belief in transmigration of souls, predestination, dissimulation and the seven moral precepts of Hamzah. The Appendix includes six extracts from their sacred writings most of which have never appeared before in any European language. Even in Arabic, the originals are almost inaccessible.

The author drew his material from first-hand contact with the Druzes in Lebanon and from their sacred manuscripts which they jealously guard in secret. Price $2.00

THE PASTURES OF WONDER. By CASSIUS J. KEYSER.

This work, written primarily for intelligent laymen, is devoted to an exposition of the modern meaning of the term Mathematics and to a critical proposal of a definition of the term Science, which has never been given a standard or an authoritative definition. The discussion includes a searching examination of the relations of Philosophy to Mathematics on the one hand and to Science on the other. Price, $2.75

THE GREEEK SCEPTICS. By MARY MILLS PATRICK.

Dr. Mary Mills Patrick has given us in this book the first exhaustive treatment of *The Greek Sceptics* in the English language. She has shown that they represented a type of thinking that has prepared the way for

modern scientific progress, and that in the new world of today they still have their place.

The Greek Sceptics advocated openmindedness and research, and emphasized the value of relative knowledge. They did not deny the existence of a criterion of absolute knowledge, but they had not thus far found it.

The teaching of Democritus was the incentive to the foundation of Pyrrhonism, for in the court of Alexander, Pyrrho received philosophical training from an ardent disciple of that great thinker. The Academic Sceptics claimed to bring the Academy back to Socrates. These two lines of sceptical thinking, Pyrrhonic and Academic, influenced the history of thought in Philosophy, Science and Medicine for more than five centuries in the Greek world.

A BIBLIOGRAPHY OF JOHN DEWEY. By Milton Halsey Thomas and Herbert Wallace Schneider.

For nearly half a century, John Dewey has been writing books and articles on philosophy, psychology, education, aesthetics, religion, politics and current events. These writings are now made available by this chronological, annotated list, the result of several years' careful research. Students of his philosophy, up to this time, have been forced to hunt out Dewey's works laboriously with the aid of periodical indexes and other reference works. Mr. Thomas, of the staff of the Columbia University Library, and Professor Schneider, of the Department of Philosophy, have brought together here for the first time a complete list of Dewey's writings (June 1929), and of all that has been written about him, so far as they have been able to locate. There are upwards of two thousand items of Dewey's authorship, and some two hundred items relating to him. Reviews of his books and translations are also included. During the entire period of their work, the compilers have had the assistance of Professor Dewey himself, and as far as possible, every book and article recorded has been examined by them. This book will contain an account of Dewey's life and writings, by Professor Schneider. Price, $0.00

SCIENCE AND THOUGHT IN THE FIFTEENTH CENTURY. By Lynn Thorndike.

A new picture is given of the fifteenth century by use of unpublished manuscript materials, by searching criticism of previous estimates and by a varied method of approach from the different avenues of scholasticism and humanism, philosophy and natural science, law and political thought, medicine and surgery, geography and mathematics. The work is fully documented and presents numerous extracts from the original texts, including two complete treatises on the Platonic ideas by Niccolò da Foligno, now published for the first time. Altogether the volume is a fresh and scholarly exposition which will be of interest to every student of the period of the Italian Renaissance or of the history of medicine, of speculative philosophy and of experimental science.

EUROPEAN FINANCIAL CONTROL IN THE OTTOMAN EMPIRE. By DONALD C. BLAISDELL. With an introduction by EDWARD MEAD EARLE.

Students of world politics seeking the factors underlying political interests will find this volume thought-provoking. As its sub-title indicates, it is a study of the establishment, activities and significance of the foreign "Administration" of the Ottoman Public Debt. Well-informed students of Near Eastern history have for long been aware of the existence of this organization, but of its economic and political importance few persons have been cognizant. Here for the first time is a picture of the Ottoman Empire with the traditional strokes present, but softened, while the economic background of European political interests is brought into sharp relief. The central figure in this new focus is the "Administration"; but around it are clustered entities bearing names with which all students of international relations are familiar: the *Deutsche Bank*, the Bagdad Railway, and the Imperial Ottoman Bank.

The author tells how representatives of European bondholders' syndicates obtained economic rights in Turkey. Likewise he narrates the subtle and yet forceful way in which these rights were employed, and how the Council of the "Administration" became the most influential group in the Empire. During the Great War the council served to cement the Turco-German alliance, and, strange as it may seem, it fitted admirably into the scheme of the Allied Powers to forge economic and political chains on the remnant of the Ottoman Empire. These events are described with material translated from the archives of the Council, as is also described the conflict between Turkish nationalism and European imperialism, a conflict which revolved about the question "What should become of the Administration, of the Public Debt?"

From 1922 to 1925 the author was a member of the teaching staff of Robert College, Constantinople, and in 1927–1928 made a special trip to the Near East and Europe to gather material for this book.

A GUIDE TO THE PRINCIPAL SOURCES FOR EARLY AMERICAN HISTORY (1600–1800) IN THE CITY OF NEW YORK. By Evarts B. Greene and Richard B. Morris.

The City of New York has in its various libraries and archives a wealth of original material, both printed and manuscript, for the study of early American history. The value of these collections, built up by several generations of scholars, librarians, and public-spirited citizens, has long been recognized in a general way. They have been used to good effect in the preparation of histories—local, state and national—as well as in some notable documentary publications. Yet much of the most valuable source remains unworked and in many cases almost unknown, waiting for the historians of the future. It is the purpose of this guide to locate such unworked material and to indicate some of the ways in which it may be utilized for the enrichment of our national history.

PARLIAMENT AND THE BRITISH EMPIRE. By Robert L. Schuyler.

The legal right of the British Parliament to legislate on any subject for any British colony or dependency is now an accepted principle of the constitutional law of the British Empire. In the past, however, controversies have arisen within the Empire in which this right has been denied. The dispute between Great Britain and the American colonies that led to the American Revolution is the most famous of these controversies, but it was neither the first nor the last. In this volume Professor Schuyler examines other constitutional conflicts in which the same issue was involved.

He reaches the conclusion that the precedents have always supported Parliament in its claims and offers a new explanation of the origin of its imperial authority. In a concluding chapter he shows how it has virtually lost its right to legislate for the self-governing British Dominions.

THE ECONOMICS OF FARM RELIEF. By Edwin R. A. Seligman.

The present agricultural problem is a complex one. Agricultural distress has been responsible for the foreclosure of mortgages, a pronounced net exodus from the farm, the embarrassment of local finance, the slowing up of public improvements, a decline in the earnings of railroads, injury to banks, as well as, of course, the disappearance of agricultural profits. An examination of the *Table of Contents* of this book will show the manner in which Professor Seligman has undertaken this research. The problem has become more than a local one—more than a national one—it has to do with the peace of the world and the prosperity of mankind. Professor Seligman does not name the specific that will, when applied, promptly remedy the existing trouble, but he does outline the course and the direction that must be pursued if a cure is to be established; and more, he has been able by examination to point out the error of present ways and the fallacies of past procedure. The chapter on *A Program for Farm Relief* and the final chapter including his *Conclusions* are concisely and directly worded and leave no room for confusion as to his opinions and his reasoning. This work was undertaken at the instance of John J. Raskob but publication was withheld until after the political turmoil was over in order to preserve its scientific character. Anyone who is concerned with agricultural evils as they exist today—anyone who is interested in the economic history of this country—anyone who has a sincere and an intelligent curiosity about the facts of this economic "boll weevil" that has assumed a permanent political aspect will find in this book some well considered opinions and recommendations by a prominent economist. INCUNABULA AND AMERICANA (1400–1800). By Margaret B. Stillwell.

In this volume the author, the librarian of the Annmary Brown Memorial of Providence, discusses with charming discursiveness books printed before 1500, and books written before 1800 relating to the history of North and South America. Her familiarity with the John Carter Brown Library of Providence, one of the finest collections of early Americana in existence, and the Annmary Brown Memorial, one of our outstanding libraries of incunabula, has given her a masterly grasp of her subject, to which her scholarly treatment does justice.

The book contains a reference section, including notes and definitions pertaining to incunabula, tables showing Latin abbreviations used by early bookmakers, Latin place-names found in early imprints, bibliographical terms now current in various foreign countries, and selected bibliographies and monographs relating both to incunabula and Americana, this comprising a wealth of material invaluable alike to student and bibliophile.

SYSTEMATIC SOCIOLOGY IN GERMANY. A Critical Analysis of Some Attempts to Establish Sociology as an Independent Science. By THEODORE ABEL. Number 310.

Many persons in England and America are trying to understand the significance of the new interest in sociology in the German universities and among German scientists under the leadership of such men as Simmel, Vierkandt von Wiese and Weber.

Dr. Abel, who combines hard common sense, artistic skill and scientific thoroughness with full knowledge of the German academic background, gives us in this book a reliable analysis and interpretation of this literature.

Dr. Abel has already in America given promise of leadership as an investigator, writer and teacher, in the effort to establish sociology as an independent science in accordance with the conclusions he draws from the writings of the new German school, whose work is revealed in these pages.

Professor Franklin H. Giddings of Columbia University says: "It is a long while since any book on sociology has come from the press so important, so explanatory and so pleasure-giving."

THE GUILDS OF PEKING. By JOHN STEWART BURGESS. Number 308.

The Guilds of Peking is an accurate and detailed study of one of the most important groupings in the life of ancient China. Because of long residence in China's historic capitol, and intimate knowledge of social and economic conditions, Dr. Burgess is specially fitted to interpret these age-long industrial, commercial, and professional associations, both in relation to the passing social order and to rapidly changing contemporary Chinese life.

Here are detailed first-hand reports of the guildsmen themselves, giving an insight into the mental life and attitudes of carpenters, masons, actors, blind singers, silk merchants, and many other artisans and tradesmen. Although Dr. Burgess finds that these institutions in their ancient form are disappearing, he points out values which might well be conserved in the new social institutions now being established in the Flowery Republic.

These and many other related problems are thoroughly discussed and analyzed in Professor Eberling's comprehensive study of the law and practice of Congressional investigations. Price, $6.75

LABOR CONDITIONS IN JAPAN. By Shuichi Harada. Number 301.

No country is undergoing a more significant transformation than Japan. Within two generations it has witnessed an industrial revolution which required one hundred and fifty years in the western world. This revolution is still going on and must have tremendous consequences on the relations between Orient and Occident in coming years. No phase of it is more significant than that described by Dr. Harada in these chapters. With full knowledge of the conditions of the older civilization in Japan he traces the rise of a labor movement that is wavering between the conservative program of the American Federation of Labor and the radical program of the Russian Bolsheviki. The book gives the latest information in regard to all phases of the Japanese labor problem—strikes, protective labor legislation, remedies for surplus population, and programs of the numerous labor groups which have not yet fused into a single labor party. Well written and authoritative, it should be ready by everyone interested in this most vital question of the day. Price, $4.50

FOREIGN LEGIONARIES IN THE LIBERATION OF SPANISH SOUTH AMERICA. By Alfred Hasbrouck. Number 303.

Soldiers of fortune have ever been favorite characters in romance. Here is a true story of thousands of them. It tells how adventurous men of many nationalities fared to South America a century or more ago; how English, Irish, Scotch, German, French, Dutch, Swedish, Italian, Pole and American banded together to fight for the independence of lands other than their own.

In the present work the general reader will find for the first time an interesting and reliable account of one of the most picturesque and yet least known episodes in the history of the Americas. The special student will welcome the evidence it supplies of elaborate research in the archives and libraries of England, Venezuela, Colombia and the United States. For both of them it provides new historical material, and the measure of enjoyment that comes from new tales of adventure. Price, $6.75

ECONOMIC EFFECTS OF PUBLIC DEBTS. By Shutaro Matsushita. Number 309.

The writings on the economic effects of public debts have heretofore been fragmentary. This dissertation attempts to deal with the whole question

systematically and in all of its various phases. Special emphasis has been put on the history of the theory of public debts, which has been sadly neglected in works on public finance. Although the primary aim of this book is theoretical, it is hoped that some light will be thrown upon the practical questions of the day. Price, $3.00

CARTELS, COMBINES AND TRUSTS IN POST-WAR GERMANY. By Rudolf K. Michels. Number 306.

The combination movement in Germany since the war is of vital importance not only to that country but to the world, and authoritative information about it in English has been almost entirely lacking. To supply this lack is the purpose of Dr. Michels' book. It presents to the student of economics a challenging description and defence of the very different way in which Germany is seeking a solution of the trust problem from the American way, and it provides American investors and business men up-to-date information on the post-war industrial combinations in Germany. Here will be found, following a discussion of the historical background and of the measures taken to control the cartels and trusts, particularly the little known Cartel Law of 1923, a brief but accurate description of the present organization and position of the combinations controlling the leading German industries,—the coal, steel, electrical, dyestuff, and potash industries. It is commended to all students of contemporary world economic problems. Price, $3.50

OUTDOOR RECREATION LEGISLATION AND ITS EFFECTIVENESS. By Andrew G. Truxal. Number 311.

This book should make a wide appeal. It is of interest to city planners who are considering the problem of the provision of recreation areas in the unbuilt sections of the city. The summary of legislation enacted in behalf of public recreation in the past twelve years (1915 to 1927) will be valuable to local and state executives interested in meeting the needs of their localities and states. Municipal officers will find of practical import the treatment of the question of liability of the local government when conducting a recreation program. The promoters of recreation as well as the general reader will find stimulating the attempt to evaluate recreation in relation to the problem of juvenile delinquency. Price, $3.50

STATE ADMINISTRATIVE SUPERVISION OVER CITIES IN THE UNITED STATES. By Schuyler C. Wallace. Number 304.

The problem of state-local relations has attracted widespread attention in the United States from both the public and political scientists alike in so far as the matter of "home rule" is concerned. Curiously enough most other phases of the question have been ignored. Professor Wallace, consequently, has done yeoman's service in calling attention to that aspect of the problem which has received major attention in Europe—administrative supervision. After outlining the situation as it has developed in Europe, presenting as it does a striking contrast to the popular impression of what exists here, the author describes the development of state administrative supervision over municipalities in the United States function by function and comes to the conclusion that "it is not hazarding an unwarranted prophecy to say that the process of centralization may, in the nature of

things, be expected to continue and that we may expect to see greater and greater state administrative superivsion over cities." The book should appeal not alone to the student of municipal affairs interested in the problem of state-city relations, but also to all those interested in the functioning and future of state administration. QUALITY AS A DETERMINANT OF VEGETABLE PRICES. A Statistical Study of Quality Factors Influencing Vegetable Prices in the Boston Wholesale Market. By FREDERICK V. WAUGH. Number 312.

This study deals with the influence of such quality factors as size, color and firmness on the market prices of three vegetables: asparagus, out-door tomatoes, and hot-house cucumbers. The results of the study are of practical value since they suggest methods of producing and marketing in order to satisfy the demand for quality; since they provide a statistical basis for grade requirements; and since they offer a check on the reliability and adequacy of market reports. The study has also some theoretical significance, as it is concerned with an aspect of prices which has received little attention from economists. It offers an explanation of the causes of differences in prices of commodities at the same time and place. Price, $2.50

AN ARAB-SYRIAN GENTLEMAN AND WARRIOR IN THE PERIOD OF THE CRUSADES: MEMOIRS OF USAMAH ibn-MUNQIDH (KITAB al-I'TIBAR).

Translated by PHILIP K. HITTI of Princeton University.

Usāmah was a warrior, a hunter, a gentleman and a poet who sojourned in the courts of the Fātimite caliph in Cairo, of Saladin in Damascus and of Zanki in al-Mawsil. His *Memoirs*, of which only one copy is preserved in the Escurial, Spain, open before us a wide and new vista into medieval times and constitute an invaluable contribution to our knowledge of Arab-Syrian culture in itself and in its relation to Western thought and practice.

Usāmah gives us a first-hand description of some of the battles in which he took part in the defence of his castle, Shayzar, against the Franks and native enemies. He then devotes a section to rare anecdotes, more delectable than which can be found nowhere in Arabic Literature, and closes with another on falconry as practiced in Syria, Egypt and Mesopotamia. Long paragraphs are devoted to his impressions of the character of the Franks and their methods of medication and judicial procedure. In their simplicity of narrative, dignity and wealth of contents and general human interest, these *Memoirs* stand unexcelled in the literature of the Crusades. They acquaint us with the Syrian methods of warfare, hawking and medication and usher us into the intimacies of Moslem court life as well as private home life.

SOURCES FOR THE EARLY HISTORY OF IRELAND. (Volume I.) By JAMES F. KENNEY.

This is a timely and much needed volume. It is more than a bibliography. The first chapter gives in broad synthesis the history of historical writing in

Ireland from early times to the present. The succeeding chapters present the ecclesiastical sources for the history of the island from earliest times to about 1170. The author analyzes and discusses the sources, both in manuscript and published form, and offers critical guidance to the literature of the subject. Much careful work has gone into the unhurried preparation of the volume. It possesses literary charm as well as accuracy in listing and evaluating the enormous mass of material collected by the authors.

It may confidently be stated that the work will prove an indispensable guide to anyone wishing to study any aspect of Irish history during the early Middle Ages. When complete it will include a second volume discussing the secular sources of early Irish history. Price, $0.00

Social and Economic Studies of Post-War France

The Columbia University Press is publishing eight volumes embodying results of an important cooperative investigation into certain economic and social developments of France and the French people during the last decade. The investigation has been made in France by a group of American scholars, with the help of a considerable number of research-assistants, both American and French, and with the valuable aid of numerous French officials. It has been conducted under the general auspices of the Columbia University Council for Research in the Social Sciences and under the special direction of a committee consisting of Professors Carlton J. H. Hayes (Chairman), Robert M. Haig, Wesley C. Mitchell, William F. Ogburn, and Lindsay Rogers.

The central purpose of the investigation has been the gathering of reliable information about the manner in which, and the extent to which, inflation has arisen in French public finance, and been reflected in French banks and private finance, and had effect on the several social classes and cultural groups which constitute the French nation, and likewise how it has been at least partially offset by the expansion of French industry and the activity of French labor, and seriously complicated by French politics, French foreign and colonial events, and French national psychology.

However, in the actual conduct of the investigation, sufficient significant information has been gathered to warrant the publication of volumes which do not treat directly of inflation but which provide comprehensive and up-to-date surveys of French industry, French labor, French government, French foreign and colonial policies, and French training for national citizenship.

Every effort has been made to ensure the reliability of all the information gathered and to render its presentation objective and scientific. The study as a whole should be of immediate value to economists and of future value to historians, and particular volumes should appeal to a wide range of readers. Altogether the work should serve to make better known and appreciated the grave economic and social problems which confront a great contemporary country such as France and the efforts put forth by the French people to solve them.

THE PUBLIC FINANCES OF POST-WAR FRANCE. By Robert M Haig. Volume I.

American interest in French public finance since the war is the grave concern with which a creditor views the fiscal adventures of a debtor fight-

ing against insolvency. The outbreak of the war found France financially unprepared. Since her antiquated tax machinery could not cope with the emergency, France was obliged to pay her way from 1914 to 1918 with five borrowed francs for every franc from revenue receipts. How the French taxpayer, after a long succession of fiscal and political crises, was finally forced to shoulder the huge burden of war-charges is vividly explained by Professor Robert M. Haig. Although public finance in France has almost the status of a black art practised within the magic circle of the administrative bureaucracy, Professor Haig and his staff, working on the spot in close contact with the Ministry of Finance, were able to obtain hitherto unpublished data which they have subjected to a painstaking analysis. The first part of the volume relates the history of the financial policy of France, with particular reference to taxation. Part Two contains an exhaustive treatment of the domestic and foreign debt and the reparations problem. The last section is a concise outline of the provisions of the present system of local and national taxation, never before available in English.

THE DEVELOPMENT OF FRENCH INDUSTRY AND AGRICULTURE, 1918–1927. By WILLIAM F. OGBURN and WILLIAM JAFFÉ. Volume III.

After ten years of peace, what is the economic status of France? Victory brought her new sources of raw materials, increased colonial wealth, modernized industrial equipment. On the other side of the balance-sheet were assembled heavy liabilities: serious losses in man-power, disorganized foreign trade, monetary instability, and a huge public debt. The development of France in the critical post-war decade—hailed as a "second industrial revolution"—has created a new balance of economic power in Europe. In the first comprehensive survey of the industrial and agricultural productivity of France, 1918–1927, to appear in any language, Professors Ogburn and Jaffé have analyzed the situation with a wealth of facts and figures. Specialists in foreign trade will welcome it as a practical reference book. To students of European economic history it will reveal invaluable data on the unexpected operation and interplay of economic laws, rarely observable in more normal times.

NATIONAL PSYCHOLOGY IN CONTEMPORARY FRANCE. By CARLTON J. H. HAYES. Volume V.

Why and how are Frenchmen patriotic? With characteristic verve and readability, Professor Carlton J. H. Hayes surveys the means by which public opinion and national action are inspired in present-day France. The rôle of the French State, the French schools, the French army, and the French press, radio, and cinema in the life of the French people is portrayed

with an abundance of documentation. There is an illuminating discussion of the activities of the Churches and patriotic societies, a full treatment of the problem of Alsace-Lorraine, and a study of regionalism and internationalism in France. In the appendices will be found an analysis of textbooks used in French schools, a directory of teacher-organizations, and a unique guide to the leading magazines and to the newspapers of Paris and the provinces. These volumes, the outgrowth of years of careful research, describe the beginnings of theatrical history of New York City, from about 1700 to 1842. The life of the town, with its changing tastes and customs, serves as background for the pictures of the actors, the audiences and the manners of stage production. The author aims to present a living theatre in a living city. Contemporary newspapers and other publications have been carefully examined for critical discussions and for theatrical news, and many rare and interesting illustrations make the narrative vivid. This record is the most complete in existence of the earliest actors and playhouses known to New York. Later volumes will continue the account almost to the present day.

Beowulf, The Song of Roland, the Arthurian Romances, the Legend of the Holy Grail, The History of Reynard the Fox, the Ballads of Robin Hood and the Canterbury Tales are records of the thoughts and feelings of different eras, and they show the contributions of the Anglo-Saxon and French and Scandinavian and Celtic peoples to the English-speaking race. COLUMBIA STUDIES
IN HISTORY, ECONOMICS AND
PUBLIC LAW

EDITOR'S FOREWORD TO THE COLUMBIA STUDENTS IN HISTORY, ECONOMICS AND PUBLIC LAW

The Studies in History, Economics and Public Law were started in 1890, under the auspices of the Faculty of Political Science of Columbia University, and under the editorial management of Professor Edwin R. A. Seligman. Professor Seligman continued to act as Managing Editor until 1919, when he was succeeded by Professor Henry R. Seager and in 1923 Professor R. L. Schuyler succeeded Professor Seager. The object of the Studies was to afford an avenue of publication for the best dissertations submitted by candidates for the degree of Doctor of Philosophy under the Faculty of Political Science. Care has been taken to include in the series only meritorious works, as is evident from the favorable reception which the monographs have met at the hands of competent critics.

So far the Studies have published 314 monographs. Complete sets are subscribed for by leading libraries in the Argentine, Australia, Austria, Canada, China, Czecho-Slovakia, Great Britain, France, Germany, India, Italy, Japan, Netherlands, Norway, Philippine Islands, Poland, Russia, Spain, Sweden, and Switzerland. German subscriptions alone amount to twenty-five. In the United States fifteen state libraries, thirty public libraries, and two historical societies subscribe for the Studies.

The Studies were started without any independent publication fund. The enterprise has not only paid its way, but has now amassed a fund which is of substantial assistance to the authors of the monographs.

IMPORTANT

Originally, these Studies were bound in paper and indicated by Arabic numerals. For the convenience of Libraries and Institutions that desired complete sets of the Studies, two or three consecutive titles were listed together as a volume and indicated by Roman numerals. Beginning with number 274 of the Studies, however, all titles have been published separately and bound in cloth. It is suggested that you turn to the Chronological Index on page 119 before ordering, to avoid confusion. Ordinarily, the whole cloth volumes published prior to number 274 are sold only to Libraries for the purpose of completing files of the Studies.

A Saga of the Great American Father

PATERFAMILIAS

by W. B. Trites

Author of "The Gypsy"

YEARS ago, he was hailed by William Dean Howells as one of the most promising of American writers—and Howells has been proved a prophet.

Church bells are breaking into the warm morning air of a Middle Atlantic factory town when Mr. Trites takes us to dinner at the home of Dr. William R. Stanton. Besides Mrs. Stanton, there is Cora, just out of college; and Jack, just preparing; the married daughter, Julia, and company. Consequently, there is some shifting of chairs in the old-fashioned dining room. Some day the Stantons will move away from near the railroad tracks into roomier quarters.

William R. is a gentle lion of a man, very much a father and an overworked physician. Collecting fees perplexes him. Hypochondriac patients bore him. Compliments over his bedside manner exasperate him.

Now he is fifty. Unpaid bills harass him. He could earn $5,000 a year if . . . And the family tastes are not unreasonable but always a bit beyond his means. Fifty! and Jack with six years of schooling ahead; none of his early plans with any prospect of materializing; and his hold on life a bit weaker, if anything.

"Paterfamilias" has a certain message for every reader who enjoyed "Sorrell and Son" or "Alice Adams." It is the chronicle of the unhonored and unsung American father.

Kyne Returns to His Old Love—the Southwest

JIM THE CONQUEROR

by Peter B. Kyne

IN private life Don Jaime Miguel Higuenes was a rancher, a grand and spacious personality. In even more private life he was "Jimmy Higgins." Whatever he happened to be by name, he was Jim the Conqueror by nature.

Roberta Antrim had red hair and ambitions and temperament to match. When "Jimmy Higgins" shot her uncle, even though he was a peculiarly superfluous sort of uncle, Roberta seemed to hear the call: "Go west, young woman!" Roberta, who was as east as Easthampton and twice as high-hat, responded. And the border country of Los Algodones, Texas, was never the same again.

Writing about a country where men can say strong things without raising their voices, Kyne achieves his stirring climaxes and flashing contrasts without straining for effect. It is because his people and his backgrounds are real that they are also romantic.

The Men who Harnessed Nature

THE HUMAN SIDE OF SCIENCE

by Grove Wilson

HAVELOCK ELLIS has pointed out the fact that the really great scientist has a definite kinship with the artist and the poet. Here is a book that brilliantly illustrates that truth, presenting science as something warmly alive, and its history as a series of exhilarating adventures.

Roger Bacon, a citizen of the twentieth century living in the thirteenth, utters the heresy that things should be proven to be believed. John Kepler fares forth to Prague on money borrowed from Tycho Brahe—what a pair of astronomers and adventurers! Newton begins his life trying to be a farmer, shakes the field of physics to its foundations and ends as a lonely old man, in the position of master of the mint. Faraday makes a little memorandum in his note-book reading: "Convert magnetism into electricity"—and does it. Pasteur startles the good citizens of Lille by keeping a light burning far into the night in a curious room littered with test tubes and retorts. Mendel dies unknown and his theories spring to life thirty-five years later. Darwin, lighting the candle of biology, touches off an explosion that rocks the world.

Grove Wilson, a novelist of distinction, started his research for this book in 1919, and has been working at it ever since. He has made himself an authority, but he is an incurable layman—and so were the great Prometheans whose stories he tells.

A Novel of Old and New Kentucky

RED LIKKER

by Irvin S. Cobb

WHEN Irvin S. Cobb lived in Kentucky the state had three boasts: Its Fair Women; Its Fast Horses; Its Fine Whisky.

Like a bright and beaded thread, the story of red whisky runs through the history of Cobb's home state, and it is the theme he has chosen for this compelling and authentic novel.

Gallant Colonel Bird was one of the last of the Bourbon-makers. Over a period of three generations, the Colonel saw "red likker" playing a life-and-death role in his house. It killed his son, Isham. It brought back a hold on life to his querulous remedy-ridden sister.

Seen through the eyes of old Colonel Bird, the comedy and drama and color of a tremendous transition pass in review. Red likker and blue grass; temperance workers and tonics; then, while the old South is in the pangs of rebirth and the Colonel's grandson returns home to build a new tradition, puzzled old eyes look out on the new era of gas stations, bootleggers, Rotary clubs. A symbol of the old order, the flames of the distillery paint the sky red.

"Red Likker" is not a tract for or against prohibition. As far as this book is concerned, the one pronouncement that matters is that Prohibition makes a mighty good theme for a story of the old and the new Kentucky.

An Incredible, And Incredibly Funny, Adventure

THE STRAY LAMB

by Thorne Smith

Author of "Topper"

YOU could fling a dictionary-full of favorable adjectives at this novel, all the way from "amusing" to "zestful," and they would be true. But the most important of the bunch would be the word "new."

This ridiculously delightful and delightfully ridiculous novel, is new in idea, execution, characters, and point of view.

This is the strange story of Mr. T. Lawrence Lamb, who lost his status as a solid citizen, to be transmuted into a succession of creatures usually met with in menageries. Mr. Lamb was considerably upset by this occurrence, which certainly interfered with his business and social life. But it must be said that the situation was not without its compensations. Lamb had always been pretty good at using his eyes, but there were many things he saw more clearly now.

For the discerning reader, there is much of poetical truth here, as well as light-hearted nonsense.

A Funny Novel by a Famous Poet

THE SUN CURE

by Alfred Noyes

IN HOLIDAY mood, the famous poet has written a deliciously light-hearted story, a blending of adventure, sly satire, comedy and beauty that defies analysis and proves again the thesis that poets write the best prose.

Others have taken the sun cure for nervous indigestion, ingrowing senility and a variety of ailments of the body. Basil Strode took it for what ailed his soul—specifically, for a state of despondency superinduced by the beauty and hard-heartedness of Barbara Lane.

How Basil, an ever-so-proper young ecclesiastic, lost his clothes and battled his way back to them through a terrifying series of mental hazards, is the fable of the book. How he also lost the swaddling clothes that encased his soul, and didn't regain them, is its theme—a theme on which Alfred Noyes plays with altogether charming philosophical and farcical variations.

Making a Science of Human Nature

INDIVIDUAL PSYCHOLOGY

by Erwin Wexberg

Translated by W. Béran Wolf

THIS book is a mine of information about yourself.

Open the pages at random and see the variety and richness of subjects that Dr. Wexberg treats. It may be an explanation of why ethical persons dream unethical dreams, or why deaf men have become great musicians, or why attainment is a product of courage, rather than of inherited talent, or any of a thousand and one other questions. In any case, it will be both interesting and important.

Dr. Wexberg is a brilliant Viennese disciple of Alfred Adler, founder of the school of psychology that has displaced fads and made a science of human nature. Dr. Wolf, who has done an admirable translation of the work, is one of the leading scholars in America.

Introducing the Successor of
"Ruggles" and "Merton"

LONE TREE

by Harry Leon Wilson

BEN CARCROSS'S idea of Paradise was the very spot where he happened to be living, which was the Lone Tree Ranch. Then oil was struck on Ben's property, and the ranch began to look like the Garden of Eden during apple week.

Ben thought that God had intended him to be a simple cattleman. Ben's wife thought the time had come to acquire a few complexes, show the neighbors some style, and startle the natives of Europe.

Ben landed in the hospital for one of those de luxe operations in which the surgeon does everything but autograph the scar. In self-defense he annexed a doctor of philosophy, an aviator, and two nurses, incidentally helping one of the nurses to abduct a baby they both liked.

The family fortune went west with a crash, and Ben was again at peace—until along came another uninvited gusher and another fortune, and Ben's troubles began anew. "Lone Tree" is Harry Leon Wilson at his best—and that's high praise for any book.

After the Deluge

DAWN

by S. Fowler Wright

IT IS not necessary to be one of the many thousands who read "Deluge," Mr. Wright's Book-of-the-Month Club novel, to understand "Dawn." For, once more invoking the terror of the wind and the waves, Mr. Wright starts at the beginning of his cataclysmic flood with another group of characters, and rushes them on to where their destinies join those of Martin, leader of the pitifully small rebuilding world.

...The harassed Martin, with his pre- and post-flood wives, with elemental forces to fight in men as well as in nature.

There follows a story of furious intrigue, secret bargains among the malcontents of the new community, and betrayal. In scenes of sweeping drama comparable only to those in "Deluge," Martin and his loyal group are driven back to a jut of land that has been kept to himself by a certain individualistic farmer named Burford. Martin's generalship is tried, and not found wanting.

A Great and Picturesque American

DANIEL WEBSTER

by Allan L. Benson

THE turbulent life of Daniel Webster is like a magic glass in which one may see reflected in miniature the struggles and aspirations, the social and political history, all the varied color and drama, of a whole great epoch in American history. The seventy-year span is stretched from early post-revolutionary days to the first rumblings of the Civil War; a span that took in presidents, farmers, bright-eyed ladies, diplomats, good fellows of the tavern; battles in the court room and Congress; great causes, on which hinged treaties, mutterings of war, the destiny of the Constitution; great personalities and memorable anecdotes.

Allan Benson's sensitive biography draws a sweeping picture of the man Webster against a heroic background of his strenuous times. He has avoided pedantry on the one hand, and exaggerations on the other. The result is a thoroughly interesting story, rich in human values, that gives an admirable picture of a great man and a great era.

Primitive Man in a Vivid Novel

SONS OF THE MAMMOTH

by Waldemar Bogoras

Translated by Stephen Graham

IN THE days when the world was young, Yarry, a member of the tribe that held itself to be descended from the mammoth, profaned against the tribal mysteries and was driven out to the primeval wilderness, first taking his mate out of the camp of the women.

Autumn came, and the time of the mammoth hunt. There appeared in the hills a vast monster called the Rek, bringing fear and destruction. For this the tribal wizards blamed Yarry and his woman.

There follows a series of weird and hair-raising events, ending in a magnificent denouement.

Waldemar Bogoras, who besides being an internationally famous anthropologist is also famous in Russia as a novelist, has written this brilliant story of prehistoric man, interpreting the strange drawings of mammoths done ages ago on the walls of caves and still found all over Europe and Asia, infusing the breath of life into the lore of the scholar's study and the dust of the museum.

"Sons of the Mammoth" is not only a story of tremendous dramatic force, but a scientific reconstruction of the Stone Age and its people—how they lived and hunted, waged war and made love, how they celebrated their joys and worshipped their grotesque gods.

The Greatest Adventure in History

THE CRUSADES

by Konrad Bercovici

THE year One Thousand, and an eager world anticipating wonders. A tocsin call sounding through Europe. Men in the hundreds of thousands answering the call of the Cross to march eastward, until the whole of Europe threatened to empty itself into Asia. Marching men, some with a high vision, some driven by the quest of adventure, some in quest of loot.

Across the tremendous canvas that Konrad Bercovici has stretched move the figures of Peter the Hermit, Godfrey de Bouillon, Raymond of Toulouse, Robert of Normandy, Bohemond, the Popes, Richard the Lion-Hearted, that wily, shrewd and calculating Greek, Alexis Comnenus, Emperor of Byzantium, and that gallant Arab warrior, Saladin, whom enemies had learned to love and respect and who was perhaps nearer kin to Richard than the world has been willing to admit. The story of the Crusades is told vividly: all the gaudiness of the Orient and all the sordidness of the Occident, saint and harlot, fool and wiseman, hypocrite and martyr, are described fearlessly and pitilessly. They beat their wings on the pages and march on towards the goal which they never reached. Never before and never since has the world known such an epoch as the two centuries of the Crusades.

The story of the Crusades is the greatest adventure story in the world; and Konrad Bercovici has told it magnificently.

The Cradles of Culture

SALONS

by Valerian Tornius

Translated by Lilian Wonderley

TO a large extent the history of the Salons is a history of European culture. It was in the Salons that the torch of humanism burned most brightly, and out of the Salons came a swarm of great personalities and ideas, wondrous talk and treasured traditions.

Here is Lucrezia Borgia, a lady who bore an exceedingly bad name, but a brilliant patron and connoisseur of the arts. Here is Leo Medici, demonstrating that there was more to the Vatican than collecting money and pursuing heretics. The Duchesse de Maine receives her friends while making her toilette, and hears the gossip of Paris. We see Madame Récamier in her Salon and learn why Napoleon disliked and feared her. Tasso, Aretino, Voltaire, Frederick the Great, Goethe, pass across the colorful stage. We sup with captains, kings and statesmen in Vienna, rejoicing that Napoleon is safely in exile, until a dramatic announcement comes and they scatter from the bright halls.

Out of the chatter and glitter of the Salons of five centuries Tornius has constructed a book that gives a new and important perspective on the parade of western civilization.

Repeating the Success of "The House of Fulfilment"

The Garden of Vision

by L. Adams Beck

THE blending of wisdom, beauty of setting and theme, and originality of story-telling that is associated with the novels that bear the name of L. Adams Beck is here presented in its finest maturity.

"The Garden of Vision" taps the spiritual springs of Japan as "The House of Fulfilment" did those of India. The noble code of honor of knightly Japan; the clear and cool intellectuality of Japanese Buddhism; the fascinating mysteries of ju-jutsu (not a mere form of acrobatics, but a philosophy and a science in one) are revealed in the swift but unhurried flow of a singularly powerful story.

The challenging Yasoma Brandon, flapper-descendant of royalty; the enigmatic Ito; Eleanor Ascham, the intellectual aristocrat; these and the medley of interesting people of the east and west with whom the drama of their lives is interwoven, are memorably real folk all, and they move across a magnificent background that sparkles with the accumulated beauty and wisdom of ages.

Whither Democracy?

POWER AND THE PEOPLE

by Lord Hewart

Lord Chief Justice of England

NOT since Lord Bryce's "The American Commonwealth" has there been a book of such outstanding Anglo-American importance as this work of Lord Hewart's outlining a brilliant philosophy of justice, of democracy, of liberty.

For the Lord Chief Justice of England to write a book on an internationally controversial subject means the breaking of a precedent. But Lord Hewart, in his career from a struggling journalist to the highest judicial post in England, has already broken many precedents.

Lord Hewart's thesis is that the liberties that have been wrested from tyrannical kings in the course of centuries are not resting as securely in the lap of the people as the people themselves smugly suppose. The encroachment of bureaucracy on the domain of democracy in America, as well as in England, makes a story calculated to shock all thinking people.

Lord Hewart, who has been a distinguished guest of the American Bar Association and other gatherings in America, is thoroughly familiar with the American system. He has mountainous masses of proof for every statement he makes. What he is concerned with, however, is not so much the criticizing of the American and English systems of government as in blazing the trail towards the kind of liberty that Abraham Lincoln preached.

The Glamour—and Humor—of the Mississippi

MISSISSIPPI

by Ben Lucien Burman

Illustrated by Alice Caddy

THROUGH these colorful pages move real, living Mississippi people —pilots and Negro roustabouts, candidates for assembly and poor white trash, a talkative barber and a friendly judge, a dog, a cat and a steamboat.

It is the story of a river boy's loyalty and the straits into which it led him. Born a Shantytowner—and to river people that means the dregs of humanity —States Lilly flung away everything he loved best to return to his own people. How his foster father, old Captain Lilly of the Morning Glory, finally won him back, is told with a pungent humor which intensifies the pathos of these two loving, fiercely loyal souls.

Ben Lucien Burman is on his home ground in this story, and can speak with authority and fine understanding of the picturesque, strangely unsophisticated inhabitants of such small towns as Beaver Slough—with their childlike love for gaudy clothes, trick buttons and rainbow neckties; their quick hates and staunch friendship.

Introducing a Brilliant Hungarian Novelist

THE WOMAN OF NAPLES

by Miklos Suranyi

THE curtain rises on Galeotti, astrologer to Mathias, King of the Magyars, walking in the streets of besieged Vienna, and the extraordinary pageant of one of the most colorful periods of the Christian era unrolls before our eyes. People strange to practical present-day minds move rapidly across the stage; people superstitious, bloodlustful, romantic—and incurably human.

It is the story of conflict between Mathias and his beautiful, treacherous wife, Beatrix, whom the Magyars called in scorn "The Woman of Naples," a conflict ending in disaster which changed the history of Europe.

The stormy life of Queen Beatrix, with her love affairs and endless intrigues, is but the nucleus around which Miklos Suranyi, one of the outstanding writers of present-day Hungary, has built up a vivid picture of the turbulent 15th century. He has convincingly recreated an unfamiliar chapter of mediæval history.

The de la Mare Bible Book for Children

STORIES FROM THE BIBLE

by Walter de la Mare

WE HAVE confidently told Walter de la Mare that he will be collecting royalties on "Stories From the Bible" twenty years from now.

Only a writer of genius, working with deep sincerity and at the height of his powers, is capable of clarifying the Bible for children without debasing its coinage. Walter de la Mare is such a writer, and de la Mare has succeeded.

The rhythmical, translucently simple prose in which de la Mare paraphrases the story of the Flood will delight those who are responsible for children's reading, and, what is more important, will delight the children. With the same unobtrusive art he has remolded to a child's fancy the stories of Joseph, Samuel, Moses, Saul, the children of Israel in the wilderness, Samson, David, and the Garden of Eden.

The Cosmopolitan list is not a long one. As long as it contains books of the caliber of "Stories From the Bible" it will not have to be.

A Splendid Adventure Story for Boys

THE WONDER STICK

by Stanton A. Coblentz

A STORY of the days before history began and how Ru, the despised, the "Sparrow Hearted", saved his people from destruction and became their hero.

Every boy who loves excitement and strange adventures will enjoy reading about the blood-curdling perils of the tribe on their emigration in search of a warmer land, and the deadly rivalry between Grumgra, the Growling Wolf, and the boy Ru.

There is romance too in Ru's hazardous wooing of Yonyo the Smiling Eyed, and his taming of the wolf cub to protect her from the dreaded Grumgra. Moreover, it is our guess that mothers and fathers who are not grown too old to delight in a thrill will find Ru's victory over manifold difficulties both fascinating and refreshing.

DEATH OF A HERO

by

Richard Aldington

ON THE FOURTH OF NOVEMBER, 1918, CAPTAIN GEORGE WINTERBOURNE of the British Army stands up, suddenly and unnecessarily, to a hail of machine-gun bullets, and is instantly killed. Did he or did he not commit suicide? If it was suicide, what was the reason?

From this simple problem, Mr. Aldington has developed a novel dealing with three generations, one thronged with characters and incidents in the setting of a narrative that strides forward with relentless pace. The book, breaking away utterly from the standardized formulas of the novelist's art, succeeds in achieving the form of an emotional symphony. It is, indeed, fundamentally conceived as a piece of music. Disdaining a spurious "modernism," the author gives us a threnody for a war-shattered generation, a creative catharsis that is an expiation of blood-guiltiness.

The Prologue, ironically entitled "Vivace," in exposing the callous indifference with which the "hero's" death was received, shows us the stupefaction which had come over England during the war régime. Part I, dealing with Winterbourne's parents and grandparents, plunges us back into the smug and tight little England of the Victorian nineties. Part II gives an account of the struggles (1912-1915) of Winterbourne the artist against British apathy and stupidity and the affectations of the Intelligentsia; it also introduces the two women: Elizabeth, George's wife, and Fanny, who was not his wife. Part III gives us the long monotony and horror of the war in a prose that is almost as impersonally cold as a military report.

Throughout the whole there is a musical sweep, a symphonic rise and fall, with narrative, soliloquy, humor, tragedy, satire and the idyllic constantly alternating.

This first novel by one of the most versatile and productive of contemporary young Englishmen is an event which should be looked forward to by a public acquainted with Aldington the poet, imagist-leader, scholarly translator, critic and biographer.

JULIO JURENITO

by

Ilya Ehrenbourg

Translated from the Russian
by USICK VANZLER

JULIO JURENITO, FAMILIARLY MISNAMED "THE MASTER," ALTHOUGH HE never taught nor professed to teach anyone anything, is the most recent incarnation of Father Time, the great-grandson of Baron Münchausen, distantly related on his mother's side to the Rebel of Galilee, and on his father's to the Circus.

Headstrong and unscrupulous—as a man of such antecedents, and a Mexican to boot, well might be—Jurenito, after a purposeless youth, devotes his mature years to a single aim. Born into a generation he cannot endure, he plans to do away with it. Being neither idealist nor prophet, Jurenito determines to operate, not by founding a new philosophy or religion, but by utilizing such destructive forces as are at hand. He decides that these forces are concentrated in *men*. He proceeds, accordingly, to select his engines with a remarkable disregard for anything save his purpose: a Russian Jewish poet; an American business man; an uncivilized Negro; a French undertaker; an Italian of the true Roman type; a Russian intellectual; a German. He believes that these people, led by a man who knows what he wants to do, may precipitate a world war and a Russian revolution, and that he, Jurenito, will then see whether or not he has accomplished his purpose.

How Jurenito assembles his disciples, how he engineers the World War, what his disciples do in the war and how they are scattered by it, how they meet again in revolutionary Russia, what happens to them there, how they are disbanded for the last time, and how Jurenito dies with his boots on, and why: this is the tale—along with the story of how the tale came to be told.

This curious book was written in 1922. Its author has been branded a reactionary by the Bolsheviks and a Bolshevik by the reactionaries. The work has been translated, read, praised and condemned in many tongues.

ELVA

by

Durward Grinstead

A NEW AMERICAN NOVELIST MAKES HIS DEBUT IN THIS TALE OF witch-haunted, seventeenth-century Salem, a tale with an atmosphere that is reminiscent of Hawthorne's *Scarlet Letter*.

Elva, who is married, falls in love with her pastor, a soul too gentle for his period and too humane. He is, at the same time, an uncompromising foe of witchcraft. He does not reciprocate Elva's guilty passion, and is forced by his conscience, his shrewish wife and his misunderstanding congregation to leave the community.

Ten years later, a sudden flame of superstition flares up. Three precocious children, for a prank, pretend to be bewitched. They are aided by a scheming minister, a chronic epileptic and Elva, who by this time has been driven near to insanity through the effect of the surrounding atmosphere of repression on her sensitive nature. The result is one of those historic epidemics of madness, in the course of which ten persons, convicted as witches, are hanged.

Then, as a terrible climax, Elva's former lover is haled into court; and he, likewise, gives his life on the gallows.

The tale is a simple one, beautifully told, with a command of description and a deeply penetrating psychologic insight that are rarely found to the same degree, even in the work of a veteran story-teller. The author, by never intruding his own personality, succeeds in giving us an unprejudiced picture of the troublous times he writes about. His book is a contribution, not merely to literature, but to the history of an epoch.

Jacket design by Rockwell Kent.

PLUS AND MINUS

by

Franz Harper

Translated by DERICK WULFF

AMONG THE YOUNG GERMAN WRITERS OF TODAY, NONE IS POSSESSED OF A more fascinating personality or writes a more picturesque book than Franz Harper. And Harper has done nothing that is madder or more breath-taking than his PLUS AND MINUS.

Fedor Harolsen is a vagabond of international high society. Life for him hinges on Luck, the caprices of Chance—*Rouge* or *Noir, Plus* or *Minus.* Reckless and irresistible, he leads a pyrotechnic existence, shooting from the heights to the depths, and back again. His stirring and unbelievable adventures amid the dazzling, fast-stepping continental sets of Longchamps, Monte Carlo and the Lido, with the hero flitting from the Ritz to the Adlon and from the Adlon to the Ritz, is the burden of this extraordinary tale. Pagan desires and mondaine beauties here people a world of dreamlike madness.

Then there is Laura Vlasto—beautiful, ultra-modern, imperious, clearcut and flawless as a diamond. She makes unheard-of demands upon her lovers—fortunes are won and lost to satisfy her whims. To please her extravagant fancy, Harolsen creates a fantastic monster, Homunculus, the mechanical creature of the future.

Such is the tale, one to which no synopsis could possibly do justice. It is all vivid, swift, gorgeously colored. Some might, and many will, call it post-expressionistic. Whatever it is, it rushes along at a wild, cavorting pace. It is as exciting as a jazz-band, as stimulating as a champagne cocktail.

NEW YORK

by

Nat J. Ferber

Author of SIDEWALKS OF NEW YORK

THE NEW YORK CITY OF FORTY YEARS AGO, THE MANHATTAN OF horse-cars and hoop-skirts, brought into creative confrontation with the sky-scraper studded island of today: such is the background of Nat Ferber's latest novel, in the course of which the glamorous story of the years between is unrolled as by a rapidly shifting kaleidoscope. Those who know Mr. Ferber's SIDEWALKS need not be told of his intimate knowledge of all that goes to make up the life of the world's most bustling and vital metropolis. His knowledge of urban types, his feeling for the nuances of urban idiom, are alike remarkable. And in the present instance, he has given us what really amounts to a vivid colloquial history of the last four decades in the life of his loved city.

Against this background Mr. Ferber has set a fascinating story—a story of a success and of a failure. Mr. Ferber's very real insight into human nature, his gift of humor and his extensive fund of observation, enable him to do his canvas full justice. We find, in his NEW YORK, real life and fictional characters meeting and mingling like old friends and blood-brothers. As for the author himself, he never intrudes; he is a realist who knows his trade. He is engaged in painting a picture, and he does it well. He is, in particular, a virtuoso of dialogue, with a powerful and ever-present sense of the drama inherent in the life of a great city and in the millions of lives, great and small, of which that larger life is composed.

NEW YORK is the story of New York in fictional form.

POOR DEVIL

by

Henry Justin Smith

Author of JOSSLYN and DEADLINES

BRUCE WARREN, FRESH FROM SMALL TOWN SUCCESS, COMES TO PIT HIS youth, his courage and his vibrant, undaunted feeling for life against a monster of steel and concrete—the city. The young country reporter becomes the assistant editor and finally the editor-in-chief of a large publishing house. His future seems assured, when Fate steps in, as Fate has a habit of doing.

The Poor Devil then finds himself caught in the grinding wheels of a System that has no place for him. His loved city, to which he has dedicated his youth, casts him off. Had he worshipped a false god?

The story of the Poor Devil, struggling desperately to keep his head up in a whirlpool that is bent upon submerging him, is one that touches the very core of our high-powered urban existence.

As for the author, he is a native son of the great American Middle West, and it is there that the setting of his novels is always to be found. Born and reared in Chicago and educated at the University of Chicago, he has worked his way up from reporter to his present position as managing editor of one of the world's great dailies. In addition to POOR DEVIL, JOSSLYN and DEADLINES, he is also the author of THE OTHER SIDE OF THE WALL, IT'S THE WAY IT'S WRITTEN, etc.

THE DESERT OF LOVE

(*Le Desert de l'Amour*)

by

François Mauriac

Author of DESTINIES and THERÈSE

Translated by SAMUEL PUTNAM

IN THE DESERT OF LOVE, M. MAURIAC HAS TAKEN AS HIS THEME that gnawing emotional Sahara which surrounds and isolates every human being, whether he wills it or not, whether or not he is conscious of it. He gives us a terrifying picture of a French family, that is, at the same time, a picture of countless families the world over. Mutual contempt, dullness, mutual hostility, treason; groping, futile and exasperating efforts at understanding—in short, the utter and dread isolation of each in his own individual desert, what the French call *l'hermetisme des êtres.*

In this particular family, there is a father who is a physician, and a young school-boy son, each of whom carries around, within himself, his inescapable "desert." Nearby is a woman of the *déclassée* species. Father and son, each without the other's knowledge, without the other's dreaming that such a thing is possible, fall under her spell. She conceives a passion for the son, but through a misunderstanding, through the failure of each of them to flee his Sahara, it leads to nothing. Some years later, the three protagonists are hurled together once more. But the sands are now blinding; and the father, a weakened old man who has "dreamed his debauches," goes off to die, suggesting to his son (whom he still does not suspect of being a rival) that such dream-realization in the bosom of a domestic mediocrity is the better course. The son, long since a hardened debauché, goes off, not to die but to live. And over all, at the end, as is usual in M. Mauriac's novels, there glows the faint but gentle light, somewhere, of something beyond life, something beyond the vast encompassing desert.

The tale is told with a power that only one other novelist of the past century could have brought to bear; and that other was Thomas Hardy. Mauriac, in many respects, is the French Hardy. As such, he is bound to leave his impress on the literature of the world.

FROM CENTAUR TO CROSS

Being the Hitherto Unpublished Letters of
Maurice de Guérin

Edited by H. BEDFORD-JONES

Together with a New Translation of de Guérin's
THE CENTAUR
With an Introduction and Notes by GILBERT CHINARD

THESE LETTERS ADD ANOTHER PRECIOUS SHEAF OF DOCUMENTS TO THOSE already garnered by the fervent admirers of the great Romantic and prose poet, whose extraordinary talent, evident in every line he wrote, was cut short by a premature death. The letters were brought to light by Mr. Bedford-Jones and transcribed by M. Chinard, who is a professor at Johns Hopkins University. They cover the ten most stirring years in the brief career of this youthful victim of *la maladie du siècle.*

Exquisitely written, intensely personal and minutely self-analytic, these letters disclose de Guérin's devoted friendship for Barbey d'Aurevilly; his passionately platonic love for the Baronne de Maistre; the self-sacrificing adoration of de Guérin's sister, Eugénie; the poet's marriage with the charming "Indian" girl, Caroline de Gervain; his short-lived happiness, and his death in the old paternal castle.

But these are, after all, merely the external events reflected in these fascinating letters. All the while there is another drama going on, a drama that finds and sinks its roots deep in the poet's soul. For this is, in truth, the tragedy of a soul's quest—the vain and frustrate search for peace. Maurice de Guérin's quest led him, through pantheism, self-analysis, love and creative activity, back to the faith of his fathers; he died a believing Catholic.

At the time of his death, the poet had had opportunity to write only a few poems, including the unfinished *La Bacchante* and his masterpiece, *Le Centaure.* The latter is a flawless poem in prose. These fragments, collected and published after his death, are a milestone in French literature. With the addition of the personal correspondence in the present volume, they give us the complete story of one of the most sensitive figures in all literary history.

BORN TO BE

by

Taylor Gordon

With an Introduction by Muriel Draper, a
Foreword by Carl Van Vechten, and
Illustrations by Covarrubias

IN BORN TO BE, ONE OF AMERICA'S FOREMOST NEGRO SPIRITUAL-SINGERS has written a real American autobiography. Starting with the days when he was a page in a questionable Montana resort, Mr. Gordon gives the story of his life. His experiences as a Pullman porter, his years with the Ringling Brothers circus, and hundreds of other interesting and startling things that happened to him, all lead up to his unusual success in the last few years. Accepted as one of the finest exponents of the Negro spiritual, Mr. Gordon has gone from one triumph to another. In England, in America, in fact wherever he has appeared, he has been hailed as a great artist. His English experiences in particular have been fascinating. He was lionized by society, fraternized with nobility and met all the writers, critics, painters and musicians of importance in London.

Mr. Gordon has told his whole story in a racy, spicy, gamey vernacular that swings you along irresistibly.

Muriel Draper in her Introduction, and Carl Van Vechten in his Foreword, sketch in the intimate and personal background, based on their long friendship with Mr. Gordon; and Covarrubias in his drawings surpasses himself. Always famous for his pictures of Negroes, he has caught the spirit of the book as no other artist could have done.

BORN TO BE has every promise of being one of the very smartest books of the season.

THIS FICTION BUSINESS

by

H. Bedford-Jones

IN THIS FICTION BUSINESS, ONE OF AMERICA'S MOST SUCCESSFUL fiction writers—he conceals his success under something like ten pseudonyms—sets forth the secrets of his trade, considered as a trade. For Mr. Bedford-Jones addresses his remarks, not to the starving inmate of an art-for-art's-sake garret, but rather to the writer who frankly would like to wrest a comfortable livelihood from his craft. And the secrets which the author discloses are, many of them, priceless, being the result of an extensive and highly successful personal experience.

How, for example, is the popular fictioneer to set about creating an atmosphere that is distinctly foreign to himself?

What should a writer do who wishes to lure and snare the coy little birdie known as Success? Should he stay up all night thinking up exciting plots, or should he, rather, spend hours in polishing a single paragraph?

How much or how little character-development is necessary in short stories?

How should manuscripts be technically prepared, in order to avoid antagonizing that terrible creature known as an editor?

Where is one to find those elusive markets for one's creations?

All those harrowing problems, in short, which go to make life a nightmare for the young and struggling writer, are here explained in simple, colloquial fashion and in a manner free of all technicalities and false pretensions.

DOUGIE'S ALMANACK FOR 1930

Compiled by

Allan Ross Macdougall

An almanack of the literary, artistic and gastronomic year, to which a sprightly band of wits, convivials, chefs, painters, lithographers and other men of parts and of learning here and abroad have contributed their cleverest work, inspired by the spirit of gaiety, the love of wisdom and of good living.

The irrepressible "Dougie," as master of ceremonies, has marshalled an extraordinary staff of collaborators—poets, critics, tale-bearers, cooks, raconteurs, maitres d'hotel, inventors of dishes, mixers of drinks, concocters of theories and originators of bon mots. Here is an all-round variety of salads for the spirit and delicacies for the palate—relishes for the eye and ear—and menus for the jaded diner-out—a compendium of useful knowledge to serve both body and soul; for private delectation and for public mirth. The theory of the book is that for a let-down in conversational powers or for any lapse in brilliance, a savory dish is as effective as a savory anecdote; a revival of the gastronomic interest is as potent as a rejuvenation of the intellect.

Only "Dougie," as he is known to his collaborators—globe-trotter of the artistic world, equally at home in New York, London, Paris, the Riviera, Africa or Greece—could have gathered so sparkling and variously useful a collection of stories, drawings, poems and recipes—loaded with bombshells for the complacent, antidotes to boredom, nostroms for literary headaches, breezy tales for the fatigued, pictures that improve the sight and words that are good for the hearing—in short, a just and generous mixture of art, philosophy, fiction and foolery that will make madcaps of us all.

THE BATTLE FOR YOUTH

by

Boris Sokoloff, M. D., SC. D., PH. D.

With an Introduction by PROFESSOR LEO LOEB

THE PRESENT AGE IS, IT MAY BE STATED, THE AGE OF THE YOUNG. NEVER before have our Ponce de Leons been so numerous, or been listened to with so much ardor. In the course of it all, a vast and depressing amount of twaddle on the subject was inevitable; in and out of print. There has been a need for a long time for just such a book as that which Dr. Sokoloff here gives us: an authoritative treatise by a man of science who is a leader in his profession.

Dr. Sokoloff is a biologist of international reputation. A disciple of Professor Metchnikoff, he has been especially known for his researches in connection with the problems of cancer and the endocrine glands. He is at present a guest at the Institute for Cancer Research of Columbia University. Formerly, he was professor of experimental biology at the Russian University of Prague.

Dr. Sokoloff's latest work gives the results of modern biological research in connection with the problems of individual vitality and old age, throwing light at the same time on the question of the cause and cure of cancer. The work is described by its author as "a book of enthusiasm for Science and for Life."

"In studying the harmony of the living organism," he writes, "we are forced to become imbued with such an enthusiasm, as we behold the multiform and infinite individuality and the inexhaustible vitality of the living body."

Dr. Sokoloff's theory, succinctly stated and in language that the layman can understand, is that what we know as Old Age is merely a disease, produced through auto-intoxication of the endocrine glands. The cancer problem, as a purely biological one, is a good example of a lack of harmony between the organism and the glands in question.

His book is a living proof of the fact that science knows its enthusiasms, and that a scientist is not necessarily lacking in that warm glow which comes from a vision and a dream of human betterment.

THE MALE APPROACH

by

Dr. Heinrich F. Wolf

With an Introduction by Dr. Alfred Adler

"The necessity of studying this subject," writes Dr. Adler in his Introduction, "will be clear to all who realize how little prepared human beings are for love, and what difficulties, as a result, arise. Of the three main problems of life, the social, the economic and the amatory, we have made least progress in the solution of the last. From earliest childhood, a human being finds the way paved for work, for comradeship and for friendship. The field of love remains for many years in darkness, and when the light does at length begin to shine, each one finds himself alone, and unacquainted for the most part with the emotional life and the requirements of his mate. The laws adapted to love usually remain unknown, and conflict with the inadequate preparation of the individual.

"The great interest evinced in our day in questions of love, the naïveté and ignorance with which all amateurish and pseudo-scientific pronouncements on the sex question are snatched up, the exaggerated tendency to regard sexuality as the beginning and the end, find their chief nourishment in the uncertainty, the ignorance and the consequent tense curiosity concerning questions of love. There are no blazed trails, no traditions, no suitable forewarnings of any sort to indicate a solution. Small wonder, then, that so many incorrect answers to the problem are submitted.

"When, therefore," concludes Dr. Adler, "an author sets forth with scientific impartiality and ethical earnestness to bring a part of this problem nearer to a solution, we should value it as a beginning. All those who are conscious of their social duties will welcome this book with a sense of gratitude."

Dr. Wolf's handling of this theme, one of the oldest in all history, but one which appears never to lose its vernal fascination, is that of the earnest truth-seeking scientist, possessed of a deep ethical and social sense.

THE CHEERFUL CHERUB

by

Rebecca McCann

THIS IS A NEW EDITION OF MISS MCCANN'S UNIVERSALLY LOVED CLASSIC, embodying the author's own selections from the pithy sayings of the little imp of human frailty who has cheered a continent.

The Cherub is far from being a stuffed and heavenly Pollyanna. She is a very real person, and a real and pungent poet as well. It is the personality—the personality that was Rebecca McCann—behind the Cherub, that makes her what she is today. Beneath the Cherub's spit-curls and behind her kewpie eyes, there is a genuine profundity, along with a wholly delightful understanding of life and human nature. This it was that led Charles Hanson Towne, editor of *Harper's Bazaar,* to say of her: "I have not in a long time read a more enchanting book than THE CHEERFUL CHERUB. I am buying innumerable copies and sending them to my friends."

And now, the Cherub, hand on her tiny non-existent hip, steps out gaily in a brand-new afternoon frock—rather in a pair of new frocks. First, there is the new cloth edition, completely reset and with a colorful jacket that is likewise new. Then, for those who wish to keep and cherish the Cherub in a format that will be proof against much interested thumbing, there is the green limp leather edition—yes, the Cherub has "gone into" limp leather!—in a striking slip-cover. Knowing how large is her devoted audience, we have taken pains to keep the price, in each case, at a popular figure.

All of which goes to show that the Cherub, who has been selling thousands upon thousands of copies annually, is here to stay. She has become an American classic.

DRIVEN

by

Leroy MacLeod

A FIRST VOLUME BY A YOUNG POET WHOSE WORK OFFERS EVERY EVIDENCE that he is soon to become one of our national poets.

DRIVEN includes a number of shorter poems and "Drouth," a true American epic of the soil. Among the shorter poems, the sonnet-sequence, "Adolescence," is specially noteworthy. Anyone who believes that the America of today is not producing poetry has only to read this volume to transform his doubts into a generous acknowledgment of this new work. Here is power, that power which our younger poets, following in the footsteps of Robert Frost and others, are imbibing from their native soil.

Mr. MacLeod has been writing verse since 1924. His work has been published in *Poetry, The Forum, the Braithwaite Anthology of Magazine Verse* and elsewhere. He has now definitely turned his attention to writing, and a novel from his pen is promised for the near future.

DRIVEN is a volume to be placed beside your Frost, your Jeffers, your Robinson, and joins the thin ranks of American poets whose vital and authentic Americanism renders them likely to live.

"He has the makings of a great poet," says Robert Nichols, who calls the title poem "one of the best narrative poems that have ever come out of the United States. . . . He is the real thing. . . . He is, in fact, the only United States poet I have known with the 'Hardy' quality."

CIRCUMFERENCE

Varieties of Metaphysical Verse, 1465-1928
Edited and with an Introduction
by
Genevieve Taggard

THIS FASCINATING ANTHOLOGY RANGES FROM DANTE TO JOHN DONNE, and from Donne to our own Emily Dickinson. It includes a large proportion of sixteenth and seventeenth century poets, and there are poems by other writers from Bunyan to Swinburne and from Tennyson to Carl Sandburg and E. E. Cummings.

The editor's preface is, in itself, a valuable introduction to the study of this particular type of verse. We learn here that by "metaphysical" is meant a state of mind, not any exact philosophic or theologic system of thought. Almost every poet has used metaphysical material, or has written poems that might be termed metaphysical; but the more perfect examples are such poets as John Donne, Emily Dickinson, Dante, Goethe and Lucretius. Keats is the clearest case of what the metaphysical poet is not. His truth is in essence, not in pattern. The metaphysical poet would reject Keats' sensuous assurance, even as he rejects a Miltonian moral glory or a Poesque exit into madness. With a certain salt sanity, he seeks a pattern for his thought. He exhibits a homeliness and a frank eroticism, along with a complete grasp of abstract ideas, and a fantastic turn of language.

This collection is an extremely fine one, embracing as it does some of the intellectually most powerful and stylistically most perfect work in the English language.

The edition is limited to one thousand numbered copies, signed by Genevieve Taggard, at six dollars the copy.

THE CANTERBURY TALES
of Geoffrey Chaucer

With a Translation into Modern English Verse by William Van Wyck, and 24 Full-Page Illustrations, Frontispieces for each Volume and Decorations by Rockwell Kent.

Designed and Printed under the Supervision of S. A. Jacobs—Two Folio Volumes.

HERE AT LAST IS CHAUCER ALIVE AND UNDISGUISED, UNTARNISHED BY THE passage of the centuries—in all his rowdy vigor, elegant ribaldry, inexhaustible anecdote and reverberating humor.

Mr. Van Wyck has rendered "the Father of English poetry" into modern English verse devoid of pedantry, archaisms or academic dullness. His humor, courage, patience and learning have made this translation as absorbingly vigorous as the original undoubtedly was to the master's contemporaries.

A poet in his own right, Van Wyck has proved equal to the task of transmitting the full flavor of Chaucer, the tang of his early Anglo-Saxon usage, the quaint ironies and torrential laughter of his humanity. The rendering is in rhymed verse, a faithful, unexpurgated translation.

It seems strange that a capable and sympathetic modern translation of Chaucer's great epic had not been written sooner. Though THE CANTERBURY TALES is the most modern and humorous of the classics, most people have had neither the time to master the intricacies of its language nor the patience to attack the dull versions that have been hitherto available.

The twentieth century reader will find, in this rendering into present-day English, that nowhere has there been a mutilating attempt to present the original "in modern clothes," but rather that it is a true translation. The transformations of the English language since Chaucer's time have removed him sufficiently far from the speech of our own period to make the task of translation nothing short of heroic; but the reader will delight in the discovery that Chaucer's apparent distance and inaccessibility have been only superficial ones. In its gay wealth of anecdote, its shrewdness and its deft, incisive finality of word and image, his spirit is as surprisingly modern as only the fortunate expert has hitherto known him to be.

ILLUSTRATION BY ROCKWELL KENT FOR THE CANTERBURY TALES

Rockwell Kent's genius has responded profoundly to Chaucer, and the artist has enriched the text with his most mature and brilliantly imaginative work. Mr. Kent had been planning this labor of love for some years, and has succeeded generously in conveying the color, breadth and sweep of the Chaucerian age. The drawings will undoubtedly assure this edition permanence as an artistic landmark.

The text has been arranged in a type page design of unusual distinction, employing a novel plan which permits the use of a beautiful large type, with the original in a column of slightly smaller type, line for line beside the corresponding translated version. The design has proved not only an eminently satisfactory one from the typographer's viewpoint, but offers an unusual degree of convenience for ready and accurate comparison by the scholar; while the general reader will find it stimulating to refer at his ease from the robust and mellow music of Van Wyck's text to its quaint antiquity in the Middle English.

There will be fourteen hundred and fifty sets at fifty dollars the set, and fifty sets at two hundred fifty dollars the set. The fifty special sets will contain an extra run of all the illustrations printed as panels and signed by Rockwell Kent.

GABRIEL
by
Pushkin

Translated from the Russian by MAX EASTMAN
Illustrations by Rockwell Kent

GABRIEL IS A GREAT POEM, BY ONE OF THE GREATEST—IF NOT THE greatest—of Russian poets. Pushkin, indeed, is commonly regarded as "the father of Russian literature" and as "the Russian Shakespeare."

A masterpiece of whimsical fancy and fantasy, GABRIEL deals with a mediæval and Gothic theme in a mock-primitive, satirically "Byzantine" manner. Centering about the Virgin Mary, it tells of her relations with the angel Gabriel, with his satanic majesty, the Devil, and with a dove—the old Hebrew *gozal.* The result is a sublime and inimitable satire, and is, at the same time, poetry of a very high order.

It is fitting that Max Eastman should have been the one to turn this fantasy into English, and he has performed his translator's task superbly. A poet of high rank—as American readers scarcely need be reminded—Mr. Eastman, through his social sympathies and his familiarity with the tongue from which he is translating, has been able to slip admirably into his author's mold, while giving us a quantity of good poetry on his own account.

If anything more were needed to complete and round out the interest attaching to this item, the fact that Rockwell Kent has done the drawings for it should be sufficient to satisfy the most exacting. It would be difficult to think of any other artist so perfectly suited, by temperament and by the quality of his talent, to illustrate this work. Mr. Kent does not have to put himself into the atmosphere of this work—for that atmosphere is his own.

The edition is limited to seven hundred and fifty copies.

THE LAWN BANK KEATS

Being the Complete Works of John Keats, together with All His Letters, Newly Edited, with the Latest Comparative Readings and a Mass of New Material

In Five Volumes

by

Walter Peck, D. PHIL. (OXON)

Editor of the JULIAN EDITION OF SHELLEY

A RE-EDITING OF KEATS' WORKS HAS IN RECENT YEARS BECOME AN imperative challenge to contemporary scholarship. The vitality of Keats' fame, which extends beyond the limits of the scholar's study, has grown steadily with every addition of new material that has cast light upon his fabulous spirit.

Considerable progress has been made in Keats scholarship since the first volume of H. Buxton Forman's *Complete Works* appeared in 1883. This monumental edition, exceedingly rare and far too costly for the average purchaser, is now almost half a century old.

The *Life* by Colvin and the two editions of the *Letters* by Forman were followed by a wide variety of studies and commentaries, among which those of de Selincourt, Murry, Notcutt, Thorpe, Garrod and Amy Lowell are well known.

This accumulation of original research and fresh data has given ample justification to the project of a new definitive text and thorough annotation of the poet's works.

Dr. Peck's training and experience has made him the inevitable choice for so exacting an editorial task. Distinguished for his biography of Shelley and for his Julian Edition of Shelley's *Works,* he has long been recognized as a leading authority in a field which he has made his special province.

His visits to Keats' haunts in England and Italy, and his American researches at the J. Pierpont Morgan Library, at Cambridge, and at other centers of Keats learning, assure this Lawn Bank Edition the highest measure of thoroughness and exactitude.

The editor has been fortunate in securing a number of new, unpublished poems and letters unavailable in any other collection of Keats' works. The Lawn Bank Edition will include new poems, new letters, corrected readings and scattered writings from diverse sources not included in previous editions of his works.

There will also be a biographical and critical Preface, and Notes by the Editor, including not only his own opinions but the most significant estimates and findings of Keats scholars since 1883.

The edition is limited to five hundred fifty sets for England and America, of which five hundred sets will be offered at seventy five dollars, while fifty sets on Japanese vellum, signed by the editor, will be offered at one hundred fifty dollars the set.

A BOOK OF CATS

Being Twenty Original Drawings of Cats

by

Foujita

Poems in Prose by MICHAEL JOSEPH

A CAT BY FOUJITA IS PERFECT AS A VASE OF THE MING DYNASTY, AS fragile as a Cellini, as suggestive as a *hokku*. The cats in this collection are super-cats—poems from Foujita's subtle brush, drawn with the sinuous strength and dash of a modern painter wise in his art and in the resources of black and white, and an acknowledged master of a highly unique style.

There are twenty cats in this collection—cats of jewelled eyes; smouldering and luminous cats; cats haughty, capricious, cruel, languourous, vain. Each is a source of astonishment, an unforgettable portrait; and each is executed with all the finesse of Foujita's orientally deft touch. The racial heritage, training, and special talent which are so clearly evident in Foujita's art, seem to have been peculiarly sympathetic to sharply etched effects; and the black and white treatment has proved to be the inevitable medium in his hands for so elusive and temperamental a sitter as Sir Tom.

Collectors of prints and curios, and friends of Catdom will compete for these blue-ribbon renderings by one of the most brilliant of contemporary artists, and Michael Joseph's distinguished prose poems enrich the collection with a subtly wrought accompaniment as varied and individual in feeling as the drawings themselves.

The edition is limited to five hundred copies at twenty five dollars the copy. Each copy will be signed by the artist and will contain in addition to the drawings in the book a special run of all the drawings, one of which will be signed by the artist.

ALL THE EXTANT WORKS OF FRANÇOIS RABELAIS

An American Translation, with a Critical Text, Variant Readings, Variorum Notes and One Hundred Twenty Drawings Attributed to Rabelais

by Samuel Putnam

IN THREE VOLUMES

Illustrations by Jean de Bosschère

Special Edition Illustrated by Alexander King

Typography by S. A. JACOBS

THIS IS THE FIRST AMERICAN TRANSLATION OF RABELAIS, AND THE FIRST complete and unexpurgated rendering in the English language—possibly the first in any language outside the French. It is Rabelais done into a racy contemporary idiom, but far closer to the original than the Urquhart-Le Motteux version. The text is a critical one, established in accordance with the latest researches of French scholarship. The Notes—in themselves a feat of translation—were compiled from all the commentators since the seventeenth century.

Mr. Putnam spent a number of years upon his task, working in France, close to his sources. He has coördinated the extensive and, in many cases, radical discoveries made since the beginning of the century by Gallic scholars such as Professor Abel Lefranc and the other members of the *Societé des Ètudes Rabelaisiennes,* the linguistic researches of M. Lazare Sainean, and the critical Lefranc edition, four volumes of which have appeared in France.

Jean de Bosschère, whose fame has become an international tradition, has contributed illustrations in his most fascinating manner. There is also a special edition illustrated by Alexander King, whose drawings are uproarious and truly Rabelaisian. Both editions contain the drawings attributed to Rabelais.

The Bosschère edition is limited to thirteen hundred numbered sets, in three volumes, size ten by thirteen, with sixteen illustrations in color and eight in black and white, at fifty dollars the set. The special King edition has thirty full page illustrations and more than fifty tail pieces, and is limited to two hundred numbered sets at one hundred thirty five dollars the set.

The Second Decade of

THE DROLL STORIES
of
Honoré de Balzac

Newly Translated from the French by
DR. J. LEWIS MAY
Illustrations by Jean de Bosschère

HERE IS AN ITEM WHICH SHOULD POSSESS A WIDE APPEAL, NOT ALONE for bibliophiles, but for all lovers of fine literature.

THE DROLL STORIES, of course, hardly stand in need of an introduction at this late date. They have their audience among the lovers of Balzac, and among those Pantagruellizing souls who love, upon occasion, to seek their pabulum in the deep-bellied speech of Touraine and the French countryside, as exemplified in the pages of the immortal Rabelais.

What we have in the present instance is a world-known and world-loved classic brought to us with all the freshness and novelty of a new creation, thanks to the expert, delicate and fastidious craftsmanship of Dr. May. The translator has caught admirably the spirit of his author—that hilarious, roystering spirit which lived and breathed, even in Balzac's day, amid the cold, moss-grown stones of the abbeys of Touraine. The result of Dr. May's performance is not so much an old masterpiece revivified as it is a masterly and vivid contemporary rendering of once lively but forgotten yesterdays.

The Bosschère illustrations are a feature of the work. These consist of sixteen full page color and eight black and white reproductions. They represent some of the best work of the man who has been said to have created modern illustrative art.

The edition is limited to fifteen hundred copies, at twelve dollars and a half.

MONSIEUR VÉNUS

by

Rachilde

Translated by Madeleine Boyd, with a Preface by Maurice Barrès and an Introduction by Ernest Boyd.
Illustrations by Majeska

Designed by ROBERT S. JOSEPHY

MONSIEUR VÉNUS IS AT ONCE A HUMAN DOCUMENT AND AN EXOTIC work of the imagination. It is as significant historically as it is disturbing to the reader's normal emotional tranquillity. The first of the *Symboliste* novels, by a leading woman writer of France, whose continental reputation has long preceded its American translation, this book shocked even the Parisian reviewers over their chocolate and brioches on the morning of its first appearance. This delicate orchid of literature, this sensuous dream in prose, can now be presented to the English reading public without fear; for the way has been paved for it by a quarter century of literary importations.

MONSIEUR VÉNUS is the story of a marble-hearted virgin whose coldness is equalled only by her subtle perversity, and who succeeds in mercilessly tormenting and victimizing a simple young Parisian workman.

Madeleine Boyd has achieved a memorable work in transmitting the fine shades and elusive values of the original. Ernest Boyd has written the striking Introduction. The Preface by Barrès does full justice to this exquisite analysis of an erotic deformity.

The full pages in color are by Majeska, America's best known woman illustrator, who illustrated Pierre Louÿs' PSYCHE, selected as one of the Fifty Best Books of the Year.

The typography by Robert S. Josephy has captured the intimate essence of the book, and is one of the best specimens of his unusual talent.

Edition limited to twelve hundred fifty copies at twelve dollars and fifty cents the copy. The first thirteen copies, printed on Van Gelder handmade paper, with one original signed drawing, and bound in full leather, will be offered at one hundred twenty five dollars the copy.

ON THE RIVER AMOUR

by

Joseph Delteil

Translated, with an Introduction by Samuel Putnam
Illustrated by Alexeieff

Typography by Robert S. Josephy

This barbarously vivid, hilariously colorful tale by one of the most picturesque of the younger French writers, is as modern as Picasso, as archaic as a Russian song.

The tumultuous prodigality of this novel—considered the best of Delteil's books—is the product of an amazing, hitherto untranslated, earlier Delteil—Delteil the poet, whose impetuous abundance and unruly brilliance once gained him the acclaim of the *surréalistes* of Paris.

ON THE RIVER AMOUR is the story of a savagely beautiful Russian girl, Ludmilla, born on the banks of the Amour, who becomes a leader in the White Army. It opens with the White Army's headlong embarkation for China, at the shore of the Pacific.

Two beardless, fastidious young horsemen of the pursuing Red Army, halt at the wharf to peer through decorative spy-glasses after the retreating Ludmilla. They desert, forge their passports and follow her to the Far East.

The adventures of these naïve and brutal sophisticates enter on a swift course of relentless dissipation, violence and depravity in Shanghai. It is a story of sensualism and treachery, assignations and firing squads, love and death. It is safe to say of this book that nothing like it in kind has ever been written, possibly with the exception of M. Delteil's still untranslated *Cholera* and *Les Cinq Sens*.

The Delteil spirit and manner have been admirably caught by Mr. Putnam, who is the author's own choice of translator. The illustrations by Alexeieff, who needs no introduction to connoisseurs, are a series of bold and congruous black and whites in keeping with the incredible vitality and other-worldly atmosphere of the text.

The edition is limited to 1,250 copies at twelve and a half dollars the copy.

VICTORY EDITION OF

THE WELL OF LONELINESS

by

Radclyffe Hall

In Two Volumes

To write anything at this date about THE WELL OF LONELINESS is to rewrite history. Two continents have argued the "immorality" of Miss Hall's work, and the courts of the land have passed upon it, finding the book neither "immoral" nor "obscene," but a piece of real literature.

This decision marks a victory, not alone for Miss Hall and her publishers, but for the cause of freedom of expression in American literature today. One of the real issues at stake was the question whether there is any subject which, granted the proper treatment, is nevertheless, by its very nature, barred from all discussion in a literature intended, not for juveniles or the feeble-minded, but for adults. To this question, the courts have replied with a resounding No.

Critics, authors, publishers and publicists—as well as that wider public which spent a quarter of a million dollars to read the book—have been most enthusiastic in their congratulations. It has seemed, therefore, only fitting to provide something in the way of a lasting document.

This edition contains a preface by Radclyffe Hall, a complete history of the case by the triumphant attorney, Morris L. Ernst, and the full list of those who came forward in the book's behalf.

The two volumes are printed on handmade Van Gelder paper. The edition is limited to two hundred twenty five sets, of which two hundred one sets are for sale. Each set will contain Miss Hall's photograph, and will be autographed by her.

Note—The regular trade edition of THE WELL OF LONELINESS will continue to retail at the usual price of $5.00 a copy.

THE ROANOKE SERIES OF AMERICANA CLASSICS

Under the Editorial Supervision of
Mark Van Doren

Designed for Covici-Friede by S. A. Jacobs, and Manufactured by the American Book Bindery, Stratford Press, Inc.

WITH THE ROANOKE CLASSICS, THE FIRM OF COVICI-FRIEDE BEGINS A highly significant series of early Americana items. Two books will be published in 1929, and three more in 1930. Thereafter, five books a year are to be brought out.

The books are to be designed and their manufacture supervised by S. A. Jacobs, associated with the American Book Bindery, Stratford Press, as Director of Typography. Each of these volumes will be an example of the finest in the printer's art. The ideal will be to make a perfect book through the employment of modern methods in book manufacture. The text will be set in linotype; the paper will be of an all-rag content and of the best grade procurable; the press-work will be executed on regular book-presses; and the binding, of the finest quality, will be done under ordinary conditions. The point will be proved that modern machinery can produce books that are practically perfect.

The edition of each book will be limited to five hundred copies, and will retail at seven dollars and a half the copy. In addition to the Introduction by Mr. Van Doren, the plan is to have, in each case, a Foreword by some well known authority on early American literature.

These five old American books have been selected for their variety, their intrinsic interest, and their value in shedding light on our civilization at different periods of its growth. They are all purely American in scene and character. The Burr letters recall the classic days when a sophisticated society of beauty and wit held sway in New York, Philadelphia and Washington. The Life of Phips is redolent of colonial complication and adventure. The Captivity of Colonel Smith brings in the frontier life of the mid-eighteenth century. Delano's whaling book depicts the whole of that fascinating world

suggested by the names of New Bedford, Nantucket and Martha's Vineyard. The Life of Boone is an indispensable document for a study of the American imagination. And all five are books of literary as well as historical importance, being interesting in their own right as narrative.

The first five titles to be published in the ROANOKE AMERICANA CLASSICS are the following:

CORRESPONDENCE *of* AARON BURR *and* HIS DAUGHTER THEODOSIA.

No wittier nor warmer pair of Americans has ever existed than Colonel Burr and his daughter Theodosia. The devotion between them, maintained without interruption from her mother's death until her own, was profound and beautiful; while the sprightliness and lack of sentimentality with which they addressed each other was remarkable. Aaron Burr, duellist and conspirator, wit and lady's man, adventurer and statesman, had always a faithful and intelligent worshipper in the precocious girl, who had married Joseph Alston and had moved to South Carolina. Their letters make a running commentary on Burr's spectacular career, and keep alive the memories of two distinguished Americans. *Publication date, October 18th.* *$7.50*

COTTON MATHER'S LIFE *of* SIR WILLIAM PHIPS.

Reprinted from the great seventeenth-century divine's *Magnalia Christi Americana,* this life of a colonial governor is one of the liveliest of all our old tales of adventure. Phips, a doughty and eccentric gentleman, commanded a frigate, quelled a mutiny, gathered treasure from a Spanish wreck, fought in Canada, became governor of New England, put down the Indians, ran through a stormy political career, and was always supremely indifferent to defeat or death. *Publication date, December 6th.* *$7.50*

LEOPOLD SURVAGE
AND THE SPATIAL PROBLEM IN PAINTING
by
Samuel Putnam

With Notes and Essays by M. Survage and Thirty-three Full Page Reproductions of the Artist's Work

Typography by S. A. Jacobs

More than a decade ago Appollinaire called Survage "the glistening bridge (*le pont chatoyant*) between the old painting and that which is to come." Appollinaire, indeed, may be said to have been Survage's discoverer. He was first attracted by the painter's "colored rhythm" for the cinema; and it was under his patronage that Survage had his first one-man show, in the rue de Penthièvre.

Since that day Survage has emerged as a force in modern painting. His work has been exhibited in all the leading art-capitals of Europe; and critics and historians are only beginning to discover the debt Modernism owes him.

Both as a painter and a theorist of the significant "problem of space," Survage occupies a position which may only be compared to that of Ucello in his century—Ucello who died with the words *"Mia cara perspectiva!"* ("My beloved perspective!") on his lips. Survage's art is centered in the revolt against that optical perspective which Ucello had labored to achieve.

His theory is set forth with clarity and concision in Mr. Putnam's essay—written at Survage's urgent desire, to be re-published in French.

Mr. Putnam, one of America's most spirited art chroniclers, enjoys an intimate personal acquaintance with the leaders of Gallic modernity. His *Foreword* to the recent, highly successful Survage exhibition at the Knoedler Galleries in New York attracted considerable controversial comment.

The edition also includes an essay by Survage himself on The Spatial Problem in Painting, an autobiographical sketch and the artist's own notes on the reproductions. This edition is limited to one hundred seventy five copies.

BLAIR'S ATTIC *by Joseph C. Lincoln and Freeman Lincoln*

Forty odd years ago the scene of this story was merely "the old Blair house"—remote, staid, and conventional. It stood on the outskirts of a Cape Cod village. Before it was the road and the scrub pines. Beyond it was the Atlantic Ocean. It was a fitting place for an old clipper ship captain to end his days, and nothing more.

Then things began to happen. They were strange, unaccountable things—things which lifted the old Blair house out of its humdrum niche. For six weird months the white clapboard building was a place of doubt, wonder, and of vague terror. Then, suddenly, and with nothing explained, the house returned to normal.

However, the house was not satisfied. Bill Thornton and Marian Fisher discovered that in the summer of 1927. So did Sam Gregg and Jonas Jones. Iantha Hallett, alone, was not surprised. She had been in the house during the first outburst in 1883, and nothing could surprise her after that.

Jonas determined to work the thing out sensibly in his favorite way, which was "arithmetic fashion."

Who had stepped on Iantha when she fell in the dark at the foot of the back stairway? Why had the little wooden Buddha been taken from the bookcase in the library? Why did Sam Gregg leave his bed to rush, clad only in pajamas, into the blackness of a summer night? How about Harvey Blodgett's clock, and the faint smell of camphor?

Jonas puzzled about those and a number of other things, but he came to only one definite conclusion. He wrote a single word at the top of the sheet of paper on which he did his "figurin'." That word was "attic." "The answer to this little example, if there *is* any answer," said Jonas to himself, "is going to be found somewhere in Blair's attic."

The Lincolns, father and son, have made BLAIR'S ATTIC a story which in plot and situation holds the reader's interest breathlessly until the very end, but they have made it more than that. They have made it a story of real people.

For many years Joseph C. Lincoln has written of Cape Cod and its people. Readers will find the familiar background, the same quiet philosophy, the same dry humor that they have come to expect and demand in his books.

With BLAIR'S ATTIC Freeman Lincoln's name appears for the first time upon the cover of a novel. He has served his apprenticeship in the writing game as a reporter on the *Philadelphia Public Ledger* and as an associate editor of the *Ladies' Home Journal.* In the last three or four years he has contributed a number of short stories to leading magazines.

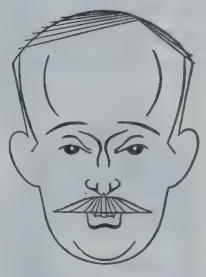
CORONET *by Manuel Komroff*



For some years those whose business it is to spot high literary talent have watched the development of Manuel Komroff with growing and excited interest. With Mr. Komroff's first book, it was obvious that here was a talent of great possibilities, and each succeeding work served to emphasize the growing mastery of his materials. The praise of his last book, JUGGLER'S KISS, was unanimous. *The New York Times, New York Evening Post, New York World, Atlantic Monthly, The New Republic, The New York Herald-Tribune, The Boston Transcript*—all united in a chorus of encomiums. "Sheer genius," "sweep, vigor, real wisdom," "extraordinarily moving novel," "curiously unforgettable."

The theme of this novel may be called aristocracy. It traces a line of nobility from the days of the Renaissance splendor to the present day. It shows the decline of a whole race—the race of Aristocracy. The story is told through the history of a golden Coronet made by a master craftsman in Florence. The coronet passes from generation to generation and from family to family; and in the end it returns to the descendants of its original owners. Its influence upon the lives of its possessors is an important theme of the book.

The entire work is divided into six short books. The first introduces the various themes through the lives of the people in Florence during the Renaissance.

The second book deals with military aristocracy as symbolized by the Empire of Napoleon and its complete collapse in 1812. The main drama of this book takes place during the burning of Moscow and the terrible retreat.

The third book deals with the futile attempt made by some of the old families to restore the power lost by the French Revolution and Napoleon.

Book four shows the effect of aristocracy on the arts and here the drama deals with the aesthetic side of life. Both Chopin and Balzac play minor roles in this book.

Book five brings the reader into the year 1900, the age of ideas and ideals. In this section the intellectuals attempt to depose the nobility of blood and set up an aristocracy of brains.

The last section deals mainly with the aristocracy of wealth. The old families reappear on the battle fields of Europe and in the revolution of Russia (1917). The coronet returns to a descendant of the French lord who first brought it from Florence. The depraved count and his evil coronet are imported to America.

CORONET has somewhat the theme of THE FALL OF ROME; but instead of history it is romance and instead of Rome it is Aristocracy. In form this novel is unique in literature but the emotions (fear, greed, jealousy, love, snobbery, and murder) are as old as the hills. All these and more too are poured into the pages of CORONET.

MONEY FOR LOVE *by Josephine Herbst*

The working of the human heart under the stress of disappointment and defeat, with its gradual triumphant emergence is the central theme of this story whose scene is New York with its background in the middle west.

Miss Herbst has chosen a group of young people whose first belief in love has betrayed them—in a mercantile civilization—to a half-comprehended acceptance of the power of money. Most strongly infected with this idea is Harriet Everist, a young actress, whose existence on the stage has been complicated by her emotional life. She sees a chance for possible happiness if only she has money—and the man who once loved her can give this money if he will.

The extremely moving story which results from this situation involves a handful of characters allied not by similarity of temperament but by identity of fate. In phrases and scenes of the day in the simple speech of everyday, the author has attempted to transcribe a vital section of the life of our time. Her narrative is a touching revelation of character, and a story which steadily mounts to a powerful climax.

Josephine Herbst's first novel achieved a remarkable success and was hailed by critics as the work of a most important new literary figure in America. She has been a contributor to a number of magazines, and a story by her appeared in the second American Caravan.

NOTHING IS SACRED *by Josephine Herbst*

"Miss Herbst has made a significant contribution both to the documentation of American life and to the new tradition of austere detachment in novel-writing."—*New York Times.*

JACK SPRAT *by Isabel Campbell*

Jack Sprat gives mandolin lessons—when he is home. Unfortunately he has a bad habit of walking out the front door, and not showing up for the next several weeks. Meanwhile Mama Jule must take care of her two daughters, and worry along somehow until he returns. Her patience gives way under the strain and she scolds Barbara—scolds Rosemary—scolds Papa. But she has to be careful about scolding Papa, for Papa never argues. He just takes his hat and starts walking toward the door.

With this beginning, the author proceeds to tell the story of these four lives and the effect of Papa's selfishness upon them. It is a simple delightful story depending for its effect on its detail, its light and shade, its loving, leisurely characterization as revealed in small ways.

Mrs. Campbell has contributed to various magazines including HARPER'S BAZAAR, SMART SET, etc. This is her first novel.

ALL ELSE IS FOLLY *by Peregrine Acland*

In September, 1928, we published SQUAD by James B. Wharton. We knew at that time that we had a unique war book and we staked our reputation on it. The press and public amply repaid our belief and SQUAD rapidly established itself as one of the very few outstanding war books.

On the anniversary of the publication of SQUAD we now offer a new war book . . . ALL ELSE IS FOLLY by Peregrine Acland. In its own way we think this is as good and as moving a book. While SQUAD dealt with the enlisted man, ALL ELSE IS FOLLY is the story of an officer—not a staff officer, but a line officer on whose character and courage the morale and lives of many men depended. The war scenes are extraordinary in their vividness and detail.

Mr. Ford Madox Ford, in the concluding paragraph of his preface, says: "And how admirably it is all done . . . one lives it all again, with the fear, and the nausea . . . and the surprised relief to find oneself still alive."

While living through these war scenes the author of this book conceived its outline more than a dozen years ago. A Canadian, he went overseas with the First Canadian Division in 1914. On an autumn morning in 1916 he came bumping back over the cobblestones in an ambulance. He is now in business in New York.

With a preface by Ford Madox Ford.

AN ALIEN FROM HEAVEN *by Nathalia Crane*

Five years ago, Nathalia Crane startled the world with her first volume of poetry published when she was ten. Then came a novel at the age of thirteen, and now at fifteen she has produced a second novel showing not only the facility but the remarkable development of this young prodigy. With the same sweep of imagination which was shown in her lyrics and colorful narrative poems, she has produced a charming story that leaps past all the barriers of reality.

The "plot" opens with the birth of a baby who has wings. Barydon Hospital is thrown into a panic, and a group of scientists gather to decide whether this deformed infant is a throw-back, or a sign from the future. The hero, Manton Marcelon, is on the hospital staff. He is faced with a dilemma: Shall he follow his scientific judgment or the wishes of his sweetheart? In the end the hero yields to the pleas of his beautiful sorceress and they live happily ever after.

RED WILLOWS *by Constance Lindsay Skinner*

In the valley of Staglinkool, in a community left behind by one of the greatest gold rushes in history, Miss Skinner has laid her second novel of life in western Canada.

In this group of unsuccessful gold-seekers is every variety of race and color—the Irishman Finnan McDuff, an Anglican clergyman, a Peruvian, a Spaniard, half-breeds and full breed Indians. They set to work to build a new life in a primitive land, and it is thoroughly a man's world until the men's course threatens what is most vital to the women. The women cross the will of the builders—and a most fascinating and unusual story of the western frontier is the result.

Constance Lindsay Skinner, who was born in an abandoned mining camp in northwestern British Columbia, knows intimately the country and people of whom she writes. When she turned to writing books, after some years of newspaper work, she chose frontier history as her subject and soon gained fame as the author of PIONEERS OF THE OLD SOUTHWEST, and ADVENTURERS IN OREGON.

THE EVERLASTING HARPERS *by Mildred Wasson*

It was an apple that started the romance between Margot and Jerry, whose steamer chairs were side by side on B deck. But contrary to precedents, it was he who offered the forbidden fruit—as an aid to seasickness. Margot found she revived on this diet, and soon her first ocean voyage became just as exciting as she had always dreamed it would be.

Margot and Jerry were "free" souls, and they thought of their steamer friendship as merely a pleasant temporary interlude. They went on a joyous round of sight-seeing in Paris and were in the midst of a happy holiday when suddenly Jerry was called home to Maine by the death of his father. They part hurriedly, with no plans for the future.

Then Jerry discovers he needs Margot permanently. Without her he cannot hold his own against maiden aunts, a widowed mother, an unwanted fiancee and the inherited factory which he must operate. Margot comes to the rescue, and with her help Jerry becomes master of himself and takes his place in the old home town.

Once again Mrs. Wasson writes of Maine and its people. The welcome afforded her two previous novels, THE BIG HOUSE and CHURCHILL STREET, give evidence of the skill with which she portrays the life of her home state.

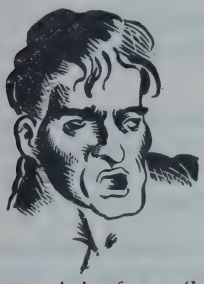
HUNKY *by Thames Williamson*



This is the story of the fierce and beautiful Teena, and the story of Krusack the great friend, but mostly it is the story of Jencic, the big slow man who was a Croat, or a Polack, or perhaps a Hungarian. No one ever knew, he least of all. He came to America as a boy. Somehow he got lost, and when he had grown up he found himself in the midst of the sea which is the City, swamped by its mysteries and hopelessly behind its swift tempo. In the beginning Jencic was only a worker, struggling in the mist of confusion, until by and by a friend rose up on one side of him, and on the other side a girl, and then with blows and sighs and many wonderings he inched beyond the fog and came to see his life as it was meant to be. In the end he was content.

In this novel Mr. Williamson has attained the complete and satisfying whole which his previous novels notably RUN SHEEP RUN and STRIDE OF MAN prophesized. The tale is told with admirable simplicity and directness. Christopher Morley calls it "strong, clear and brilliant."

Lucien Dubois, disappointed in love, applies for service in the Belgian Congo, and his desperate decision carries him into the heart of the Black Continent. But Africa proves more merciful to Lucien than to the majority of its white inhabitants. After five years filled with warfare, intrigue, love, and final disaster, he returns to civilization.

Unlike many adventure writers, Otto Lütken knows the country and the characters which he describes, and his realistic pictures of native life and his rare understanding of native psychology flash out from every page.

PAPER HOUSES *by William Plomer*

Mr. Plomer, a young South African, now resident in Tokyo, has brought together in a volcanic and beautiful book eight stories of modern Japan. The picture of oriental life drawn by Lafcadio Hearn is to him anathema. And he says so. His own interpretation of Japan is neither "romantic" nor "realistic." But the plots and characters he has chosen are at once those that reveal the social tension in the Orient, and with incisive art present images from contemporary Japanese life as clear and simple as the caveman's drawings in the painted caves of France.

THE LIGHT IN THE SKY ✓ *by Herbert Clock and Eric Boetzel*

Here is a fantastic and exotic tale wound about the scientific potentialities of light, in creating cities and worlds and dominating people, in destruction of the enemy, and even perhaps in creating life.

The world the authors build is a cavern under the sea in which a powerful scientist has built a picturesque kingdom, with a temple surrounded by a rainbow; a beautiful princess that is wise and good; and a sleep ray at night that sends everyone to rest. To this kingdom a young man is conveyed from the battlefields of France for three years of adventure.

Novels projected into the future usually employ wearisome devices of hokum, mysterious machinery, etc., but THE LIGHT IN THE SKY employs the simple phenomenon of light easily understood by anyone. The story sweeps along and is told vividly and dramatically.

THE STOLEN MILLIONAIRE ✓ ✓ ✓ *by Seldon Truss*

It is a newspaper reporter, not a detective, who tracks the criminals and helps solve the strange mystery of THE STOLEN MILLIONAIRE. Like many of his profession, his nose for news leads him to follow clues never suspected by the police. At the risk of his life he gets daily scoops for his paper and slowly unravels the plot to its spectacular conclusion.

There are many surprising angles and conflicting motives in this fascinating story. In fact the sleuthing newspaper man himself starts the mystery. Accidentally he drugs the millionaire, Simon du Maresq, and borrows the contents of his wallet. But it takes him weeks to discover who it was that spirited the millionaire away, why he was stolen, and why a band of criminals kidnapped his clergyman brother-in-law in their desperate effort to find him.

Of course every mystery story is said to be different, but undoubtedly this latest tale by the author of THE LIVING ALIBI has some of the most startling novelties of any modern thriller.

DIANA *by Heinrich Mann*

The heroine of DIANA, the beautiful Duchess Violante of Assy, had been inspired to lead a revolt in the kingdom of Dalmatia. At the midnight hour when the conspirators have gathered for action, the plot is discovered and the Duchess is forced to flee to Italy.

Even at this crucial hour, when the fate of her cause hung in the balance, the capricious Duchess could not resist creating a scene by appearing before her followers in her nightgown. There is a gasp. "Suddenly it is falling. . . . It glides down . . . and the Duchess stands smiling fully dressed." Even in exile she refused to be serious; and when her earnest followers and political advisors had completed plans for reinstating her in Dalmatia, she left them high and dry and went off to build a new castle and have some pictures painted. If Aldous Huxley had joined forces with the author of Graustark, they would have given us some such fantastic and amusing tale as DIANA.

Heinrich Mann, brother of Thomas Mann, is a novelist of many moods. Several of his books are deeply psychological, while others, like the present one, are gay, romantic stories for the sophisticated. For many years, he has enjoyed great popularity in Germany and on the Continent.

Translated from the German by Erich Posselt and Emmet Glore.

CABBAGES AND HARLEQUINS ✓ ✓ *by Gene Gauntier*

Min grew up among the cabbages. The harlequins were burlesque and road company troopers. Min met them when—after a three day courtship—she married Lancelot Leroy, star "heavy" of the Julie La Verne Repertoire Company touring Missouri and points south. It was an exciting change for a simple little country girl, and life in the theatre of the nineties proved a thrilling adventure. Min became a buck and wing dancer; then the mother of twins. Lancelot stepped out with his leading lady, and disappeared to parts unknown. Min clung to the theatre, trained her twins as child actors, and saw them develop into Broadway stars of international fame.

This is a story of simple drama and unfailing interest. It gives a picture of the American theatre full of local color and delightfully realistic. Its combination of action and vividly human characters make it a novel of unusual quality and wide appeal.

Gene Gauntier has played "one-night stands" all over the United States, and turned to motion pictures when the industry was in its infancy. She not only played the leading roles, but wrote and directed all her own pictures. In addition to writing hundreds of scenarios, she has written a number of short stories, and has been a critic and columnist for a Kansas City paper.

THE OLD MAN is something new in the world of fiction. To read THE OLD MAN is to chuckle, and chuckling, to understand the strange romance of a great American fortune, and the men who made it for a glamorous chief.
Mr. MacLean was for many years an editor of the Scripps-Howard newspapers. This is his first novel.

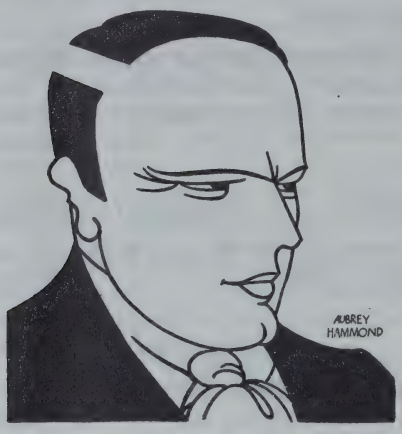
KING SPIDER: A LIFE OF LOUIS XI OF FRANCE

by D. B. Wyndham Lewis



This book by the well known author of FRANÇOIS VILLON is a series of aspects of Louis XI of France ("the universal Spider," as the Burgundian poet Jehan Molinet hatefully calls him) and his companions. It is in no way a chronicle of the reign of this remarkable man, whom the Romantics have turned into a bogey of melodrama, nor is it a detailed analysis of his vast and involved intrigue and the magnificent manner in which he finally pulled France, bleeding and dismembered from the Hundred Years' War, out of the mud and made her once more a great nation. Rather it is an attempt somewhat after the manner of Thackeray's FOUR GEORGES, to summon up, from strictly authentic sources, a series of pictures, and miniatures, as in a Book of Hours, of the man and his background.

Where convenient, contemporary chroniclers have supplied passages of brilliantly jeweled description. The fine historian Commynes, Louis' personal friend, the great musician Ockeghem, the dramatist Greban, the poet Villon, the singular friar Olivier Maillard, and other outstanding figures have their place in these pages, and a selection of a few of the most characteristic and revealing of Louis XI's 2000 letters has been made.

A section has also been devoted to the merry book of Genappe—the CENT NOUVELLES NOUVELLES, that collection of gay Rabelaisian stories told by the Duke of Burgundy and his gentlemen in the presence of the Dauphin Louis in the Chateau of Genappe in Flanders.

The author is one of the most noted and brilliant writers of his generation. His FRANÇOIS VILLON, published in 1928, was one of the outstanding books of the year. Besides his work of historical scholarship and imagination, Mr. Lewis is a gay and delicious chronicler of the modern scene, his weekly column in *The London Mail* being the most quoted and talked of in England.

Illustrated with contemporary portraits and a map of France.

ACCORDING TO THE FLESH:
A BIOGRAPHY OF MARY BAKER EDDY — *by Fleta Campbell Springer*

Mary Baker Eddy

A life of Mary Baker Eddy, the most enigmatic and invisible of characters. This book is of the very essence of drama. In these pages she lives. For Mrs. Springer proposes neither eulogy nor attack, but a penetrating and sympathetic "synthesis of the facts of Mrs. Eddy's life into a sufficiently visible character as to move before you, a human being, according to the flesh."

Of her attitude Mrs. Springer says: "A protestation of impartiality on the part of a biographer is simply a waste of words. There are no impartial books. When I write a biography, I unconsciously reveal myself. My attitude toward life, my opinions, reflections, constitute a manner of autobiography. This simultaneously with the biography of another. I will interpret him according to myself. I will give you the Mrs. Eddy I see. All my attempts at "fairness," at "honesty," will be lost in my particular view. There is nothing to be lost by this admission. In fact, if there is to be an argument, it will be a point disposed of before we begin."

Fleta Campbell Springer has long been hailed as one of the most brilliant short story writers in America. She has contributed to many magazines, and in 1924 she won the first prize in the Harper Short Story Competition. Her stories have also appeared in many anthologies. Although her work has been in great demand she has not been seduced by the clamors of impatient editors but has taken her time and been extremely painstaking in the perfection of her work. It is needless to add that she lives up to her reputation in this biography.

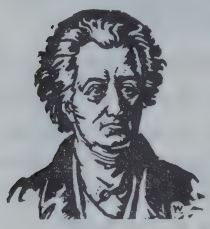
GOETHE *by Jean Marie Carré*



Carré's life of GOETHE is not a scientific monograph nor an exhaustive study. It makes no attempt to bring forward new historical material or to pass judgment on much challenged questions of arts or ethics. It is merely the story of a supreme genius and a fascinating personality told quite simply from year to year—a novel which happens to be true.

It will inevitably challenge comparison with Emil Ludwig's work on the same subject; but as M. Carré points out, it is written with an entirely different purpose and for a different audience. Ludwig's work is one of research and criticism; Carré's is a work of portraiture.

When you have read the book, you have been with Goethe as naturally and informally as if you had lived in his household. You have seen him live and love, struggle with his besetting temptations, yield to them, rise above them. Great figures drift through the pages beside him: Napoleon, Schiller, Mme. de Stael. But it is Goethe the boy, Goethe the man, and Goethe the idol of all Germany who stands out from the pages; no legendary Olympian, but an emotional, brilliant, strange, and yet lovable human being.

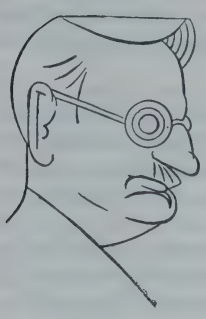
OUR SINGING STRENGTH:

AN OUTLINE OF AMERICAN POETRY (1620-1930)

by Alfred Kreymborg



For the past two years Alfred Kreymborg has been steadily engaged in writing the first story of American poetry ever undertaken, and his book, OUR SINGING STRENGTH, is a complete outline of our poetry from the days of the Pilgrims to the present time. In addition to being a racy study of American poets, it is a survey of the development of the American people. Mr. Kreymborg's story is a human document which ranges the whole length and breadth of his native land, and his close association with poets fits him for this particular adventure. The book covers three centuries of our history and of our poetry, beginning with the Colonial poets, the Revolutionary poets, Bryant, Poe, the New England group, and Walt Whitman. Whitman is the high middle ground of this story, and the second half traces the development of American poetry from his time to the present. The chapters on the National Renaissance which came to birth just before the World War are a fascinating study of the many men and women who took part in our rebirth. The final chapters are an intimate analysis of the youngest generation. Mr. Kreymborg's catholicity is so broad that he has even discussed the work of poets not yet known to the general public.

The story of American poetry is one of the most romantic, realistic, and far reaching in the history of the race, and the author has treated it from the point of view of a human poet in love with his fellows. The conclusion is profoundly optimistic at a time when we need profound optimism more than any other human factor. OUR SINGING STRENGTH is certain of a wide appeal among general readers, poets and critics, educational institutions and libraries.

THE LOST YEAR *by Margaret McGovern*

This extraordinary book, like Humbert Wolfe's "Requiem," reflects in nearly 70 poems the varying aspects of a single theme. The title section is concerned with a Reformatory; the sections "After" and "Stained Glass" are the final distillations of that experience. What Miss McGovern has written is profoundly beautiful and wise. She has invaded the field of no one, belongs to no school, and excepting what is traditionally heritable for all poets, she remains an individualist and very much alone.

In his introduction to THE LOST YEAR Rollo Walter Brown has asked how it happens "that a young woman who never went beyond the eighth grade in the public schools, and who earns her bread by carrying trays of food to others, by polishing silver, and by scouring tables and floors, should write not only with power but with beauty about life's great ironies, about the comic aspects of the earthly scene, about Petrarch's Laura, about September in Provence?" He suggests that it is because in a life of adversity and hardship she has never surrendered the integrity of her own spirit nor slackened her efforts toward perfect mastery of the medium in which she early chose to express herself. Because she had to write, she wrote. Perhaps this is why Miss McGovern's poetry is indelible with the qualities of greatness. Perhaps this is why she has written in a new way, and by a new approach, of "sorrow's old nobility." Perhaps, indeed, this is why she is a poet.

ON THE MARGINS OF OLD BOOKS *by Jules Lemaitre*

Here are dreams of the past, inspired by books of the past—the ILIAD, the ODYSSEY, the ZEND-AVESTA, the GOSPELS, MADAME DE SEVIGNÉ, and so on down to the Proclamations of General Bonaparte. Here are hundreds of characters first met in general reading revivified with the erudition of a powerful historian endowed moreover with charm, fantasy, and sparkle.

The GOSPEL margins are so good that they are really beautiful. Perhaps the most appealing is the story of the Virgin Mary who chased away the little helpful angels because she wished the child Jesus to know discomfort and tears and wanted herself to do the menial tasks of every other mother. And the fate of the Three Kings who went home to put into practice the new doctrine they had learned at the feet of the child born in the manger.

Those from the GOLDEN LEGEND are delightful too; of the tardy little eleven-thousandth Virgin; of the late justice done to the good Saint Martha; and the troubles of the Seven Sleepers who would better have stayed asleep!

RED STAR IN SAMARKAND *by Anna Louise Strong*

Here is a story of the heart of Asia in which the romance that was Tamerlane, and the glory that was Alexander stand aside for the sheer adventure of modern life in ancient Samarkand and in Tashkent. Geography is really the hero of the plot; things happen in Central Asia because all the roads old and new lead that way. Miss Strong misses nothing: uproarious tales of modern ideas not quite digested in the veiled harems of the East; the lustre of the old tiles in palace and mosque; the remnants of imperial conquest by the Russian Czars; the brooding ever present possibilities of Russian-British clash in Asia. She stars her account with little stories, picked up here and there, old fables and modern anecdotes. She met hundreds of people—young girls, old priests, rogues and politicians, dreamers, and American tourists. She sees the country with her own penetrating gaze, and with the eyes of many another fellow traveller.

The fertile cotton lands and vineyards of Central Asia are background for a new sort of Arabian Nights, a new sort of news from far places. Journalism like Anna Louise Strong's is current history of the liveliest sort.

PARIS IS A WOMAN'S TOWN

by Helen Josephy and Mary Margaret McBride

Paris is every woman's dream city, but once she gets there, the average woman on her first trip is abashed and even frightened by the unfamiliar language and scenes about her. In this book the authors have made an effort to tell the woman going to Paris the best and most convenient way to find a place to live, to shop for clothes and gifts, to have a good time, and even to increase her store of knowledge if she be so disposed in such a gay city. Here you will also learn where the leading movie actresses and stage favorites shop and why; where society wines and dines; how to get a job if you go there to work; and last but not least, how to enjoy Paris night life if you find yourself there alone and unescorted.

Both Miss Josephy and Miss McBride are well-known newspaper women, and have been feature writers for newspapers and magazines both here and abroad.

COUNSELLOR MANNERS:
HIS LAST LEGACY TO HIS SON *by Josiah Dare*

Written in the quaint English of the early seventeenth century, in epigrammatic style, this last legacy of a wealthy nobleman to his son smacks more of witty discourse than of weighty admonitions, and is certain to arouse the interest of the lover of the old as well as of the new. This unusual journal was found in a collection of old books.

Counsellor Manners, discovering death at hand, calls to his bedside his only son and entreats him thus: "My good son thou art to receive by my death Wealth, and by my counsel Wisdom; and I would thou wert as willing to imprint the one on thy Heart, as thou wilt be ready to bear the other in thy Purse." With a refreshing frankness and much hearty humor the old gentleman discusses a wide range of subjects pertaining to morals and manners, but never in a pedantic fashion.

MEDICAL INFORMATION IN SICKNESS AND HEALTH

by Philip Skrainka, M.D., F.A.M.A.

Formerly Editor of "Medicine and Surgery," etc.

With a Foreword by W. A. Newman Dorland, A.M., M.D., F.A.C.S.

Head of the Department of Obstetrics in the Post Graduate Medical School of Chicago.

This is a comprehensive, authoritative and complete family medical book. Unlike most such volumes, this carries the endorsement of physicians, for there is no encouragement to play free and easy with "home treatment" although every conceivable aid is given to make a physician's calls less frequent.

The book gives first aid information for emergencies, such as accidents, poisoning, etc. Preventive medicine and the social aspects of medicine are simply and interestingly related. The section on common colds and influenza ought to be worth the price of the book to the average careless family; and there are special departments devoted to the care of expectant mothers and the child.

The language is not technical; the book is free from the "terror" so prevalent in family doctor books. There is emphasis on "the care of the mind"—the mental attitude of the sick person towards his ailment; and there is encouragement to the patient to help himself where the cure rests not alone with the physician.

This is a book about health as well as sickness. It is modern and up-to-date, embodying the most recent discoveries of medical science. It carries a common-sense note of good cheer and rational hope, which, together with its fund of detailed information, should make it invaluable to every household. $7.50 *net*

WE BELIEVE IN IMMORTALITY *Edited by Dr. Sidney Strong*

After wars have ceased, after the air has been conquered, the old question—"if a man die, shall he live again?"—will still be of universal interest. This book contains replies to that question from eighty or ninety leaders of American life, such as Bishop Manning, Dr. Fosdick, Dr. Cadman, Rabbi Wise, Mary E. Woolley, and others equally prominent. The replies are personal, varied and brief. Here is a book to be read by the clergy, by teachers and social workers—by all who consider the perplexing question of personal immortality in time of bereavement. $1.50 *net*

FAIRY TALES *by Hans Christian Andersen*

WITH PICTURES BY ELIZABETH MACKINSTRY

Introduction by Annie Carroll Moore

Old Mr. Andersen with the big umbrella has for half a century been favorite story teller to the children of the world. Hundreds of editions in many languages stand witness to the genius and freshness of the great Danish master of simple hearts; but no edition has ever been more beautiful than this one. The Little Tin Soldier, Little Snow-drop and the Princess who *was* a Princess live in Miss Mackinstry's drawings, as they do in the stories themselves. The whole book is a garden of the best drawings she has ever made.

COWARD-MCCANN TAKE PARTICULAR PLEASURE IN ANNOUNCING THE MACKINSTRY ANDERSEN AS THEIR CONTRIBUTION TO THE WORLD-WIDE CELEBRATION OF THE HUNDREDTH ANNIVERSARY OF HANS CHRISTIAN ANDERSEN'S BIRTHDAY, WHICH IS TO OCCUR ON APRIL 2, 1930.

UNCLE TOM'S CABIN *by Harriet Beecher Stowe*

ILLUSTRATED BY JAMES V. DAUGHERTY

America is looking freshly and closely at the whole Civil War Period. JOHN BROWN'S BODY, MEET GENERAL GRANT, LIFE AND LABOR IN OLD SOUTH, and Evelyn Scott's THE WAVE have, we believe, made an adult public that will want to re-examine this great literary and social document of the 1850's—UNCLE TOM'S CABIN.

It is still a magnificent yarn. It is part of our history. The Daugherty edition preserves all of the essential original book, and adds its own beautiful and graphic vision of the old South before the War. Here is a book to recommend not only to boys and girls who are studying their country's history in grade or high school but to their parents as well, and to book collectors.

With more than 60 illustrations of American life in the South before the Civil War by James V. Daugherty. Edited by Helen Black.

DOWN IN THE GRASS *by Harold Kellock*

With a sure sense of the critical child audience always in mind, Mr. Kellock keeps Bobbie's adventures constantly in the foreground, but he has woven into the story the dramatic and astonishing lives of the everyday insect world. He has revealed Natural History in insects that have as much personality and character as Brer Rabbit. Kurt Wiese's many and delightful illustrations portray equally well that happy combination of the scientist and the man of humor.

You never saw anybody or anything like THE FUNNY THING before, nor had we, but we believe in the creature now. Millions of boys and girls will laugh at THE FUNNY THING.

Here is an Æsop of the pen, with the easy picture after picture way of telling a story, so popular in the newspaper funnies. With as few captions as possible, the adventures of the Vain Pussy Cat, and the Pig, and the Crab; the rough-house of Daddy Bear and the Sly Fox; and the shiftless tricks of the Lazy Little Crow and Mr. Dr. Owl, are related. The Louis Moe picture tales and fairy stories have been the delight of Scandinavian boys and girls for years, and have already been translated into several languages. Here is another Dane with the universality of Andersen.

KAROO THE KANGAROO

by Kurt Wiese

Fourteen years ago a young German traveller in China was made a prisoner when Japanese troops took over Tsingtau. With sixty other men he was turned over to the British Commander in Hongkong. The prisoners were shipped to Australia and interned in a camp in the remote Australian Bush.

And lo, out of this bitter piece of war experience has come a tender and delightful picture book. Kurt Wiese was that traveller. And in that far away Australian camp, someone gave him a baby kangaroo.

Karoo, the solemn, sweet story of a little kangaroo's whole life, is as real as any boy's or girl's. And not only Karoo, but his mother and his cousins and his aunts, and dingos and kivis, and kooks are in the book.

Karoo, we believe to be a permanent contribution to children's literature. A 1929 Christmas Stocking Book! Illustrated with 15 lithographed crayon drawings by the author.

THE ROMANCE OF ANTAR *by Eunice Tietjens*

THE ROMANCE OF ANTAR is the greatest, and even today, the most popular of the romances of ancient Arabia. When the Arabs gather about their camp-fires it is not the stories of "The Thousand and One Nights" to which they listen with such rapt attention but the epic story of Antar.

Antar himself is a folk-hero as great as any of the immortal heroes of the "Iliad." There is nothing in literature more dramatic or more touching than the magnificent death of the hero in defence of his beloved.

Eunice Tietjens has retold the beautiful and ancient story in limpid English prose for all who are young in spirit.

THE BEGINNINGS OF CHEMISTRY:

A STORY OF SCIENCE FOR YOUNG PEOPLE *by Harriett Blaine Beale*

In a clear, simple manner of unusual charm and imagination, the author has presented a book which will not only arouse a child's interest in science but prepare him for the text books which he must study at a later date in school. Children are too often bewildered by the terminology of even the most elementary books on the subject of chemistry. Therefore before they begin the formal school work, they should become familiar with the words they will encounter and with the general ideas which lie behind the words. This will enable them to approach the actual study of chemistry with a real interest and a clearer comprehension. To have a new science and at the same time a new language is only a little less hard for a child than for a grown person. Mrs. Beale makes both science and the language of science understandable and fascinating for the beginner. Although primarily a children's book it should make delightful reading for any adult interested in knowing the fundamentals of chemistry.

Mrs. Beale, the daughter of the American statesman, James G. Blaine, has written and edited many books and magazine articles. Her STORIES FROM THE OLD TESTAMENT, published some twenty years ago, is still in demand and is one of the best treatments of Biblical stories ever published.

HOW YOU BEGAN *by Annabel Williams-Ellis*

Preface by J. B. S. Haldane.

In these days most parents and teachers know that biology ought to be taught to young children, but they receive little help from the ordinary text books. Mrs. Williams-Ellis, the well known novelist and sometime literary editor of *The Spectator,* has hit upon the brilliant plan of telling side by side the stories of animal evolution and of embryology. As J. B. S. Haldane says, "this book has made me very angry with the remainder of the human race, including myself, who did not write it. It is the only book of its kind."

IF YOU WANT TO FLY *by Alexander Klemin*

Professor of Aeronautics, Daniel Guggenheim School of Aeronautics,
New York University

The Boy's Book of Aviation

Here at last is a book for boys about flying by a great authority,—a brilliant engineer who is known throughout the world for his work in aerodynamics. It is the story of Peter Jones who wants to know how to fly and who has the good fortune to have an uncle a veteran of the air service. This uncle comes to Peter's home as an aerial operator and Peter becomes the mechanic of the business. Within the story Peter learns in the most practical fashion the science of flight, the construction of the airplane and the mysteries of the aircraft engine. This simple but astonishingly informative narrative gives the very information that anyone interested in flying wants to know.

"The preparation of a treatise on aeronautical engineering and the theory of flight, together with an understandable work on how to fly has been attempted and accomplished in a highly technical manner by many engineers. To put it in form to make it intelligible to a child and, at the same time, to make it interesting is marvelous in my estimation, and this I think you (Prof. Klemin) have accomplished. I firmly believe your book will be of great interest to all of the coming generation."—*F. Trubee Davison, Assistant Secretary of War.*

"Every student of aeronautics, before learning to pilot an airplane should read IF YOU WANT TO FLY."—*Lieut. Lester J. Maitland, First non-stop flyer from San Francisco to Hawaii.* $2.50 *net*

ON "WINGS OF SCIENCE"—WITH BYRD:
A SUPPLEMENTARY READER OF POLAR GEOGRAPHY

by Joseph Edmund Woodman

Professor of Geology and Lecturer on Aeronautical Engineering,
New York University

(*Based upon Commander Byrd's Antarctic Expedition.*)

When the idea of a Supplementary Reader of Polar Geography for the school boys and girls of America, based upon his Arctic and Antarctic Expeditions, was presented to Commander Byrd for consideration, he cordially endorsed the plan. Furthermore, with the generous co-operation of the *New York Times,* he placed at the disposal of the author much of the material in the Reader—text and illustration—dealing with his remarkable achievements.

With this new and authentic material Professor Woodman has woven into his word tapestry a landscape of Polar Exploration; so that the Reader may be said to lay the foundation for a complete understanding of Polar Geography as we know it today, from the work of the earliest sailors in their flimsy craft to the elaborate and highly scientific Antarctic Expedition of Commander Byrd. $2.00 *net*

WILLIAM LYON PHELPS ON A PRIVATE LIBRARY ALL YOUR OWN

A borrowed book is like a guest in the house; it must be treated with punctiliousness, with a certain considerate formality. You must see that it sustains no damage; it must not suffer while under your roof. You cannot leave it carelessly, you cannot mark it, you cannot turn down the pages, you cannot use it familiarly. And then, some day, although this is seldom done, you really ought to return it.

But your own books belong to you; you treat them with that affectionate intimacy that annihilates formality. Books are for use, not for show; you should own no book that you are afraid to mark up, or afraid to place on the table, wide open and face down. A good reason for marking favorite passages in books is that this practice enables you to remember more easily the significant sayings, to refer to them quickly, and then in later years it is like visiting a forest where you once blazed a trail.

Every one should begin collecting a private library in youth; the instinct of private property, which is fundamental in human beings, can here be cultivated with every advantage and no evils. One should have one's own bookshelves, which should not have doors, glass windows, or keys; they should be free and accessible to the hand as well as to the eye. The best of mural decorations is books; they are more varied in color and appearance than any wall-paper, they are more attractive in design, and they have the prime advantage of being separate personalities, so that if you sit alone in the room in the firelight, you are surrounded with intimate friends. The knowledge that they are there, in plain view, is both stimulating and refreshing. You do not have to read them all. Most of my indoor life is spent in a room containing six thousand books and I have a stock answer to the invariable question that comes from strangers. "Have you read all of these books?" "Some of them twice."

There are of course, no friends like living, breathing, corporeal men and women; my devotion to reading never made me a recluse. How could it? Books are of the people, by the people, for the people. Literature is the immortal part of history; it is the best and most enduring part of personality. But book friends have this advantage over living friends; you can enjoy the most truly aristocratic society in the world and whenever you want it. The great dead are beyond our physical reach and the great living are usually almost as inaccessible; as for our personal friends and acquaintances, you cannot always see them. Perchance they are asleep, or away on a journey. But in a private library, you can at any moment converse with Socrates, or Shakespeare or Carlyle or Dumas or Dickens or Shaw or Barrie or Galsworthy. And there is no doubt that in these books you see these men at their best. They wrote for YOU. They "laid themselves out," they did their ultimate best to entertain you, to make a favorable impression. You are as necessary to them as an audience is to an actor; only instead of seeing them masked, you look into their inmost heart of hearts. The "real Charles Dickens" is in his novels, not in his dressing room.

Every one should have a few reference books, carefully selected and within reach. I have a few that I can lay my hands on without leaving my chair; this is not because I am lazy, but because I am busy.

Three qualities are well to bear in mind when buying books. In getting any book, get the complete edition of that book; not a clipped, or condensed, or improved or paraphrased version. Second, always get books in black, clear, readable type. When you are young, you don't mind; youth has the eyes of eagles. But later, you refuse to submit to the effort—often amounting to pain—involved in reading small type, and lines set too close together. Third, get volumes that are light in weight. It is almost always possible to secure this inestimable blessing in standard authors. Some books are so heavy that to read them is primarily a gymnastic rather than a mental exercise; and if you travel and wish to carry them in your bag or trunk, they are an intolerable burden. Refuse to submit to this. There was a time when I could tell merely by "hefting" it, whether a book had been printed in England or in America; but American publishers have grown in grace and today many American books are easy to hold.

Remember that for the price of one ticket to an ephemeral entertainment, you can secure a book that will give strength and leisure to your mind all your life. Thus I close by saying two words to boys and girls, men and women: BUY BOOKS.

Glenna – Two orphaned girls, the irresistible, cheerful little Glenna, and her beautiful elder sister Cordeva, a tiny wistful lonely terrier and two brothers form the basis for a book of that rare joyous type wherein the readers feel an intense bond of sympathy with the characters and actually live thru the story with them. Glenna and her friends will cling to your memory long after the story is ended.

Rosemary – Rosemary Willis is twelve years old, the eldest of three sisters. She is charming, quick and radiant, with a snappy temper. Sarah is two years younger. Her unruly ideas lead her into numerous troubles before she changes her mind. Shirley is the baby and pet. There are others who help complicate as well as untangle troubles.

Rainbow Hill – RAINBOW HILL is a companion volume to ROSEMARY, continuing a new series of experiences, for the charming little girls, Rosemary, Sarah and Shirley. They are sent to live for the summer in an old country home known as Rainbow Hill. Here is mingled the work, play and self sacrifice that develops the family character.

Rosemary and the Princess – Complications enter the Willis household when Kathleen Stuart, a delicate, pampered young cousin from Chicago, comes to spend the winter. She is called the "Princess" on account of her beautiful clothes and sophisticated ways. Rosemary, Sarah and Shirley each reacts in her own way, and the result is a lively time for the Willises.

The Berry Patch – THE Berry family home, with the Berry children scurrying around in it, looked well enough like a wild garden to be called the "Berry-patch." The clash of personal wants, and pride in school and home show how unhappy dispositions can become lovable characters and attain admirable success.

Next Door Neighbors – NEXT DOOR NEIGHBORS may not always be as agreeable as they might be, but very likely more will be imagined than ever comes to pass. Adventure and fun ran a race to see which could excite in these young folks the most laughs and thrills.

FICTION

EARLY CANDLELIGHT, *by Maud Hart Lovelace.*

Mrs. Lovelace, whose first book *The Black Angels*, was widely successful, has gone back almost a hundred years into the life of Minnesota for the background of her new novel. The charming and dramatic romance of Dee Dugay, daughter of voyageurs, and Jasper Page, wealthy and powerful fur trader, is her central theme, but of equal interest is the author's colorful picture of the old forts and trading posts, the Indians, the swashbuckling jubilant voyageurs, and the little settlement of aristocrats maintaining hardily a gay social life in the wilderness.

HORSES IN THE SKY, *by Larry Barretto, author of "Walls of Glass," "Old Enchantment,"* etc.

It is a logical thing that the author of *A Conqueror Passes*, the first and one of the ablest American novels about the returned soldier, should now turn his attention to a novel about the War. *Horses in the Sky* is a forceful and romantic story of American soldiers in France: a story of what the War did to four young Americans—Jerry Tower, who enlisted in the French Ambulance Corps in a wave of gallantry, Hitchcock, who saw the international struggle as a rung in the ladder of his career as a realtor, Big Holmburg, whose quaking fears won for him two envied decorations, and reckless Babe, boyishly scornful of military discipline. Here is a picture of Young America growing up in the midst of a cataclysm; to the telling of it Mr. Barretto brings a deeper sympathy, a surer insight, than he has displayed in the best of his previous work.

ALRAUNE, *by Hanns Heinz Ewers. Illustrated by Mahlon Blaine.*

A companion book to *The Sorcerer's Apprentice*, this is by many regarded as Ewers' best book. In this story of a woman artificially generated, who exerts a poisonous and unearthly influence upon all who surround her, are to be found the same macabre qualities which have set *The Sorcerer's Apprentice* apart from the novels of the present day.

End papers and numerous full page drawings and decorations by Mahlon Blaine.

First edition limited to 3000 *copies.* 8*vo.* 335 *pages.* $5.00

THE WAKING BIRD, *by Barbara Goolden.*

It is with very real pride that the publishers introduce to American readers a novelist who, they firmly believe, will immediately win wide recognition. In *The Waking Bird*, Miss Goolden tells with tenderness and delicacy a story of first love viewed from an unconventional angle, for it is the story of two young people whose little bubble of romance becomes the plaything of the cynicism and recklessness of their elders. Drusilla and Lou, blundering into ecstasy, abashed at the discovery of one another, and finally vanquished by the weaknesses of their elders, are the central characters in a book of rare charm and poignancy.

12*mo.* 320 *pages.* $2.50

NERINDA, *by Norman Douglas, author of "South Wind," "In the Beginning,"* etc.

Although *Nerinda* was first published in 1901, it was issued pseudonymously, and it is only within the past few months that this record of the disintegration of a personality has come to be known as the work of Norman Douglas. Written at Pompeii thirty years ago it was, says the author, "to be my first, and last, excursion into the domain of fiction. I took time over the business and confess that the composition gave me an infinity of trouble. I confess, likewise, that I was pleased with the result, vastly pleased."

A limited edition of 450 copies of this book was lately published in Italy and is now exhausted. The present volume is the only available edition of an hitherto unknown specimen of Mr. Douglas's work, which will be all the more welcome to admirers because of the chapter of autobiography which constitutes its Afterword.

PECCADILLOES, *by Faraday Keene.*

Faraday Keene's stories, which have been appearing in *Vanity Fair* during the past two years, have attracted much attention for their sophistication and suavity. Here are the best of her stories to date—a series of pictures of modern life viewed with a keen and not unmalicious eye and pointed with irony.

This first fully illustrated edition of Smollett's masterpiece will be printed in Baskerville type on all rag water-marked paper.

CASANOVA: HIS KNOWN AND UNKNOWN LIFE, *by S. Guy Endore.*

There has never been a biography of Casanova. The memoirs have been unavailable to all but a few and cover only a portion of the career of this extraordinary man who fluttered the dove-cotes of Europe, swaggered through courts and, by his own account, tampered with the finances of one great nation, and yet whose very existence was doubted a few years after his death. Mr. Endore has written a full-length biography of him, emphasizing the picturesque qualities in Casanova's career and attempting to separate the truth from falsehood in Casanova's own account of himself. Mr. Endore's book carries his hero to the end of his life at Dux and is based upon the latest available sources.

THE NEW EDUCATION IN THE SOVIET REPUBLIC, *by Albert P. Pinkevitch. Translated from the Russian by Nucia Perlmutter. Edited by Dr. George S. Counts.*

Dr. Pinkevitch is president of the Second State University of Moscow and is a member of the Communist Party. In this book he outlines for us the theoretical principles, pedagogical, psychological, biological and social, upon which the Soviet system of education is based, and then describes the organization and methods by which its objectives are obtained. The third section of the book deals with the vocational and adult education. As the first detailed discussion of education under the Soviet government this book should be of especial interest to all students of contemporary education. 8vo. $4.00

THE NEW EDUCATION IN THE GERMAN REPUBLIC, *by Thomas Alexander and Beryl Parker.*

A detailed survey of educational theory and practice in contemporary Germany. Part I, which is entitled "Phenomena of the School Reform," deals generally with the Youth Movement which has been so significant a development in post-war Germany, and describes in detail the various private schools and educational experiments outside the public school system. Part II discusses the National School System, contrasting the educational structure which existed before the war with the system that has been established since the revolution. Dr. Alexander is a Professor of Education and Associate in the International Institute, Teachers College, Columbia University, and Miss Parker is connected with the School Board of the City of Norfolk, Va. 8vo. $4.00

THE NEW EDUCATION IN AUSTRIA, *by Robert Dottrens. Edited by Dr. Paul L. Dengler.*

Perhaps in no country has a more sweeping reform in education ever been made. A great monarchy was suddenly changed to a radical republic. Its population was reduced from 51,000,000 to 6,000,000, one-third of them living in the city of Vienna, and all impoverished. With every standard changed, Austria was enabled, even compelled, to rebuild its school system on broad and utterly new lines. Thus has been brought forth a national experiment which is challenging the attention of educators throughout the world and which by the road of trial and error is moving toward new goals. M. Dottrens who is a member of the Rousseau Institute, visited Austria and made an objective and unprejudiced study which was published originally in France. 8vo. $3.00

THE TROPHIES, with other Sonnets, *by José Maria de Heredia. Translated from the French by John Hervey and John Myers O'Hara.*

No poet has ever achieved a more certain fame through the publication of a single volume than Heredia, whose *Trophies* published thirty-six years ago, won for its author immediate acclaim as one of the greatest of French poets. Messrs. Hervey and O'Hara have spent many years rendering these poems into English. Their translation is the first English version of the complete text of *The Trophies.*

The first of a group of books which will cover, one by one, the fundamental fields of knowledge. Addressed to the intelligent layman with no professional knowledge of the subject, this book tells the story of the evolution of chemistry from the distant time when man was aware only of the magic of fire to the present day when many of the most abstruse secrets of nature have been penetrated. The author is a well-known writer on chemistry and allied subjects: his previous publications include *Eminent Chemists of Our Time, Vitamines, Glands in Health and Disease, Romance of the Atom,* etc.

THE HOUSE THAT RUNS ITSELF, by *Gladys Denny Shultz and Beulah Schenk.*

Can the average house-wife really have a house that runs itself—a house that will leave her free to spend her time with her children and to take up outside duties formerly excluded from her program by the spectre of daily drudgery? Gladys Denny Shultz and Beulah Schenk say that she can, and in this book prove their assertion with concrete examples of the results of actual experiments in scientific home management. The authors have drawn their material from their own experience and that of others, and the house-wife will find it easy to adapt to her own particular situation many of the suggestions which have resulted from this varied experience.

MEDALS OF HONOR, *by James Hopper.*

The rarest of war decorations is the Congressional Medal of Honor, awarded to the officer or enlisted man who shall, "in action involving actual conflict with an enemy distinguish himself conspicuously by gallantry and intrepidity *at the risk of his life and beyond the call of duty.*" Ninety were awarded this decoration during the World War and of these Mr. Hopper has selected nine whose stories seemed to him, because of the picturesque character and the quality of bravery they exhibited, worthy of perpetuation.

Here they are—tales of almost unimaginable human endurance and daring, told with the drive which made Mr. Hopper's football stories famous in their day. Men who, single-handed, or with one or two companions, performed incredible exploits, are shown here vividly but without exaggeration. The book is an addition to war literature of extraordinary interest, the more valuable in that the author has confined himself to attested facts.

POETRY AND MATHEMATICS, *by Scott Buchanan.*

Just what are the influences of science on life? Among these are the changes that are at present taking place in literature—a delayed reversal of the influence of literature on science in the past—and the corresponding revolution in our whole present manner of thinking. Here is a study of the principles which lie behind this revolution, stated in terms of poetry and mathematics as being the purest forms of literature and science. Dr. Buchanan offers a statement of the basic properties of poetry and mathematics, considering them separately and in combination. More than this, he tenders a philosophy of mathematics, a theory of literary criticism.

As Eddington, Whitehead and others have discussed pure mathematics in relation to modern life, so Dr. Buchanan carries the discussion into the no less vital field of literature.

PIANO METHODS

DOROTHY GAYNOR BLAKE

A First How-Do-You-Do to Staff and Keyboard

For Piano Beginners. Price, 60 cents.

There are always new ways of presenting old material, as each child has a fresh outlook; and the author of this delightful work has found an appealing dress, both musical and artistic, in which to set forth the rudiments of piano study. To drive home in an amusing manner old and very necessary bits of information has been her aim, so admirably realized; and the animated notes which form the illustrations to each piece are alone reason sufficient for possessing the book.

HELEN L. CRAMM **What to Do First at the Piano**

Price, 75 cents.

Without doubt these are the most tuneful first piano lessons, as well as the most useful and practical in modern methods, ever offered to the teaching fraternity. One thing at a time is the rule for children; and so the book trains first the Ear, then the Hand, then the Eye—to hear, play and read the notes. The plentiful illustrations of child life are of generous size and outline, so that the child may color them with crayon. A Keyboard Chart accompanies each book, printed in two colors on most durable parchment paper, and showing Middle C as a dependable Traffic Cop.

HELEN L. CRAMM **What to Do Second at the Piano**

Price, 75 cents.

In this new book, a sequel to *What to do first at the Piano,* the author conducts the child still further along the path to good piano-

playing; which she pleasantly calls "The Singing Road." Miss Cramm has the rare faculty in printed instructions, whimsical but instructive verse, and progressive work on the keyboard of giving to the piano work a feeling of adventure, and even of romance, as a child understands it. Her artist collaborator, Clara Atwood Fitts, provides illustrations which make the pages alive with happy and childlike fancy.

T. P. GIDDINGS AND WILMA A. GILMAN

Giddings' Public School Class Method for the Piano

Teacher's Manual, $1.00

Public School Piano Class Reader Nos. 1 and 2, each, 75 cents
Giddings' Piano Class key-boards (paper) per doz., 50 cents
Each, 5 cents

Education as carried on in classes is not only desirable but possible in teaching instrumental music in the schools, paralleling the method long since adopted in respect to vocal music. The author of this manual is no experimenter in this field; he has proved the success of the methods devised and practised by himself and herein fully explained.

A unique and practical method of teaching the piano to classes in schools founded upon that old pedagogic maxim: *A child does best what he likes to do* and the surest way of obtaining results in any field is to *Learn to do by Doing.*

CLARENCE G. HAMILTON

The First Two Years of Piano Technic

As presented in The Music Students Piano Course.

Price, $1.25.

Teachers of The Music Students Piano Course will find this book especially useful in preparing pupils for the second or third grade to continue the regular work of the Course. It also solves the problem of how to give the beginner a firm foundation in technic, which is accomplished in a series of seventy-two short lessons, one for each school week of the two years.

RACHEL CRAWFORD HAZELTINE

Tunes for Toddlers Taught with Scissors

Piano Instruction for Little Tots. Price, 75 cents.

This book embodies an entirely original and novel device as applied to piano teaching. The drawings are cleverly conceived and skillfully executed and illustrative of little stories in the text. When the drawings are cut out by the child and the puzzle parts fitted, they make together a complete book of exercises.

STELLA MORSE LIVSEY

Pleasant Paths to Piano Playing

Price, $1.00.

An attractive cover opens to a volume, no less attractive, of little pieces, two and four hands, which have a fascinating quality the while they lead the child unconsciously along the road to good piano playing. Familiar verses are fitted to the rhythm of all the tunes, a device that has proved its efficacy. In the duets the teacher plays the secondo, which is written with some fullness.

MARY BACON MASON

Folksongs and Famous Pictures

For Piano Beginners. Price, $1.00.

In this ingenious Kindergarten book, good old melodies are given in large notes and appropriate words, while a picture of artistic value, whose subject illustrates the words, is printed with the tune. Cut-out cards and color charts (to be colored by the child) are given; and four instructive methods of learning the songs are given.

For the Child at the Piano. With pictures by Mildred Ross.
Price, 75 cents.

This system of technical training for little children has been evolved out of practical experience and is the direct outgrowth of many years' work teaching little children to play the piano. For a long period the author has supervised the work of the children's classes in the American Conservatory of Music, Chicago, and has trained many young teachers in her Normal Classes, in the art and science of modern pedagogy. Twenty-Five Violin Exercises in the First Positions

Designed to facilitate the study of the most important strokes, and to develop the sense of rhythm.

Price, $1.00.

JOHN CRAIG KELLEY

First Lessons on the Violin

Price, $1.25.

This book aims to meet the deficiency in the supply of exercises that are *easy enough* for beginners. The method is followed of introducing only one finger at a time, and the ultimate aim is to establish flexibility of bow-arm and of left hand. Twenty-four melodies, most familiar folksongs, have been introduced at frequent intervals with the idea of making the book more attractive to the pupil. Each melody has two simple accompaniments, one for teacher and one for piano. Either or both may be used.

ALBERT G. MITCHELL, Mus. Doc.

Mitchell's Class Method for the Violin

A book for children; within their comprehension; based on the knowledge gained in the singing-lesson and built by a school man upon school lines.

Book I—First Position—Price, $1.25

Supplement to Book I—Price, $ .35

Book II—More Advanced—Price, $1.25

A Teacher's Manual and Book of Piano Accompaniments—To Book I $1.50

A Teacher's Manual and Book of Piano Accompaniments—To Book II $1.75

Violin Fingerboard chart, Full size, Three-quarter size, and Half size, each $ .15

Short, easily remembered technical exercises of an unexacting character for developing the left hand and the bow arm are inserted at suitable intervals.

The exercise work is at once applied in melodies which furnish examples of previously studied technics.
A plainly printed finger-placing chart (full-size, three-quarter and half-size), duly prepared for fixing upon the fingerboard is published separately. By using this device the pupil learns quickly to play in tune.

The movement, inaugurated in this country by Dr. Mitchell in the Boston Public Schools in 1912, has spread and is still spreading over the entire country. Thousands upon thousands of pupils have demonstrated the practical quality of the Mitchell Method. Its author has in 1924 still further perfected the work.

A concert given in 1912, in the Crystal Palace, London, by six thousand young violinists from the public schools, drew public attention to the movement which was inaugurated by an enthusiast at Maidstone in 1892; its object the general introduction of instruction in violin playing to children in the public schools. The entire success of the movement has demonstrated that class instruction is entirely possible if the pupils are already familiar with music and can sing at sight such studies as are required for the opening violin work.

Dr. Albert G. Mitchell, Assistant Director of Music in the Boston Public Schools, who was present at the great concert at Crystal Palace, concluded that if such success could be attained in England with pupils who were handicapped by the tonic-sol-fa notation, still

greater things could be done in America where the staff notation is used in singing classes.

On returning to America, Dr. Mitchell began a series of experiments in the public schools of Boston which completely demonstrated the correctness of his theory. There being no extant method for class teaching Dr. Mitchell wrote the *pioneer work*.

Possessed of an easy narrative style the author gives in a series of compact chapters all the facts we either guess at or frankly don't know about the violin. VIOLIN AND PIANO

EUGENE GRUENBERG

Melodic Violin Pieces for the Development of Style

With Piano Accompaniment.

A practical collection of teaching pieces for the violin with piano accompaniment. Issued in three books, and carefully arranged in progressive order, from the easiest grade to that of medium difficulty.

I. Fifty Very Easy Pieces in the First Position

Price, $1.50.

These brief numbers commence with two pieces for the open strings, introducing the third finger with No. 7, and all the fingers with

No. 9. Many of the selections are folksongs and there are several very easy arrangements of classical melodies.

II. Thirty Drawing Room Pieces
Price, $1.50.

These pieces, intended for the study of shifting, are all melodious and pleasing both to performer and listener. The numbers include five each by Bohm and Tours, four by both Danbe and Sitt, and pieces by Dancla, Godard, Papini, Reinecke and others.

III. Thirty Operatic Selections
Price, $1.50.

These selections, while chosen as aids in the study of shifting, are taken from operas by great writers of different periods and schools. Mozart, Rossini, Wagner and Weber are each represented by three or more numbers, and among the other composers are Auber, Bizet, Delibes, Flotow and Gounod.

(Violin parts may be ordered separately.)

EUGENE GRUENBERG — **Ten Violin Pieces**

Price, 75 cents.

In different styles with easy shifting within the first three positions. Also playable in the first position.

This set of entirely new pieces is most varied in musical style, the rhythmic, the songful and the classic dance all being represented. Fully fingered and bowed for the convenience of the teacher by the composer, whose great pedagogic skill is generally acknowledged.

JOHN CRAIG KELLEY

Graded Pieces for Violin and Piano

A series of fine melodies transcribed and arranged in progressive order. It forms an indispensable collection for teachers of beginners.

I. Fifty Easy Melodies for Violin and Piano in the First Position
Price, $1.25.

Begins with a little piece for the open strings, followed by several pieces for one or two fingers and the open strings. The balance of the book is made up of familiar folk-melodies and very easy numbers by well-known composers.

II. Thirty Pieces for Violin and Piano in the First Position
Price, $1.25.

These thirty numbers, while in the first position, are in musical and technical difficulty more advanced than those in Book I of this series, providing greater problems of fingering, bowing, rhythm, key and tempo. The final pieces demand of the pupil a dexterity of

fingering and bowing, and a feeling for rhythm, which he can hardly have acquired in less than two years' study.

III. Thirty Pieces for Violin and Piano in the First Three Positions
Price, $1.25.

The pupil may play the first pieces in this book when he has started to learn the third position, as they are very simple. The surprising dearth of attractive little pieces in the first three positions that are within the technical grasp of very young players, led the editor to make his own arrangements for the larger part of the book. Among the composers represented are Gounod, Schumann, Mendelssohn, Wagner and Verdi.

IV. Twenty Pieces for Violin and Piano in the First Five Positions
Price, $1.25.

In its technical demands and in musical dignity this volume is quite in advance of the three earlier books in this series, demanding a degree of artistry. Included in this collection are Bach's *Air for the G string,* Godard's *Berceuse,* Handel's *Larghetto,* Bohm's *Scherzoso,* Saint-Saëns' *The Swan,* and Schubert's *The Bee.*

(Violin parts may be ordered separately.)

VIOLA

ALBERT G. MITCHELL, Mus. Doc.

First Lessons on the Viola

Price, $1.50; Viola Finger Board Chart, 15 cents.

This method follows closely the lines which have made Dr. Mitchell's previous works so overwhelmingly popular both for individual and class instruction. The Viola, which has been rather inexplicably

neglected, is especially well adapted to be taught successfully by the author's compact, ingenious and labor-saving treatment of the subject. Less agile than the Violin, less complex than the 'Cello, more portable than a Double-bass, the Viola is well fitted for the use of students with musical inclination, who have but a limited amount of time to devote to study. As the Viola is absolutely essential in any orchestra, Dr. Mitchell's work should make for the musical advancement of every community.

VIOLONCELLO

FRANZ C. BORNSCHEIN

First Lessons on the Violoncello

Ditson Edition, No. 315. Price, $1.75.

The work of an experienced teacher, this instruction book is carefully graded and the fundamental problems are clearly explained. A striking feature is that each exercise centers round a technical point which is supplemented by melodic material. A teacher can use this book successfully with the individual pupil, and for class instruction; it will also serve as a self-instructor.

This Is a Real Beginner's Book, proceeding Step by Step.

CLARINET

ALBERT G. MITCHELL, Mus. Doc.

The Public School Class Method for the Clarinet

Price, $1.50.

Again the Director of Music in the Boston Schools has issued one of his valuable class instruction books, this time for that most useful instrument, the clarinet; valuable also for adult classes, for private instruction and for band training. Diagrams, drills, principles of true pedagogy, agreeable pieces and orchestral quotations all contribute to the excellence of the work.

CORNET

ALBERT G. MITCHELL, Mus. Doc.

The Public School Class Method for the Cornet

Price, $1.00.

The work is especially intended for class teaching in the lower grade schools and will also prove extremely useful as a textbook for schools of mixed grades in small towns. The general system is *Pedagogic* and primarily intended for use under the supervision of a teacher but will also prove valuable as an elementary method for private study.

TROMBONE

ALBERT G. MITCHELL, Mus. Doc.

The Public School Class Method for the Slide Trombone (Bass Clef)

Price, $1.00.

The great popularity of the Public School Class Methods for the Violin and Cornet by the same author has led us to offer another method founded upon the same general principles. These books embody the author's experience of many years in teaching school children and in training grade teachers. The method is progressive upon easy lines and contains drill charts, technical study and recreations; also a Credit Course.

SIGHT SINGING METHODS

SAMUEL WINKLEY COLE — **Musical Dictation**

Price, $1.00.

For teachers, conservatories of music, high schools and all educational institutions. This small volume gives all the material necessary for a complete course in musical dictation, designed to train the sense of pitch, of rhythm, and the other elements of sight-singing. It consists largely of exercises which cover the ground with thoroughness.

S. W. COLE AND PROF. L. R. LEWIS — **Melodia**

Course in Sight Singing

Price, *complete*, $2.00. Four books, *each*, 75 cents.

This work on sight reading devotes the first eighty pages to various rhythms, without skips. Skips are then introduced with the octave, the one most easily recognized by most beginners. In all the 1500 exercises the normal compass of the average voice is rarely exceeded, and deliberate progressiveness is maintained in the introduction of new difficulties. A large proportion of the exercises are two-part, combining treble and bass, which may be inverted. The latter half of the work consists chiefly of brief solo and two-voice extracts from the great choral writers, involving difficult tasks in pitch and rhythm.

AUGUSTE M. PANSERON — **A B C of Music**

(The Music Students Library.)

Price, *cloth*, $1.50; *paper*, 90 cents.

A revised edition, by N. Clifford Page, of a standard work on vocal-

ization. It contains the elements of music and solfeggi. For classes and private instruction.

The elements of French pronunciation are reduced to a few fundamental principles, readily mastered.

D. A. CLIPPINGER **Head Voice and Other Problems**

(The Music Students Library.) Price, $1.25.

This is an intensely valuable and practical treatise which shows its author to be possessed of humor, insight, and wisdom born of experience. It consists of a series of talks on singing, dealing with its technical nature, and likewise with its interpretative and emotional aspects. The volume will prove an excellent guide to illuminate the realm of song, and a genuine help over the technical difficulties of singing.

THOMAS FILLEBROWN, M.D.

Resonance in Singing and Speaking

(The Music Students Library.) Price, $1.50.

An exposition of fundamentals, with breathing and vocal exercises and illustrations.

CLAUDE ELLSWORTH JOHNSON

The Training of Boys' Voices

(The Music Students Library.) Price, $1.25.

A thorough and practical guide to the correct "placing" and training of boys' voices; a publication of timely significance in view of the increasing tendency to follow the precedent long since set by the Church of England in the employment of the boy-choir in preference to that composed of men and women.

A noteworthy feature contained in the last chapter of the book (which will at once commend itself in solving the puzzle of proper music selection) is an extensive list of sacred and secular music especially written for or adapted to the uses of boy choirs and schools.

ARTHUR L. MANCHESTER

Twelve Lessons in the Fundamentals of Voice Production

(The Music Students Library.) Price, $1.25.

A book for teachers and students, presenting in a practical form the essential truths of voice production, with exercises to place the tones perfectly, and to prepare the young student for future drill in the principles of artistic singing.

SARAH ROBINSON-DUFF

Simple Truths Used by Great Singers

Price, $1.00.

A series of bright and brief chapters on subjects of vital import to those who would sing with art and understanding. The author is a woman of general, as well as musical culture, who has associated intimately with great singers, and who numbers among her own pupils the brilliant Mary Garden. In conversational and easy style she treats of *Breathing, Tone-placing, Vocalizing, Resonance,* and kindred topics, as exemplified in the usage of famous artists; supplementing the ripe fruits of her own observation by powerfully suggestive hints gathered from talks with Melba, Sembrich, Calvé, and a host of other preëminent singers.

CLARA KATHLEEN ROGERS **Clearcut Speech in Song**

(The Pocket Music Student.) Price, 60 cents.

In this clear-cut book one of America's authorities on diction, the proper enunciation and pronounciation of English, especially in singing, has given students a guide that will help them to overcome the commonest fault in American singers—mumbled words. This training should begin in the schoolroom.

CLARA KATHLEEN ROGERS **Your Voice and You**
(What the singer should do)

Price, $1.75.

Mrs. Rogers here sums up her study of *what the singer should do*—the fruitage of fifty years of rich experience as a singer, teacher and musician, gifted with the faculty of keen observation and an analytic mind.
The book is therefore a direct, practical and compact message from one who knows to the many students of song who are eager to know. That the work stresses the *psychological* aspects of singing rather than its physiological processes is in accord with the major trend of today.
The volume is a stimulating and authoritative message for every singer and student of the voice; and its purpose is the achievement of free and beautiful vocal utterance.

LOUIS ARTHUR RUSSELL **Commonplaces of Vocal Art**

WILLIAM SHAKESPEARE **Art of Singing**

Price, complete, $2.25.

The famous English vocal teacher first published this widely known work in 1898, more recently revising it. His co-ordinate aims are,—to assist the singer in securing perfect breath control, to train the vocal organs to act with unconscious ease, and to facilitate correct diction. An analysis and clear discussion of the physical fundamentals of singing connected with the torso, the vocal organs, the jaw, head and nasal cavities, registers, etc., occupy the first forty pages. The remainder of the book comprises carefully prepared exercises that deal with various aspects of breath control, vowel placing, proper enunciation of consonants and passage execution. There is a thorough discussion of each difficulty presented, and the exercises are planned to meet the demands of all voices.

MARIE WITHROW — **Some Staccato Notes for Singers**

Price, $1.00.

Largely through detached and pointed paragraphs, the author arouses the mind of the singer to the need of *mental* and *physical* as well as vocal fitness: freedom and confidence are secured only through correct habits of mind and body. There is a clear discussion regarding energy—where to exert force and tension, and where to release—involving proper chest control and dynamics, with entire freedom above the shoulders. A few of the other subjects treated are:—"aural dare"—expecting, listening, choosing—nasal, head and chest resonance—speech—substitution of "vowel" for "tone." The author is a successful teacher in London and San Francisco.

The experienced hand and fluent melody of the composer have never been more in evidence than in this light and fanciful musical score.

This operetta has been produced several times from manuscript, and has met with uncommon success. Mr. E. S. Pitcher, Supervisor of

Music in the Public Schools of Auburn, Maine, produced it from manuscript, and what he has to say about it is interesting reading:

"We played *Pepita* twice to crowded houses, and the audience was delighted with the operetta, which was, in the general opinion, the best ever given here. The principal of the school, Mr. Moulton, and the teachers were highly pleased with the work."

WILLIAM LESTER — **Se-a-wan-a**

(The Cherry Maid.)

An Operetta for Women's Voices

Opus 73. Price, $1.25. Orchestra Parts, Full, for rent per month, $6.00.

The story of this operetta is an Indian legend, of which Se-a-wan-a (the Cherry Maid) is the heroine. It gives opportunity for picturesque costuming and a simple though effective forest stage-setting. The music is fresh in melody and rhythm, consisting of solos, choruses, dances and dramatic *scenas;* and throughout it has the flavor of Indian folk-tunes in keeping with the subject and characters. Cleverly the author has handled the love interest of the legend, so that the male characters are not seen, and all the stage parts are for women.

MARION LODER — **Cinderella in Flowerland**

An Entertainment for Children's Voices

Price, 50 cents.

A simple woodland setting, with slight modifications for the chang-

ing scenes, will suffice for this piece. Dramatizing the familiar story in the different realms of bees, butterflies, and flowers lends the charm of flower-costumes and new situations. The music is bright.

MARION AND V. A. LODER — **A Golden Gift**

An Operetta for Children's Voices

WILL C. MACFARLANE — **Swords and Scissors**

or Napoleon Caught Napping

A Military-Millinery Operetta for Mixed Voices

Price, $1.25. Stage Manager's Book, 75 cents. Orchestra Parts, Full, for rent per month, $10.00; Small, $7.00.

An operetta for amateurs. The witty book is concerned with an episode, both military and millinery, at the court of Napoleon. Costumes and setting may be as gorgeous as desired; and the music by an experienced composer sparkles with melody and gay rhythms, and is well within the capacity of amateur singing actors.

"Very light-hearted and gay is Mr. Macfarlane's music in this operetta and it possesses the French spirit and charm throughout. Although it is slight in form, it is always musical. His unerring sense of refinement, his dramatic instinct, and his never-failing judgment of what is fit, mark the score from beginning to end and make it significant. . . . The lyrics are delightful, that of Josephine at the opening of the operetta, being one of the finest, a veritable bijou of a song."—*Portland Daily Press.*

J. C. MACY — **The Queen's Surprise**

An Entertainment for Children's Voices

Price, 50 cents.

ALBERT W. NOLL — **Peggy's Dream**

A Musical Mother Goose Child's Play

Price, 40 cents.

Briefly, and with interesting surprises, Mother Goose characters act their parts and sing acceptable songs of varied character. The solos are divided between ten singers so that each child has little to learn. There are two choruses, three-part. Well adapted for a school entertainment.

ARTHUR A. PENN — **Your Royal Highness**

or The Boojum of Bagore

An Operetta in Two Acts

Price, $1.50. Stage Manager's Book, 75 cents. Orchestra Parts, Full, for rent per month, $10.00; Small, $7.00.

This is a most attractive operetta on all counts. The story is both fantastic and funny; the text and lyrics contain humor of up-to-date style; the music has vigor, life and catchy melody, yet it is easy enough for any amateur production. The scene is "anywhere in Asia" with full scope for color and gay costumes as well as for travesties on Oriental customs confronted by American go-getters.

HARRY HALE PIKE — **An Afternoon Tea**
An Operetta for Children

Price, 75 cents.

This little musical play is for three girls, as young as can conveniently learn the parts. The music is very pretty, tuneful and easy. The costumes are to be quite "grown-up" but the stage-set is of the simplest.

An Entertainment for Girls' Voices

Price, $1.00.

A cheerful, melodious and unassuming work of well-verified effectiveness, for use by choruses of girls' voices in schools and elsewhere.

A. LOUIS SCARMOLIN — **The Royal Playmate**
An Operetta for Children's Voices

Opus 45. Price, 60 cents. Orchestra Parts, Full, for rent per month, $7.00.

This charming little operetta contains those qualities of romance and the magical powers of fairy lore which are the eternal delight of children; and, in good fairy-tale fashion, the author has tucked in a neat little moral. The music is lively and tuneful but very simple, choruses mostly in unison. The single stage set may be easily prepared while the picturesque costumes can be made from home resources. Altogether it is a dainty and refreshing entertainment.

POLLY SIMPKINS — **Ye Little Olde Folks' Concert**
An Entertainment for Children's Voices

Price, 60 cents.

A quaintly amusing entertainment, with its old songs, yet the more acceptable in that it is fairly true to the old time rather than broadly burlesquing it. There are nine characters.

R. SPAULDING STOUGHTON

ARTHUR SULLIVAN

Trial by Jury

An Operetta for Mixed Voices

SECULAR CANTATAS AND CHORAL WORKS

ERNESTO BECUCCI

Lola's Serenade (Waltz)

A Cantata for Mixed Voices

Price, 60 cents. Orchestra Parts, Full, for rent per month, $2.50.

The work is a skillful arrangement for voices, of a well-known waltz,

for which Nathan Haskell Dole has supplied the text. Fullness, contrast and brilliancy are lent this melodious number by the unusual assignment of vocal forces.

CHARLES BENNET **The Lady of Shalott**

A Cantata for Women's Voices

Price, 75 cents. Orchestra Parts, Violin, 'Cello and Piano, for rent per month, $5.00; Full (no trombone parts), $8.00.

This fine composition was awarded the 1925 Prize by the National Federation of Music Clubs. It is a picturesque and lucid musical interpretation of Tennyson's famous romantic poem which makes the familiar lines freshly potent and vital. The composer has a melodic vein and a harmonic sense of suitable refinement; his part writing is free and vocal; and the important solos allotted to the Soprano and Baritone have individual character and opportunity for definitely expressive singing.

GEORGES BIZET (Arranged by N. Clifford Page)

Choral Fantasia from *Carmen*

Price, 50 cents. Orchestra Parts, Full, for rent per month, $4.00.

No opera has more numbers that are known and loved for their piquant rhythms and exquisite melodies than Bizet's masterpiece. The editor has introduced all the best of these. Solos, trios, and choruses are all present in an easy choral arrangement.

ELIAS BLUM **The Last Tea of Tsuki**

Scene for Girls' Voices

Price, 50 cents. Orchestra Parts, Strings, Flutes and Harp, for rent per month, $5.00.

Written for three and four-part chorus with short solos for Soprano, Mezzo Soprano and Alto. The music is colorful without being unmelodious or bizarre, and gives pretty play to the timbre of girls' voices, both in solo and choral passages. The scene, a Japanese garden may be suggested with screens and lanterns and the costumes may be adapted from the universal kimonas; or both may be as elaborate as circumstances permit. The work is equally effective as a concert number, without costumes or stage settings.

FRANZ C. BORNSCHEIN **The Maypole of Merrymount**

A Cantata for Women's Voices

Price, 40 cents.

A short cantata for a chorus of women's voices, with solos for bass and soprano. The chorus parts are especially attractive and insure great popularity for this eminently singable cantata.

FRANZ C. BORNSCHEIN — **Zorah**

A Cantata for Women's Voices

Price, 50 cents. Orchestra Parts, Full, for rent per month, $3.00.

The picturesque text gives the composer opportunity for Oriental color and dramatic effects in his music. There are two extended and very expressive solos for soprano, and the choral effects range over varied moods.

GENA BRANSCOMBE — **Pilgrims of Destiny**

A Choral Drama

Price, $1.50. Orchestra Parts, Full, for rent per month, $12.00.

Almost of oratorio proportions is this fine work, and certainly of dignified and dramatic character. The author places the scene on board the *Mayflower* during the time of stress, storm and doubt just before the sighting of land; and the music deals graphically with the dissatisfied hired sailors, with the terror during a fearful storm, with the sufferings of women, and the play of children, with the inspiring and noble trust of Bradford. Finally, when land is sighted, the whole company greet it with a great hymn of thanksgiving, hope and prophecy.

CARL BUSCH — **Paul Revere's Ride**

A Cantata for Mixed Voices

Price, 75 cents. Orchestra Parts, Full, for rent per month, $5.00.

A cantata on this theme need only be invitingly singable and competently composed to find a welcome. This setting deserves both commendations, and presents only moderate difficulty.

CARL BUSCH — **Sir Galahad**

A Cantata for Mixed Voices

Price, 25 cents. Orchestra Parts, Grand, for rent per month, $4.00.

This fine ballad won the 1921 prize offered by the Philharmonic Choir of Boston. The writing for the solo baritone is virile, strong and rugged; the chorus is massively treated.

CARL BUSCH — **Song of Spring**

A Cantata for Girls' Voices

Price, 50 cents. Orchestra Parts, Full, for rent per month, $4.00.

In addition to the true vocal quality of this cantata, the moderate downward range of the alto part will commend the work to directors of choruses of young singers.

Price, $1.00. Orchestra Parts, Full, for rent per month, $10.00; Small, $7.00.

LOUIS ADOLPHE COERNE

The Landing of the Pilgrims

A Two-part Cantata for Schools

LOUIS ADOLPHE COERNE **Skipper Ireson's Ride**

A Cantata for Mixed Voices

Price, 30 cents. Orchestra Parts, Full, for rent per month, $3.00.

To Whittier's stirring ballad, based on a quaint incident in old Marblehead, the composer has made attractive and ingenious music, wherein the clattering rhythms of the ignoble "Ride," contrast delightfully with quiet pastoral coloring.

LOUIS ADOLPHE COERNE **Song of Victory**

A Cantata for Mixed or Women's Voices

Price, 60 cents. Orchestra Parts, Full, for rent per month, $5.00.

A work which, while well considered to meet the requirements of the average choir or chorus in point of difficulty, deserves by its dignity and musical merit an enthusiastic reception among the most proficient societies.

VERNA LORRAINE DAY **Festival of the Flowers**

Song Cycle for Children

Price, 75 cents.

These songs are all about the flowers, seeds, the grass, rain, etc., and are interspersed by dances. They are to be sung in sequence by children dressed in appropriate costumes and make a delightful program about spring and summer. The entertainment may be

given indoors, but is especially beautiful played outside. The costumes are described and the dances, which are very simple and easy to teach, are fully explained.

PERCY E. FLETCHER — **Bridal of Weetamoo**

A Cantata for Mixed Voices

Price, 75 cents. *In Press.*

CECIL FORSYTH — **Lady Anne**

Choral Ballad for Women's Voices

Price, 50 cents.

A tale of almost Gilbertian humor and sense of parody, the composer (who is also the talented author) has properly given it musical setting in a direct, clear, deft manner worthy of Sullivan. The work is easy, the chorus writing always in simple style and clear-cut melody, the words are set forth with rich significance—this is a genuine novelty, and as such should prove a blessing to conductors and audiences.

LOUISE AYRES GARNETT — **A Forest Rondo**

A Cantata for Children's Voices

Price, 50 cents. Orchestra Parts, Grand, for rent per month, $8.00; Full, $5.00.

Bright and happy is the character of this short cantata written for a two-part chorus of children's voices. The accompaniment is for piano or orchestra, and adds greatly to the effect of the work with its graceful figuration and pleasing harmonic scheme.

HARVEY B. GAUL — **A Thracian Holiday**

A Cantata for Women's Voices

Price, 75 cents.

A refreshing paganism, shot through with beauty, is disclosed in both the text and music of this charming choral work. The composer allows himself free harmonic and rhythmic play, which is not without difficulty to the performers, but does convey the Greek sense of Nature's loveliness. Recommended heartily to competent and questing choruses.

CHARLES GOUNOD — **Choral Fantasia from *Faust***

(Arranged by N. Clifford Page)

Price, 50 cents. Orchestra Parts, Full, for rent per month, $4.00.

The arranger has cleverly contrived that all the best known solos, concerted numbers and chorus are indicated in this fantasia. All are treated chorally, and difficulties are so minimized that high schools and popular choruses may perform the work.

EDVARD GRIEG (Arranged by W. Franke-Harling)

A Spring Cycle

A Cantata for Women's Voices

Price, 75 cents. Orchestra Parts, Full, for rent per month, $3.00.

Songs selected from Grieg's works, such as are associated in music and sentiment, have been arranged for chorus of women's voices, with solos interspersed.

WILLIAM HAESCHE **Red Godwin's Wooing**

A Dramatic Ballad for Women's Voices

Price, 75 cents. Orchestra Parts, Full, for rent per month, $7.00.

A stirring dramatic tale of the days when love was chivalry, when knights in armor fought for the favor of highborn ladies. The choral writing, in three-part harmony, is vigorous, rhythmic and in a generally martial style with a few more lyric episodes; and it is not extreme in range nor difficult in intervals. Solos for a soprano are moderately introduced and heighten the note of romance so refreshing to modern ears.

E. S. HOSMER **Columbus**

A Short Cantata for Mixed, Men's and Women's (3-part) Voices

Price, 40 cents. Orchestra Parts, Full, for rent per month, $2.50.

This is a short and easy work, suited in both style and subject to use by schools and amateur societies. The music is melodious and not without dramatic touches; it calls for a baritone solo voice. The part-writing makes large use of unisons, and all awkward progressions have been skilfully avoided.

E. S. HOSMER **Our First Flag**

A Cantata for Mixed Voices

Price, 40 cents.

This is a spirited and tuneful little work, as well adapted to use by high schools as by choral societies. Though the music is easy to sing it is inspiring; and in union with the patriotic text which tells how our flag came into being, possesses the power to thrill.

E. S. HOSMER **The Pilgrims of 1620**

A Cantata for Mixed Voices

Price, 50 cents. Orchestra Parts, Full, for rent per month, $5.00.

From their farewell to Leyden, through the stormy voyage to the shelter of Provincetown Harbor, the signing of the compact in the cabin of the Mayflower, and the landing at Plymouth the vivid text and music carry the dauntless Pilgrims.

E. S. HOSMER — **The Unknown Soldier**

A Short Cantata for Women's Voices

Price, 60 cents. Orchestra Parts, Full, for rent per month, $4.00.

An excellent little work for use in schools at such times as Armistice Day or Memorial Day. The choral writing is easy and the moods are varied, all written in Mr. Hosmer's fluent, spontaneous, melodic style. There are no solos, and the cantata takes about fifteen minutes in performance. A word is due the high idealistic character of the text by Josephine Moroney, which is uplifting and not morbid, purposeful and not brooding.

JULES JORDAN — **Barbara Frietchie**

A Cantata for Mixed Voices

Price, 50 cents. Orchestra Parts, Full, for rent per month, $5.00; School Edition, 35 cents.

The composer's response to, and musical vivifying of, the appeal of Whittier's poem is sympathetically shown in a spirited score, productive of enthusiasm.

HENRY C. LAHEE — **The Building of the Ship**

A Cantata for Mixed Voices

Price, $1.00. 14 Orchestra Parts and Oboe, for rent per month, $5.00.

Effectiveness with average choral resources is an outstanding trait of this work, resting upon the particular excellences of simple melodic directness, competent part-writing and good taste.

EDITH LANG — **The Shepherd Lady**

A Cantata for Women's Voices

Price, 50 cents. Orchestra Parts: Violin, 'Cello, Flute, Clarinet, and Harp, for rent per month, $2.50.

Jean Ingelow's pretty pastoral has the flavor of romance; and in this spirit, and with a rich vein of spontaneous and fluent melody to draw upon, the composer has written music which has unusual charm, color and flexibility.

WILLIAM LESTER — **Manheim's Daughter**

Choral Ballad for Mixed Voices

Price, 75 cents.

This fine work has for text a vivid treatment of a patriotic legend, touched by the picturesque, the heroic and the tragic, wherein the daughter of a Hessian innkeeper saves Washington from the assas-

sins at the cost of her life. The composer avails himself brilliantly of these stirring situations with music that is rich, fluent and significant. Deserves and demands good preparation.

FRANCES McCOLLIN — **The Singing Leaves**

A Cantata for Women's Voices

Price, 60 cents. Orchestra Parts, Full, for rent per month, $4.00.

Conspicuous for its flow of easy and graceful melody clothing the poem without break is this lyric cantata, which was awarded a prize by the Matinée Musical Club of Philadelphia.

FRANCES McCOLLIN — **The Sleeping Beauty**

A Cantata for Women's Voices

Price, 60 cents. Orchestra Parts, Full, for rent per month, $4.00.

A singable, practical work for three-part chorus of women's voices, and particularly suited to use in women's clubs, girls' colleges and schools, and high schools. Two leading solo voices are required, soprano and tenor, and there is, in addition, a short solo passage for contralto solo.

CHARLES F. NOYES — **The Village Blacksmith**

A Cantata for Mixed Voices

Price, 60 cents. Orchestra Parts, Full, for rent per month, $5.00.

Arrangement for Women's or Children's Voices, 60 cents.

Melodious and uncomplicated, a short work available for adults or high school choruses. There are parts for organ and anvils, and bell effects, affording with the piano a complete accompaniment for concert use, when orchestra is not available.

N. CLIFFORD PAGE — **Lord Howe's Masquerade**

Ballad for Mixed Voices

Price, 75 cents. Orchestra Parts, Full, for rent per month, $5.00.

The story in brief is of the brilliant masquerade given by Lord Howe in Boston, at which, the legend runs, the apparitions of the ancient royal governors, from Endicott down, solemnly left the place where they had ruled; while the booming of Washington's cannon heralded the downfall of the Hanoverian autocracy, which had compelled brethren to bear arms against each other. The music is effective, brilliant and dramatic with many fine programmatic touches such as are inspired by the treatment of a striking episode in our national history.

N. CLIFFORD PAGE — **The Pageant of the Pilgrims**
A Cantata for Mixed Voices

Price, $1.00. Orchestra Parts, Full, for rent per month, $8.00; Grand, $12.00; Choruses, 20 cents.

In a Prologue and six Episodes, with incidental music, soli, chorus of mixed voices, and orchestra. In honor of the Tercentenary of the Landing of the Pilgrims at Plymouth, Mass., Dec. 21, 1620. The choruses are mostly in unison and the few solos are simple.

FREDERIC H. PEASE — **The Old Clock on the Stairs**
A Cantata for Mixed Voices

Price, 60 cents. Orchestra Parts, Small, for rent per month, $3.00.

An easy and straightforward setting of Longfellow's familiar poem. For mature singers, or available for high-school choruses (S.A.T.B.) when a rather low voice is to be had for the bass solos.

(Chimes of Normandy)

Price, 35 cents.

This clearly printed and durably bound little book gives all the chorus and ensemble parts of the entire opera, with all necessary cues of soloists and orchestra. ARTHUR SULLIVAN — **Chorus Parts from *Iolanthe***

Price, 35 cents.

This clearly printed and durably bound little book gives all the chorus and ensemble parts of the entire opera, with all necessary cues of soloists and orchestra. ARTHUR SULLIVAN — **Choral Fantasia from *Pinafore***
(Arranged by N. Clifford Page) — For Mixed Voices

Price, 50 cents. Orchestra Parts, Full, for rent per month, including Saxophones and E♭ Alto, $5.00.

This fantasia contains the best among the perennially popular melodies of "Pinafore" arranged in their original order. It contains no solos, as these have been included but given to different sections of the chorus, generally in unison.

ARTHUR SULLIVAN

Chorus Parts from *The Pirates of Penzance*

Price, 35 cents.

This clearly printed and durably bound little book gives all the chorus and ensemble parts of the entire opera, with all necessary cues of soloists and orchestra. GIUSEPPE VERDI **Choral Fantasia from *Il Trovatore***
(Arranged by N. Clifford Page)

Price, 50 cents. Orchestra Parts, Full, for rent per month, $4.00.

Composed at Verdi's most melodious period, *Il Trovatore* long ago established its place as a prime favorite for its wealth of beautiful airs. Mr. Page has included the best of these in their logical order, all treated chorally.

RICHARD WAGNER **Choral Fantasia from *Lohengrin***
(Arranged by Percy E. Fletcher)

Price, 60 cents. Orchestra Parts, Full, for rent per month, $2.00.

A liberal group of the most admired choral themes from the opera, with well chosen solo passages (those for soprano and bass are possible of performance by combined chorus voices instead). The total effect is consistent and gratifying. About thirty pages of chorus-writing.

RICHARD WAGNER **Choral Fantasia from *Tannhäuser***
(Arranged by Percy E. Fletcher)

Price, 60 cents. Orchestra Parts, Full, for rent per month, including Saxophones, $5.00.

This excellent Fantasia contains all the most important and suitable numbers in the opera, arranged in a natural sequence. The writing is four-part mixed chorus, but solo voices may be employed at discretion in certain arias.

HERBERT W. WAREING — **A Day in Roseland**
